DELIVERABLES

1. Cooperative Services of Florida (CSF) / LeeSar agree to establish and maintain open lines of communication between designated representatives for Lee County Public Safety Logistics.
2. LeeSar will not invoice Lee County Public Safety for medical and ancillary supplies that were purchased by EMS. LeeSar will "only" invoice Lee County for medical and ancillary supplies purchased by Lee County through LeeSar.
3. LeeSar will communicate in writing any price changes (increase or decrease) to Public Safety Fiscal and Logistics as well as Procurement Management (Attn.: Diana Khan). LeeSar agrees to increase prices only by the amount of increase experienced by LeeSar as a result of its supplier increase, as evidenced by written notice to the County on letterhead from LeeSar's supplier. Documentation, can consist of letter from vendor or vendors invoice, shall be supplied with LeeSar's request for increase which will: (1) verify that the requested price increase is general in scope and not applicable just to the County; and (2) verify the amount or percentage of increase that is being passed on to the vendor by others not under the control of the vendor.
4. LeeSar agrees to provide Lee County an inventory of pharmaceutical medical kits packaged and repackaged in order to account for kit preparation costs, including Full Time Equivalent (FTE) hours. LeeSar will not exceed \$5.50 fee per medical kit and \$3.00 for sub-kit preparation. LeeSar anticipates that through process improvements, the actual cost of kit preparation will be reduced and Lee County invoices will reflect these cost savings.
5. LeeSar will make available via web access, various management reports agreed upon by Lee County Logistics. The expected reports include, but not limited to: product inventory ordered and on-hand, product usage, medical kits made and or repackaged and delivered.
6. LeeSar agrees to deliver 6 days a week of the year, including holidays, medical and ancillary supplies to designated Logistics supply depots. Alteration of delivery schedule(s) must be mutually agreed upon and approved by Lee County Logistics staff prior to implementation.
7. LeeSar is to maintain supply depots in an orderly and clean manner including the sweeping and mopping of depot floors as needed, but no less than monthly and emptying and off-site disposal of trash daily.
8. LeeSar agrees to maintain an adequate inventory consistent with this agreement of all pre-built kits and open stock on hand to prevent outages at anytime.
9. LeeSar is to inventory date sensitive medications to insure no expired drugs are in stock at their warehouse, in pre-built kits, or supply depots.
10. LeeSar to provide Logistics designee a written process for identifying and disposal of expired drugs in open stock and in pharmaceutical medical kits.
11. LeeSar agrees to supply and update all necessary Material Safety Data Sheets (MSDS) to the County in a timely fashion.

Request Initiated

Commissioner:

Department: PUBLIC SAFETY

Division: Emergency Medical Services

By: Robert Farmer

Background:

On March 7, 2014, the Division of Procurement Management received a request from Public Safety to prepare a request to obtain Board approval of both the piggyback of a contract and a negotiated agreement with LeeSar for the purchase medications and medical supplies and the packaging and distributing of medical kits used on ambulances.

History

Public Safety initially contracted with LeeSar for the acquisition of medications and medical supplies as well as the assembling and distribution of ambulance medical kits in 2009. This relationship has proven to be mutually beneficial. With the contract reaching end of life on April 27, 2014, Procurement and Public Safety considered bidding this out. However, it was decided that due to the fact that LeeSar was the sole respondent to the solicitation in 2009 (with research indicating that a sole response would again be obtained); it was decided to enter into negotiations with LeeSar using the pricing from the current contract as a baseline.

12. Commission Action:

Procurement and Public Safety worked as a team participating in several negotiation sessions with LeeSar. This effort resulted in the following:

- A per kit assembly cost that remains the same as the current contract.
- A “floating” discount structure with respect to medications and medical supplies included in each kit based upon the costs incurred by LeeSar to obtain the medications and supplies which ensures the County is benefitting from the greatest savings available on a per product basis.
- Elimination of direct County responsibility for the fuel costs and vehicle maintenance for the delivery vehicle.
- An annual estimated cost savings of \$100,000 based upon the purchase of products through LeeSar versus the open market (which is in accord with the findings of a recent audit by the Clerk of Courts).
