Kathy-

The state of Florida website does not contain all the ground services pricing that we offer and that is covered by the state contract. The attached were returns shipments, which has a different rating table. Attached are the FedEx state contract net rates for the Ground services that are used most often. The returns rates start on line 167. I looked at the invoices and they do match.

Joy – per our discussion. Thanks.

Hi Bobby,

We have talked about the FedEx Ground Return Label Charges. For some reason the State does not have them posted so we can check the pricing. I believe you said this was covered by the State of Florida Contract. They need to pay this invoices but can't until we get a confirmation that they are covered by the States contract and a means to check the pricing. I hope you can help so we can get these paid.

Thank you

Kathy Ciccarelli, CPPB

Good afternoon Kathy,

Unfortunately, this is a service which is not used often and has not been posted on the Website however, it is covered on the contract. I see the rates are attached to this email so you might want to keep the for further reference in the future.

If you have any further questions please feel free to contact me.

Thank you,
