DETAILED SPECIFICATIONS

1. PURPOSE

- 1.1. Lee County Board of County Commissioners, hereinafter referred to as “COUNTY”, seeks to contract for professional consulting services to provide a Construction Engineering and Inspection (CEI) CONSULTANT for contract administration, inspection and materials sampling and testing for the project known as Bell Boulevard Sidewalk Construction from SR 82 to Sunrise Boulevard in general accordance with Lee County and Florida Department of Transportation (FDOT) policy, procedures, and requirements.

2. BACKGROUND

- 2.1. Bell Boulevard is a two-lane north-south rural major collector with a posted speed limit of 45 mph located in eastern Lehigh Acres. The project is located along Bell Boulevard beginning at the intersection of S.R. 82 and extending north approximately 4.2 miles ending at the intersection of Sunrise Boulevard. The project involves the construction of a new 6-foot-wide concrete sidewalk, concrete driveway replacement, minor roadway reconstruction and paving, drainage improvements, and signing and pavement markings on the east side of Bell Boulevard. The project will provide a safe corridor for pedestrians to travel along Bell Boulevard.

2.2. Typical Sections:

- 2.2.1. **Typical Section 1** – Typical Section 1 includes the sidewalk extending on the east side of Bell Boulevard from SR 82 to Bently Street East. The existing roadway in this section includes a two-lane, two-way roadway with two 10-foot-wide travel lanes and a 2-foot-wide paved shoulder on the east and west side of the road. The location of the 6-foot-wide sidewalk will vary from 8-feet to 17-feet to the east of the edge of travel. This location will allow for the drainage swale to remain on the east side of the sidewalk which will allow the residential properties abutting the ROW to the east drain directly into the ditch.
- 2.2.2. **Typical Section 2** - Typical Section 2 includes the sidewalk extending on the east side of Bell Boulevard from Bently Street East to Casper Yost Street East. The existing roadway in this section includes a two-lane, two-way divided roadway with two 10-foot-wide travel lanes and a 12-foot- striped median. The roadway includes a 4-foot-wide paved shoulder on the east and west side of the road. The alignment of the 6-foot-wide sidewalk will be placed two feet to the west of the existing ROW line in an effort to avoid impacting the existing canopy trees while maintaining the existing swale. In areas where turn lanes are present, the location of the sidewalk will be 4-feet to 8-feet east of the edge of travel with the drainage swale located to the east of the sidewalk. The majority of the single-family lots within Typical Section 2 are developed lots and will require their driveway to be reconstructed due to the sidewalk improvements. It is also worth noting that an existing 8-inch gravity sewer line is within the green space to the east of the roadway approximately 10-feet from the edge of pavement (EOP), beginning at Milwaukee Boulevard.
- 2.2.3. **Typical Section 3**- Typical Section 3 includes the sidewalk extending on the east side of Bell Boulevard from Casper Yost Street East to Sunrise Boulevard. The existing roadway in the section includes a two-lane, two-way roadway with two 10-foot-wide travel lanes and a 2-foot-wide paved shoulder on the east and west side of the road. The sidewalk alignment in this area varies from 1) two feet to the west of the existing ROW line while maintaining the drainage swale between the sidewalk and the road to 2) 5-feet to 8.6-feet east of the edge of travel with the drainage swale located to the east of the sidewalk. Existing septic drain fields encroaching into the right-of-way along with slope concerns required the sidewalk location to shift between the two alignments. The existing 8-inch gravity sewer line referenced in Typical Section 2 continues to extend north within the green space to the east of the roadway, approximately 18-feet from EOP, and ends just south Theodore Vail Street East.

2.2.4. **Typical Section 4 (Milwaukee)** – Typical Section 4 includes the sidewalk extending west of Bell Boulevard, connecting to an existing section of sidewalk on the south side of Milwaukee Boulevard. Additionally, on the north side of Milwaukee Boulevard, an existing section of sidewalk extending east is being replaced. The existing section of sidewalk extending east is being replaced. The existing roadway is four-lane, two-way divided roadway with two 11-foot travel lanes, two 11-foot turn lanes, and a 12-foot striped median. Connecting the sidewalks further encourages pedestrian traffic in these areas and improves accessibility to any nearby facilities, including the local schools. The sidewalk alignment on the south side of Milwaukee Boulevard will typically be 0.5-feet from the ROW while maintaining the drainage swale between the sidewalk and the road. The sidewalk alignment on the north side Milwaukee Boulevard will match its existing location.

2.3. Utilities- Minor utility conflicts are anticipated which include adjusting pedestal and hand holes.

2.4. There is no Federal or State Funding associated with this project.

IMPORTANT:

For corporations, ALL documents must be signed by the president of the company or an authorized individual. For any individual other than the president, we will need one of the following to confirm their authority to sign:

- (i) a corporate resolution by the Board of Directors, or
- (ii) an extract of minutes, or
- (iii) an extract of Vote by the Board of Directors.

In the company's articles of incorporation, identify additional positions that have the power to bind the corporation. We will accept the articles of incorporation with verification from the president that a certain individual serves in that role (e.g., the president confirms that John Doe is the CEO, and the articles of incorporation provide that the CEO has the power to bind the company).

With respect to an LLC, the authority to bind a limited liability company is controlled by Florida Statutes. Managers or managing members have inherent authority to bind an LLC.

If the president of a corporation or a manager/managing member of an LLC delegates their authority, such delegation must be seen to us as company letterhead with the President's or manager/managing member's external, wet signature.
