1. GENERAL REQUIREMENTS

1.1. This contract shall consist of the requirements as listed in the Bid Schedule:

- 1.1.1. Preventative Maintenance Tasks: This section shall consist of annual Infrared Testing and Breaker Testing as scheduled by the Departments. Pricing under this section shall consist of price per each test.
- 1.1.2. Regular Hourly Rates: This section shall consist of various types of service and repairs that are conducted as a result of preventative maintenance that was performed. Pricing under this section shall consist of an hourly rate for a Field and Repair Technician.
- 1.1.3. After-Hours / Emergency Hourly Rates: This section shall consist of various types of service and repairs that are conducted as a result of work being performed not related to preventative maintenance. Pricing under this section shall consist of an hourly rate for a Field and Repair Technician.
- 1.1.4. Materials Markup: This section provides a Cost + % markup for repair components and new equipment purchased.

1.2 Vendor shall be available twenty-four (24) hours per day and must be onsite no less than three (3) hours after the initial contact has been made.
