E1 Contract #: NA
Board Approval Date: 9/5/23

Lee County CISO and Cybersecurity Support Positions Statement of Work

1. Scope of Work.

The Contractor shall provide information technology (IT) staff augmentation services in support of the Lee County's Office of Information Technology (OIT). The Contractor must provide the qualified Chief Information Security Officer (CISO) and Cybersecurity Support Positions of Security Manager and Security Specialist proposed in its Response, and selected by the County, who has the experience and ability to fulfill the requirements of this Statement of Work (SOW). The Contractor shall provide services in compliance with the terms of The Department of Management Services- Florida State Contract No. 80101507-21-STC-ITSA.

2. Definitions.

In this SOW, the following terms are defined as set forth below:

- a. **Business Days** – Monday through Friday, inclusive, except for holidays identified in section 110.117, Florida Statutes (F.S.), or emergencies identified by the Department's Contract Manager.
- b. **Contractor** – The entity selected to provide services pursuant to this Statement of Work (SOW). "Contractor" shall be defined as Contractor, its Affiliates, and its and their employees, directors, officers, agents, representatives, subcontractors, interconnection service Contractors and suppliers.
- c. **County** –shall be defined as Department, You, Lee County, Florida, Office of Information Technology, Your Affiliates, and Your and their employees, directors, officers, agents, and representatives.
- d. **Damages** - will refer collectively to all injury, damage, liability, loss, penalty, interest and expense incurred.
- e. **Office of Information Technology (OIT)** – A unit of the Department that plans, manages, and maintains the IT resources for the County.
- f. **Project Team** – A team whose members usually belong to different groups and are assigned to activities for the same project.

3. Purchase Order (PO) Duration.

- a. **Term.** October 1th, 2023, until September 30th, 2024, unless otherwise terminated.
- b. **Renewals.** The PO may be renewed if the underlying State Term Contract No. 80101507-21-STC-ITSA, Information Technology Staff Augmentation Services (Contract), (STC), is extended, but the renewal period will not exceed the expiration of the STC by more than twelve (12) months.

4. Payment Provisions.

- a. **Invoicing.** The Contractor shall invoice the Department monthly by submitting invoices to:

**Lee County Finance Department
Post Office Box 2238
Fort Myers, FL 33902-2238**

- b. **Compensation.** The Department will pay the fixed hourly rate of compensation proposed in the Contractor's Response for the services provided under the PO. All payments are subject to the acceptance of the deliverables through the process set forth in Section 5.d., Acceptance of Deliverables. The PO will not exceed the estimated total PO Amount in fiscal year 2023-2024 without modification and issuance of a change order to the PO. No costs or expenses, incurred by the Contractor for the services described herein will be reimbursed by the Department. Pre-approved travel expenses incurred by the Contractor will be reimbursed by the Department at cost to the contractor.

 Board Approval Date: _____

5. Contractor Responsibilities.

- a. **CISO and Support Personnel Task List.** The Contractor, through the CISO and Cybersecurity Support Personnel it provides, shall perform the following tasks as assigned by the Department's Contract Manager:

Item #	Service
SC.1	Lead Cyber Governance, Risk, and Compliance (GRC) for the County.
SC.2	Assist and participate in communicating cybersecurity issues to County leadership.
SC.3	Work to reduce risk exposure to technology assets to acceptable levels defined by County leadership.
SC.4	Ensure Local, State, and Federal regulatory compliance as required by the County.
SC.5	Ensure compliance with industry regulations (e.g., PCI, HIPAA, etc.) as required by the County.
SC.6	Develop and maintain frameworks and processes to institutionalize cyber for the County.
ST.1	Conduct penetration testing, vulnerability assessment, and/or cybersecurity assessment services (up to three (3) tests or assessments for small projects or operational systems per contract year (up to one week of testing or assessment each)
ST.2	Find problems malicious actors would seek to exploit
ST.3	Provide neutral, third-party testing and evaluation
ST.4	Review effectiveness of the County's cyber posture, infrastructure, and provider support
SI.1	Provide strategies and plans to improve incident handling and response communication and coordination across the County
SI.2	Develop playbooks and processes to reduce downtime and remain in compliance
SI.3	Provide strategies for maintaining public trust
SO.1	Provide Virtual Security Operations Center (SOC) Analyst (aka SOC as a service)
SO.2	Identify threats before they become critical events
SO.3	Provide timely response and protection

Table 1 Services

Item #	Service Level	Measurement Period	Measure	Required Service Level (as calculated below)
MC.1	Provide cyber situation report	Monthly	1 per week	100%
MC.2	Review compliance	Quarterly	1 per month	100%
MC.3	Framework and process updates	Biannually	1 per quarter	100%
MT.1	Provide test report	As requested by Client	Within one week of testing cycle	100%
MI.1	Provide incident handling plan update	Biannually	1 per quarter	100%
MO.1	Provide alerting and guidance	Monthly	Within 24 hours	100%

E1 Contract # _____

Board Approval Date: _____

1. Deliverables. The Contractor shall perform the tasks listed in Section 5.a., as requested by the Department. The Contractor shall invoice these tasks to the Department in one-hour increments, at the fixed hourly rate specified in the PO. The Contractor shall provide evidence of performance by submitting the required documentation detailed in the list below to the Department's Contract Manager. Documentation shall be submitted in a format compatible with MS Office 2013, or newer.
 2. Status Report. A report detailing the status of tasks, level of service provided to Department staff, and the projected completion date for each assigned task. The Contractor shall submit this report weekly on the day specified by the Department's Contract Manager.
 3. Time Reports. A report detailing the tasks worked on each day and the hours spent on each task. The Contractor shall submit this report no later than the 5th day of the month that follows the month for which the total hours worked are being submitted, via the OIT Time Log (upon the start date of the Contractor Representative, as defined in Attachment 1, Standard Terms and Conditions, access to this log will be provided), using the agreed upon CCIDs for the work performed.
 4. Technical Documentation. Documentation, identified in the SDF, that evidences all work performed complies with the OIT policies, procedures, and technical standards provided to the Contractor by the Department's Contract Manager. The information contained in the technical documentation must also facilitate the transfer of knowledge to the Department's staff that is necessary to maintain the system(s), application(s), or solution(s) that the Contractor Representative has worked on. The technical documentation must be satisfactorily completed within the response time specified by the Department's Contract Manager.
 5. Additional Documentation. Any additional documentation required by the Department's Contract Manager, which must be submitted within the timeframe specified by the Department's Contract Manager.
- b. Performance Measures. The Contractor shall provide the deliverables and required documentation in accordance with Sections 5.a. above.
 - c. Acceptance of Deliverables. The Contractor shall submit the required documentation evidencing the deliverables listed in Section 5.b., above, to the Department's Contract Manager for review and approval. Notwithstanding Section 5, Acceptance of Deliverables, of Attachment 1, Standard Terms and Conditions, failure to accept a deliverable within twenty (20) Business Days constitutes non-acceptance by the Department, unless provided otherwise by the Department's Contract Manager in writing. If subsequent work that is the responsibility of the Contractor invalidates some or all of the contents of a deliverable, the Department reserves the right to require the Contractor to revise deliverables previously approved at no additional cost to the Department or to reject current deliverables based on inconsistency with the SOW.
 - d. Facilities and Equipment. The Department will provide items such as working facilities, development and testing environments, equipment and software licenses, access to the Department's network, and internet connectivity, etc. **Note: A Contractor Representative with access to the Department's network is required to complete the Department's security awareness training. This training must be completed within fifteen (15) calendar days of the Contractor Representative's start date.** If the Contractor Representative uses his or her own computer laptop, the equipment must undergo a security review by the Department to ensure it is free of software viruses and does not otherwise pose a security threat prior to connection to the Department's network.
6. **Qualification Requirements for Contractor Representative.**
 - a. Professional Qualification Requirements.
 - CISO (Chief Information Security Office) Senior Security Manager
 - CISSP (Certified Information System Security Professional)
 - GSLC (GAIC Security Leadership Certification)
 - 10+ years' experience in technology
 - 5+ Years' experience as CIO or CISO
 - Experience in conducting NIST Experience in conducting NIST (National Institute of Standards and Technology) assessments
 - vSOC (Virtual Security Operations Center) Advanced Cybersecurity Specialist
 - GIAC – Security Essentials
 - Expertise with Palo Alto Cortex XDR

PB220535KLB
Information Technology Staff Augmentation Services
IT Staffing and Consulting, Inc. d.b.a. ISC
Florida State Contract No. 80101507-21-STC-ITSA

E1 Contract # _____
Board Approval Date: _____

- Degree in computer science, networks, or cyber security
- 3+ years' experience in technology, cyber security, or incident response/management
- VA & PT (Vulnerability Assessment, Penetration Test)
 - Degree in computer science, networks, or cyber security
 - OSCP (offensive security certified professional) certification
 - 5+ years' experience technology, cyber security, or incident response/management
 - Experience in conducting NIST (National Institute of Standards and Technology) assessments
- Senior Cyber Security Engineer
 - (PCCSA) Palo Alto Certified Associate
 - MITRE Attack Defender (MAD) ATT&CK Cyber Threat Intelligence Certification
 - 10+ years' experience in technology, cyber security, or incident response / management
- IR (Incident Response) Planning
 - Expertise in Florida County level cyber incident response planning
- Cybersecurity SME
 - CISSP (Certified Information System Security Professional)
 - 10+ years' experience in cybersecurity

b. Educational Requirements. The Contractor Representative, and any subsequent Contractor Representative provided by the Contractor, must possess, at a minimum, a bachelor's degree in one of the computer sciences fields or in management information systems, or four (4) years of work experience in IT, systems analysis, management analysis, program planning, program research, or program evaluation.

7. MISCELLANEOUS PURCHASE ORDERS TERMS:

- a. Termination for Convenience. The Department may, in its sole discretion, terminate the PO at any time by giving one (1) month's written notice to the Contractor.
- b. Transition Plan. At the end of the PO term, or if the PO is otherwise terminated, the Contractor agrees to cooperate in the transition of PO services to the Department or a successor contractor. The transition will include, at a minimum, training, transfer of data, and transition period error correction.
- c. Background Checks. The Contractor Representative provided to perform the work described herein must undergo a background check at the expense of the Contractor. Review and approval of a background check, which, at a minimum, is the equivalent of a Level 2 screening described in section 435.04, Florida Statutes, including fingerprinting, is required for each Contractor Representative before he or she will be allowed to perform work under the PO.

8. DEPARTMENT'S CONTRACT MANAGER.

The Department's Contract Manager for the PO is:
Ashley Mason, Director, Innovation and Technology

Personnel Resumes

Dr. Benjamin Barnhill

Education / Certifications:

- Doctor of Information Technology, 4.0 GPA, Cybersecurity, Capella University, 04/2023 Dissertation Topic: Federal agencies cyber threat indicator share programs
- Master of Science, Cybersecurity / Information Assurance, Western Governors University, 06/2017
- Bachelor of Science, Information Technology / Security, Western Governors University, 08/2016
- Certifications: CISSP, CHFI, A+, Net+, Sec+, Project+, Linux+, Linux Essentials, CCNA, CEH, Digital Forensic Investigator
- Programming Models & Languages: Agile & Waterfall, C++, Java, JavaScript
- Compliance Models: NIST, CMMC, CSF

Professional Experience:

Senior Security Consultant, PLEX Cyber, 03/22/2022 - Current

- Conducted physical and wireless red team assessments against commercial organizations. Leveraged Kali Linux and a variety of tools for penetration testing. Identified Security gaps in both physical and IT infrastructures. Provided detailed report on findings and potential mitigations.
- Performed NIST/CSF/CMMC assessments of commercial organizations. Reviewed documentation to ensure best practices were documented. Interviewed personnel to ensure documented practices were enforced; Drafted reports with recommendation to enhance or meet compliance requirements
- Developed portable wireless assessment platform to anonymously perform Man-In-The-Middle testing

Senior Systems Engineer – Level 3, PLEX Solutions LLC, National Security Agency, 04/01/2022 - Current

- Provided direct subject matter expertise to NSA Customer. Overhauled overarching Systems Engineering processes and procedures for entire directorate. Drafted 120-page Systems Engineering handbook and converted 15+ templates into directorate formatting. Leveraged resources from Systems Engineering frameworks such as: DoDAFv2.0, PMBok, SEBok, and RMF.
- Oversaw delivery of monthly status reporting. Ensured metrics, schedules, and status updates were accurately captured and disseminated. Participated in multiple cross organization working groups to enhance organizational business practices. Created collaboration sites on both SharePoint and Confluence. Authored organization project workflow.
- Coordinated publication of National level cybersecurity policy on behalf of NSA. Assisted with establishing Quantum Resistant security protocols for next-generation cybersecurity controls.

SkillBridge Intern / Cybersecurity Compliance Specialist, Applied Network Solutions, 09/01/2021 to 03/01/2022

- Enhanced small business cybersecurity program, established a road map to compliance with the Cybersecurity Maturity Model Certification (CMMC), solidified best practices, reviewed and recommended technology solutions, and drafted organization policies, procedures, and standards
- Authored and responded to request for proposals for Red Team / Blue Team exercises
- Defined and implemented business tools including Multi Factor Authentication (MFA), Mobile Device Management (MDM), Security Information and Event Management (SIEM) solutions

United States Air Force (USAF) 02/5/2002 to 03/01/2022

Mission Superintendent / SEL, 707th Communication Squadron, USAF, NSA MD, 11/2020 to Present

- Program manager for agency Robotic Process Automation (RPA) Center of Excellence (CoE)

initiative. Managed 25 personnel assigned to three teams of contractors, military, and civilian across a variety of geographically separated locations.

- Defined agency level policy for automation protocols. Leveraged Commercial-Off-The-Shelf software to develop automations saving personnel thousands of hours per year redirected to mission task.

Project Manager, Detachment 1, 318 Information Operations Group, USAF, NSA MD, 08/2019 to 11/2020

- Managed working model of city infrastructure including multiple logical networks, physical Programmable Logic Controllers (PLCs), and Supervisory Control and Data Acquisition (SCADA) software supporting a realistic and responsive environment for Red Team / Blue Team events.
- Coordinated capture the flag events for federal agency and Department of Defense Personnel.
- Developed ElasticSearch log capture and monitoring system used to track Red Team actions and produce YARA signatures for Blue Team countermeasures.
- Liaison for Platform One, CYBERCOMM, and Defense Industrial Base (DIB) partners in the roll out of CMMC and threat sharing capabilities.

Mission Superintendent, DoD Cyber Crime Center (DC3), USAF, MD, 01/2014 to 08/2019

- Managed 50 military, civilian, and contract personnel in the Information Technology Division.
- Supported the Air Force Office of Special Investigations (AFOSI) cybercrime division by building and maintaining DC3 network infrastructure.
- Liaison with the Secretary of the Air Force/Chief Information Officer (SAF/CIO) secure coding working group (8570/8140). Researched and recommended updated validation tools for military and civilian secure software development certifications.
- Liaison with DHS FCIG (Formally ESSA). Identified processes, standards, procedures, and best practices for machine-to-machine sharing of threat indicators between federal agencies.

Mission Superintendent, 90th Information Operations Squadron, USAF, TX, 06/2008 to 01/2014

- Directed software development projects supporting 24th USAF requirements. Coordinated 5-7 contractor teams in creation of custom / novel software using Agile project development techniques.
- Managed the first USAF authored McAfee Host Based Security System module in support of DISA.
- Debuted cutting edge network defensive capabilities; participated in multiple USAF / Joint DoD cybersecurity exercises demonstrating defensive cyber tactics, techniques, and procedures.
- Developed training program supporting 688th Cyberspace Wing consisting of over 1,400 civilian and military personnel.

Mission Manager, Detachment 1, 23rd Information Operations Squadron, USAF, NSA MD, 03/2002 to 06/2008

- Maintained Joint Functional Component Command Network Warfare (JFCCNW) software repository; ensured proper storage and secure transmission of software.

Awards:

- Air Force Meritorious Service Medal 2019
- DoD SparkTank Innovation 2017, 2018, & 2019
- Air Force Information Dominance 2014 & 2016
- Air Force Commendation Medal 2008
- Capella University Presidents List Honoree 15 times between 2019 - 2023

Kevin O'Malley

Certifications:

- CISSP (Certified Information System Security Professional) 2018

Professional Experience:

July 2019 – Present

CISO for Lee County Florida

Having three years' experience as a CISO in Lee County, I have a new perspective on security and the importance of human behavior. While it is important to have a holistic view of the technical side of security and be conversant with technical controls, understanding human behavior and the security culture of an organization are critical elements of security. With this new perspective, I have been able to implement a successful security training program for Lee County which has created a stronger security culture which is measurable and helps to convey to key stakeholders the incremental successes made at each new simulation.

It has become very clear that a CISO in the public sector should have a close relationship with Emergency Management. The sharing of expertise and experience has been essential as the nexus between the cyber-physical world grows. The planning experience, co-presentations and the grant writing skills have been invaluable to the overall cybersecurity facet of the county. Monthly meetings along with sharing of resources has helped make a strong bridge between these two domains.
