Hurricane Irma Important Information
From: The School District of Lee County

Lee County Schools and District Offices will be closed through Friday, September 15th.

Many of our schools are still being used as shelters, and many of our students' families and our employees need time to make it back to Southwest Florida after evacuating from Hurricane Irma.

This will also provide time for cleanup and repair of our homes, schools and community.

At this time we plan to reopen schools and district offices on Monday, September 18th.

Please continue to check our website www.leeschools.net and our social media channels for updated information.
