1. **ATTACHMENTS**
 - Revised Figure 5 GM IW-2
2. **QUESTIONS/ANSWERS**

1.	Figure 5 <i>Wellhead Schematics for Injection Well IW-2</i> shows an 18” gate valve is to be installed on the completed injection well. However, there is no spec section to provide further information on the type of gate valve to be installed. Please provide a spec section or further information on the type of gate valve to be installed.
Answer	Specifications for the 18-inch diameter gate valve are noted in the revised Figure 5 attached to this Addendum.
2.	Please review the quantities for Bid Schedule Items 30, 37 and 43. The quantities for these items seem inflated when calculated from the previously drilled depths.
Answer	The bid quantities were intentionally increased for covering unforeseen hydrogeological conditions. Proceed to bid the specified quantities.
3.	I wanted to reach out and inquire about if/when an addendum may be issued for this solicitation, and what the possibility was that it would include an extension to the bid due date to provide additional review time. Any information would be helpful.
Answer	Due to required construction schedule the due date remains as advertised for April 11, 2024, at 2:30 PM. Only bids received prior to the established date and time will be considered.

BIDDER/PROPOSER IS ADVISED, YOU ARE REQUIRED TO ACKNOWLEDGE RECEIPT OF THIS ADDENDUM WHEN SUBMITTING A BID/PROPOSAL. FAILURE TO COMPLY WITH THIS REQUIREMENT MAY RESULT IN THE BIDDER/PROPOSER BEING CONSIDERED NON-RESPONSIVE.

ALL OTHER TERMS AND CONDITIONS OF THE SOLICITATION DOCUMENTS ARE AND SHALL REMAIN THE SAME.
