SUBJECT: Waste Disposal at Lee County Waste to Energy Plant and Lee/Hendry Landfill

Ray Sandelli
District Three

Dear Solid Waste Customer:

Brian Hamman
District Four

The Lee County Waste to Energy Plant (WTE) accepts virtually all non-hazardous waste materials from the general public on a cash basis or through preapproved charge accounts. The WTE is located on Buckingham Road, one mile east of State Road 82.

Frank Mann
District Five

Roger Desjarlais
County Manager

The Solid Waste Division requests that you take all processible waste material to the WTE. Processible means loads that primarily consist of burnable materials such as paper, wood, plastic, cardboard, garbage, etc. We accept construction and demolition loads such as drywall, concrete, untreated lumber, etc. at our C & D facility located on the WTE campus. Incidental amounts of inert non-processible material in a load is acceptable (except for liquid wastes), but we ask that you use some judgment to determine whether a load should go to the WTE or to the landfill (see attached lists).

Richard Wm. Wesch
County Attorney

Recycling material is accepted for non-contaminated loads at the Material Recycling Facility (MRF) located on the WTE campus.

Donna Marie Collins
County Hearing Examiner

Commercial chemical waste is not accepted at any Lee County Solid Waste disposal facility. Commercial e-waste is accepted at our HHW facility located at 6441 Topaz Court (see attached list for pricing).

The Lee/Hendry Landfill (LHLF) is located at 5500 Church Road in Felda, twenty-four miles east of the WTE.

Attached is an application for companies that wish to establish a charge account at the WTE and/or the LHLF. A deposit may be required depending on credit references.

Payment can also be made at the scale house by cash, check, or major credit card.

If you have any questions, please call 533-8000.

Sincerely,
Solid Waste Fiscal Team
