COOPERATIVE SERVICES OF FLORIDA PRICING ONLY, L4093
PO BOX 151247
CAPE CORAL, FL 339151247

To Our Customers:

Due to raw material cost increases from our suppliers and increases in operating expenses, we find it necessary to increase prices on our products and services effective 8/1/2021. An updated price list is enclosed.

In addition to raw material increases, we are incurring significant labor, transportation, and cylinder costs and shortages which are impacting our business. We are committed to keeping our operating costs low while continuing to invest in plant upgrades to improve product quality and supply reliability. These adjustments will help nexAir offset a portion of the investments made to maintain the level of service expected by our customers.

Please notify your accounts payable department of this adjustment. nexAir values your business and will continue to offer application improvements and optimize gas delivery systems to help reduce your operating expenses.

If you have any questions, or require additional information, please contact your nexAir Territory Manager or me at 901-344-5262.

Sincerely,

A handwritten signature in black ink that reads "Steve Atkins". The signature is written in a cursive, flowing style.

Steve Atkins
Executive Vice President-Gas Technologies
