The description of services intended for purchase from a single source is posted in accordance with section 3.9, Procurement Ordinance 23-21 and will be posted for a minimum of 15 business days.

Commodity or Service Required:
Construction of Two (2) Deep Injection Wells

Description:
Lee County Utilities is seeking to execute a single source purchase for deep injection well construction at Three Oaks Water Reclamation Facility and Green Meadows Water Treatment Plant. The Three Oaks Water Reclamation Facility DIW includes construction of a drilling pad, four, one 3,000-foot deep, 24-inch diameter seamless steel casing Class I municipal disposal/injection well. The Green Meadows Water Treatment Plant DIW includes construction of a drilling pad, one 3,000-foot deep, 18-inch internal diameter/20-inch outer diameter fiber-reinforced plastic (FRP) Class I municipal disposal/injection well. Deep Injection Wells are used to dispose of excess reuse water during the wet season and for disposal of membrane concentrate in an environmentally acceptable manner (concentrate disposal resulting from Reverse Osmosis Water Treatment Facility).

Intended Single Source:
Youngquist Brothers, Inc.

Justification for Single Source Acquisition:
Youngquist Brothers, Inc. is the only DIW contractor that has the needed experience, equipment, and staffing to construct the proposed deep injection wells (DIWs). Youngquist Brothers, Inc.'s experience with the type, diameter and depth far exceeds any other active well drilling contractors.

Recommended Procurement Approach:
For the reason(s) stated above, Lee County Procurement Management intends to utilize the Single Source Procurement method to purchase from Youngquist Brothers, Inc. for supplying the above.

Respond to:
If your firm feels they have the ability to supply the above, please contact Jennifer Brewer-Dano, Lee County Procurement Management at jbrewer-dano@leegov.com for future purchase review.
