The description of services intended for purchase from a single source is posted in accordance with section 3.9, Procurement Ordinance 23-21 and will be posted for a minimum of 15 business days.

Commodity or Service Required:

The purchase of Machinex conveyor replacements for C-4 and C-10 of C&DD

Description:

Lee County Solid Waste seeks to execute a single source procurement for the purchase of replacement conveyors for C-1 and C-10 for the Construction and Demolition Debris Recycling System (C&DD) by MachineX Technologies, Inc. Their purpose is to allow the C&DD staff to hand sort the material that the Lee County residents bring to dispose of.

Intended Single Source:

Machinex Technologies, Inc.

Justification for Single Source Acquisition:

MachineX Technologies, Inc. is the sole manufacturer of the currently installed processing equipment and is the only company to provide proprietary replacement parts and components compatible with the existing PLC control logic operating system. This operating system and equipment were designed to the specific performance specifications required to process the material at the Solid Waste C&DD facility.

Recommended Procurement Approach:

For the reasons stated above, Lee County Procurement Management intends to utilize the Single Source Procurement method to contract with Machinex Technologies, Inc. for supplying the above.

Respond to:

If your firm feels they have the ability to supply the above, please contact Kevin Walker, Lee County Procurement Management at KWalker2@leegov.com for review.
