The description of services intended for purchase from a sole source is posted in accordance with section 287.057(3)(c), Florida Statutes and will be posted for a minimum of 15 business days.

Commodity or Service Required:
ePCR and Data Monitoring

Description:

Lee County Public Safety is seeking to execute a sole source for a statistical dashboard with plug-in monitoring that provides EMS and Dispatch compliance and quality assurance. Dashboard must have cross functionality with both EMS' patient information provider, ESO, as well as Public Safety's dispatch provider, ProQA. This is a 5-year purchase with installation and maintenance/license usage.

Intended Sole Source:
FirstWatch Solutions, Inc.

Justification for Sole Source Acquisition:

FirstWatch's FirstPass software has a direct integration with Lee County's current electronic health record system vendor and leverages a propriety bundle of care algorithm to review each electronic patient care report for compliance and quality of care. FirstWatch's Academy Analytics software is a direct partnership between FirstWatch and the International Academies of Emergency Dispatch (IAED); the organization that establishes the Priority Dispatch unified protocol system utilized in Lee County. FirstWatch Solutions, Inc is the only company that is able to interface with both the ProQA analytics, IAED, and ESO to create a dashboard capable of monitoring and providing real-time QA/QC on both dispatch and medical services.

Recommended Procurement Approach:

For the reason(s) stated above, Lee County Procurement Management intends to utilize the Sole Source Procurement method to purchase from FirstWatch Solutions, Inc. for supplying the above.

Respond to:

If your firm feels they have the ability to supply the above, please contact Jennifer Brewer-Dano, Lee County Procurement Management at jbrewer-dano@leegov.com for future purchase review.
