Line Item	Question	Response *
-----------	----------	------------

7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>Navistar traces its roots to Cyrus McCormick and his invention of the mechanical reaper in 1831. The company expanded with the growth of the farm equipment industry throughout the 19th century and relocated to Chicago. After the turn of the century after merging and purchasing other farm equipment manufacturers, the company renamed itself as the International Harvester Company. During the 20th century, International branded trucks hit the market and continued to grow into larger trucks and school buses. In 1985 the company sold the farm equipment business and chose Navistar as the new corporate name and continued to invest in the truck, bus and engine businesses.</p> <p>Today the company builds International trucks and IC Bus products that are sold around the globe and also owns MWM in Brazil and 35% of Navistar Defense. International has the largest dealer network in North America (714 locations across US/Canada) and has a leading position in the government sector. We recently expanded our service network by partnering with Love's Truck Stops (350 additional locations) to even further expand our service capabilities in pursuit of better supporting our customers. International has also opened a new parts distribution center in Memphis to provide even faster shipment of parts. In addition, International offers a proprietary wireless service called On Command Connection (OCC) that takes all the engine and chassis signals off of a truck and puts them into an easy to use app that allows customers to see their fleet health reports and any upcoming service issues. There are over 640,000 vehicles on OCC and they are made up of all makes of trucks, not just International.</p> <p>Looking to the future, International introduced fully electric school bus and medium duty trucks at trade shows last year. Navistar has a corporate relationship with TRATON, the truck and bus division of Volkswagen AG, which gives International access to EV technology that has global scale and will make us a very competitive player in the commercial EV market.</p> <p>The International dealer network has sold more than 1,350 trucks to 377 Sourcewell Members off of the contract we currently hold and we look forward to serving even more members in the future.</p> <p>Our Investor Relations has a more detailed History at this link https://www.navistar.com/whoweare/heritage</p> <p>Additional website links: e-Mobility Medium Truck Video: https://youtu.be/oa654aDi8eE e-Mobility School Bus Video: https://youtu.be/TkO8GPvGM2k On Command Connect Video: https://youtu.be/1bxxUsJw International 360 Video: https://youtu.be/NFfM6z33WqI</p>

The Sales Reps that are at the dealership are employees of that dealership and will have proper licenses (if required) to sell the vehicles to Sourcewell Members.</p> <p>International has Vocational Sales Managers assigned to the Government Customers that work with the dealers to grow our government business and serve the Sourcewell Membership.</p> <p>International has a Sourcewell Website that we use with our current Sourcewell Contract. It also has the dealer locator included with it: https://internationaltrucks.com/sourcewell</p>	*
14	<p>If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.</p>	<p>States and Local Governments may require Sales Reps to have a License. International provides Government Training Annually in person at each region.</p>	*
15	<p>Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.</p>	<p>We have no knowledge of Navistar being subject to "Suspension and Debarment" in the past 10 years.</p>	*

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
42	Do your warranties cover all products, parts, and labor?	<p>International provides the following (Base Warranties will be included in supporting materials as they vary by model and powertrain)</p> <ol style="list-style-type: none"> 1. Warranty coverage is determined by a time and mileage limitation based on the sale date. 2. Coverage may vary between Base Vehicle and Base Engine Warranty Coverage and documented in the vehicle warranty coverage document. 3. Base warranty coverages have some components and/or defect modes which hold different coverage terms but are called out on warranty coverage document. 4. Any International Truck Dealership can perform warranty coverage repairs and file directly with Navistar. 5. If a customer qualifies and is approved to be a fleet level customer, they are allowed to file their own warranty claims. This can be done via Navistar Warranty Submission System. 6. Some suppliers such as: Cummins Engine, Allison Transmission, and other large Component Suppliers are required to return to their local distributors for warranty repairs. 7. Some suppliers require prior approvals to perform repairs even when performed by a Navistar Dealer. 8. If the repair is covered under warranty, the parts and labor are covered. 9. Over the Counter purchase of a part that is not installed by a Navistar Approved repair facility only receives the part expense of the warranty. If labor is also purchased with the part at a Navistar Approved service facility, then the Labor would also be included. 10. Parts returns are determined by Supplier agreements and needs, these parts are required to be returned under warranty. Requested parts back which are not returned are subject to a claim chargeback. Always hold on to the failed part until notified otherwise.
43	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	<ol style="list-style-type: none"> 1. The warranty coverage document also covers restrictions of coverage, competitive with the rest of the industry restrictions/limitations. 2. External influence, damage, modifications, etc... 3. Failure due to improper use, misapplication or abuse, could be denied 4. Failure due to improper maintenance, storage, deterioration, etc... 5. Supplier Direct warranty requirements i.e. Cummins/Allison, etc...
44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	<ol style="list-style-type: none"> 1. On Road vehicles that are still under towing coverage, have a unit disabling failure, and covered by towing coverage can be repaired at failure site. When this is more cost effective and can be properly repaired without towing the unit back to the dealer, we will reimburse for the road call in lieu of the tow expense. 2. This is not covered under the standard warranty period.
45	Are there any geographic regions of the United States (and Canada, if applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	<p>Since our products are on highway vehicles, our warranty repairs are done at the dealership or a service provider authorized by Navistar. Navistar prefers that Sourcewell Members use International Dealers for non-warranty repairs as well. Dealers that serve remote areas have the ability to get techs out to service those products, however the travel and labor expenses getting to and from those products is not covered under warranty.</p>

46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	<p>Navistar base warranty on International Trucks covers all vendors through the standard warranty offering. However, as indicated in previous response there are a few suppliers such as Cummins and Allison that require their concerns to return to their distributors for repair and warranty. Most International Dealers are certified to perform warranty work on Cummins product.</p> <p>Equipment installed at Navistar TSC Mod Centers will carry a 12 month warranty.</p> <p>For Turn Key Units, Equipment installed at the dealer, an outside mod center or a TEM/Up-fitter are not part of the Navistar Warranty, they would be covered by the party that manufactured the components/equipment and the party that installed it. The International Dealer will go through the warranty coverage in the proposal process including the installed equipment.</p> <p>We have included in the attachments the Navistar Base Warranty for vehicles offered in this proposal.</p>	*
47	What are your proposed exchange and return programs and policies?	<p>Our vehicles will be delivered as ordered and warranted free of defects and workmanship. If a vehicle is not performing to the level expected, we will engage the appropriate Field Service Personnel including our Technical Field Service Manager to expedite a repair plan. Our expectation is not only to resolve the Sourcewell Member's concern fully, but in a timely manor.</p>	*
48	Describe any service contract options for the items included in your proposal.	<p>International provides a wide variety of service contracts that are published as well as custom contracts to cover s a specific component or system to the Sourcewell Member. These Service Contracts/Warranties can be added to the spec of the truck when purchased or after the unit is built, but not delivered. Units that are in service may be eligible for extended warranty, but there are time limitations. On the A26 Engine, Navistar offers an optional 4 year / 100,000 mile / unlimited hour warranty for HV and HX models for \$999.</p>	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
49	What are your payment terms (e.g., net 10, net 30)?	For the Sourcewell Members, the International Dealer will carry the unit on their books for 30 days. Payment will take place prior to possession or upon arrival at the body company, unless Sourcewell Member makes other arrangements. If units are funded by NCL they can fund the vehicle when it arrives at the body company. For units going to a body company for that will not be funded by NCL or completed in 30 days, the selling dealer can add expense of those terms into the sale agreement.
50	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	International dealers work with NCL muni financing for Sourcewell Members. NCL is a Sourcewell Contract holder with 20 years or Sourcewell experience and the flexibility to accommodate member needs.
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	<p>The International Dealer will make sure the entity is a Sourcewell Member. If they aren't the Dealer will help the entity get signed up for Sourcewell. Once the Sourcewell Member has worked out the specs and equipment they need on the unit, the International Dealer will price the chassis and equipment using the Sourcewell Workbook Navistar Financial Team developed for the current contract. It makes sure the member gets the chassis and additional equipment priced properly as we laid out in the contract and provides an easy to read template that lays out the cost and demonstrates the discounts. Once that is completed the dealer submits the information to the Finance Team (CSA) who provides them an authorization number. When the purchase order arrives, the selling dealer send the workbook and the purchase order so the unit can be ordered. Shortly after the order is placed, the dealer will get an order/job number and a serial number for the vehicle. (A special feature code goes on all Sourcewell orders so they can easily be tracked in the system.) within 30 days of the order going into the system, the order will get fully coded and all the major components and any engineering will get scheduled prior to build. During this process the dealer will be communicating with the member and the TEM/Up-fitter to coordinate a timely installation and delivery.</p> <p>Order to build on the chassis is 120-150 days, with 15-20 days for shipment.</p> <p>Units with bodies installed can add additional 15-120 days depending on the equipment being installed and the lead times at the body installer.</p>
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Since the products sold will go through the International dealer channel, the ability to utilize a P-Card would need to be established between the Selling dealer and the Sourcewell Member. If the dealer can accommodate, they would need to add the cost of the fees incurred to the transaction. Those fees would be spelled out by the selling dealer in the proposal documentation.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
-----------	----------	------------

<p>53</p>	<p>Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.</p>	<p>For all models except the CV Model - International will utilize a pricing program for the International Dealers that defines a percentage of discount, off the list price of all vehicles. Total Chassis list and Options List, less percentage discount equals the selling price of the chassis. For the CV models they will get stated dollar discounts that are subtracted from the list price of the vehicle to establish the sale price. Spreadsheet in appendix along with a sample proposal for each model. Sourcewell Members can modify the specs to their needs and are not limited to the specs submitted. Navistar's Pricing for the 2020 Sourcewell RFP for Class 4-8 Trucks is based on the U.S. Dollar. For units purchased by Sourcewell Members in Canada, an exchange rate will be added to the pricing on the Sourcewell Member's proposal. Navistar uses this same process for pricing with Government Business in Canada. When the dealer submits the Sourcewell Member Information for pricing, Navistar will provide the selling dealer with the appropriate exchange rate and will lock the exchange rate in effect the day it is quoted and that exchange rate will be honored for 60 days. If the unit(s) are turnkey with bodies and equipment on them, the selling dealer will confirm and communicate any exchange related items associated with the bodies and any installed equipment on the vehicle(s) as well as the chassis. The exchange rate and order by date will be noted in the pricing summary the selling dealer provides the Sourcewell Member. In addition, Sourcewell is very important to the government sector we serve in Canada and Navistar has 2 dedicated Representatives based in Canada to serve the Canadian Sourcewell Members and International Dealer Network in Canada</p>

56	<p>Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.</p>	<p>International Dealers welcome "Sourced" products as a truck isn't complete without the body and equipment to do the job. The majority of our government sales are turn key and we have great relationships with the TEM's/Up-fitter. Goods Purchased outside of the chassis assembly process (including Mod Centers) can be added to the members proposal with a handling fee not to exceed 5% of the cost of those Goods and Modifications. These items and the markup is disclosed on summary sheet provided to the member with the proposal. In order to facilitate greater Sourcewell synergy, when International Dealer Sources Body and Equipment from a Sourcewell contact holding TEM equipment will be limited to a 4% Markup.</p>																																																																																																																																		

57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	This is not common. If there are additional cost, they would be disclosed in the pricing summary and agreed to by the Member. Some states require a state vehicle inspection, or a Federal DOT inspection. If State, or Provincial Law requires collecting license fees and/or taxes, that would not have been part of the Sourcwell Pricing Program. The Sourcwell member may decide the unit has to be delivered full of fuel or ask for expedited shipping	*
58	If freight, delivery, or shipping is an additional cost to the Sourcwell participating entity, describe in detail the complete freight, shipping, and delivery program.	Within the lower 48 and Canada, there is a flat fee for freight. A freight fee is included in every vehicle and covers freight to a mod center (outside International), TEM/Up-fitter, or Dealership. When the unit is ordered, the selling dealer puts in the shipping instructions. Once units are built, they are decked and shipped with carriers contracted to Navistar. When the unit arrives at the destination, they are to be inspected and any issues are identified before the drive away driver departs.	*
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Freight to Port Alaska is the same as Freight as the lower 48 states and Canada. (Shipped as Tractor or a cab and chassis) first movement. If Port Alaska is not the final destination in Alaska, the additional expense would be worked out with the selling International Dealer. Our dealer in Hawaii and the dealer in Puerto Rico handle shipping of products to their locations from either the body company or a port in the U.S.	*
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Delivery is traditionally done at the Dealership for Tractors, or the TEM/Up-fitter for units with a body installed. If the Member is requesting a unique delivery requirements, that would need to be discussed and properly described and included in the pricing proposal.	*

Navistar has offered additional incentives to Sourcwell Members for larger contracts or where there was an opportunity to take advantage of the Sourcwell offering and will continue to use as needed in future contracts.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	<p>Using Best Practices from our current contract, we require the dealer to put feature code 10JPA on Sourcewell Orders to make sure we track them and that they get "Silver Package" and any other Credits and Incentives they are due. To facilitate proper pricing for the Sourcewell Member, we have developed a "Sourcewell Pricing Workbook" that the dealer uses to price out the chassis and any additional equipment or warranties the member may require. It transfer's all the information to the members pricing sheet summary.</p> <p>The selling Dealer has to provide financial summary and purchase order so Navistar can ensure that the member has received the proper pricing. Dealers are aware that we will correct mistakes and they can get charged for items they did not do correctly.</p>
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	<p>Navistar is pleased to provide Sourcewell with the following rebates by model family:</p> <p>CV = \$1000 MV 607 = \$1500 HV 507/607 = \$1500 HV 513/613 = \$2000 HX 515/520/615/620 = \$2000 RH/LT/Lonestar = \$2000</p> <p>These rebates are NOT in the dealers proposal's and will be paid to Sourcewell Quarterly along with detailed summary sheet.</p> <p>For Parts purchased using Sourcewell Fleet Charge Program, Sourcewell will receive .5% (.005) of the total sales to Sourcewell Members using Fleet Charge. Navistar will pay this parts rebate quarterly.</p>
