# CHAPTER 1

## INTRODUCTION TO THE LEE COUNTY TOLL FACILITIES

### REPORT PURPOSE AND STRUCTURE

CDM Smith prepares this report on an annual basis for the Lee County Department of Transportation (LeeDOT). This report contains a summary of the Fiscal Year (FY) 2024 annual performance characteristics of the three Lee County toll bridges. This report also includes a brief discussion of the external factors that contribute to total travel demand and toll revenue generation. Any changes in sources or methodologies that have occurred since the last report are noted in the text.

Chapter 1 provides an introduction to and history of the Lee County toll facilities and includes total system transaction and revenue performance, operating characteristics, and historical trends. Chapter 2 is a review of historical and current socioeconomic trends through 2024. Economic conditions are always an important driver of transaction and toll revenue performance. Other historical factors and events help explain transaction and toll revenue trends including significant weather events, population, employment, household income, gross regional product (GRP) and tourism.

The next three chapters contain a review of FY 2024 transaction and revenue performance in the context of historical trends and operating characteristics for the Midpoint Memorial Bridge (Chapter 3), Cape Coral Bridge (Chapter 4) and Sanibel Causeway (Chapter 5). Detailed information on annual toll program sales by toll payment type, violation enforcement and recovery, and any extenuating factors that may have affected toll collection are presented. Chapter 6 covers the County's financial position in relation to its fiscal obligations including debt service, obligatory payments to reserve funds, revenue sharing and capital improvements.

Most of the metrics presented in this report are tabulated on a fiscal year basis. Lee County's fiscal year begins on October 1 of the previous calendar year, ending the following September 30. For example, FY 2024 began on October 1, 2023, and concluded September 30, 2024. Some external variables are not available monthly and cannot easily be converted to fiscal year. These values are presented on a calendar year basis and are noted as such in the text.

### SYSTEM HISTORY

The Lee County toll system consists of three tolled bridges: Midpoint Memorial Bridge; Cape Coral Bridge; and Sanibel Causeway. A location map of the three facilities and the region they serve can be found in **Figure 1-1**. The first two toll facilities opened to traffic were the Sanibel Causeway and the Cape Coral Bridge, in 1963 and 1964, respectively. Tolls were removed from the Cape Coral Bridge in 1974 and reinstated in 1989 to help finance the construction of an additional span. The

third and final toll facility, the Midpoint Memorial Bridge, opened to traffic in 1997 in response to growing demand for travel across the Caloosahatchee River.

Despite significant travel disruptions, historical growth in regional travel demand has remained high. Since 2000, socioeconomic indicators such as total population, households, employment, and median income have steadily increased at a pace greater than the state and national averages. For example, between 1970 and 2024 Lee County's annual population growth averaged 3.9 percent per year, which is significantly higher than statewide growth and almost four times the national average.

While economic growth has slowed since late 2007, recent regional employment and population growth has averaged approximately 2 percent per year and is still forecasted to exceed the state and national averages in both the short-term and over the next 30 years per forecasts published by the University of Florida Bureau of Economic and Business Research. Rapid expansion in the region and the corresponding growth in travel demand have led to continued improvements in Lee County's transportation infrastructure, including numerous operational and physical upgrades to the Lee County toll system. Both short- and long-term socioeconomic trends impacting transactions and toll revenue are discussed at greater length in Chapter 2, including a forecast of future socioeconomic growth, derived from external sources.

### ***Facility Milestones***

A list of major facility milestones in the history of Lee County's toll bridges is included in **Table 1-1**. Over the years, several significant changes to infrastructure and toll collection have occurred. The first and one of the most significant milestones occurred in the fall of 1997, when the opening of the Midpoint Memorial Bridge coincided with the introduction of electronic toll collection (ETC) on all Lee County toll bridges. ETC, branded locally as LeeWay, provides customers with LeeWay transponders the ease of paying tolls without stopping and allows non-commercial customers to buy into one of several toll discount programs. The introduction of ETC also benefitted Lee County, as toll facilities can handle larger volumes of traffic without the need for costly physical expansions of toll plazas or the cost of additional personnel. LeeWay became interoperable with SunPass and other toll systems throughout the State of Florida in 2004.

To help further enhance operational efficiencies, Lee County adopted a one-way toll collection policy on the Midpoint Memorial and Cape Coral Bridges, beginning in November 2008. The Sanibel Causeway has always operated with one-way tolling. The conversion to one-way tolling entailed the elimination of tolls in the eastbound direction and a doubling of toll rates in the westbound direction, causing no change in the net toll amount for a round trip.

In July 2009, the Rental Car Program was introduced for rental car customers. The program uses license plate information to identify rental vehicles and collect tolls electronically through agreements with three private companies. This allows rental car customers the same convenience as LeeWay customers to use a toll facility without stopping at a toll booth.

Figure 1-1  
Location Map

**Table 1-1**  
**Facility Milestone Dates**

Date	Event
May 1963	Sanibel Causeway opened to traffic
March 1964	Cape Coral Bridge opened to traffic
1974	Tolls removed on the Cape Coral Bridge
November 1989	Parallel span of the Cape Coral Bridge opened
November 1989	Tolls reinstated on the Cape Coral Bridge
November 1994	Tolls increased on the Cape Coral Bridge
October 1997	Midpoint Memorial Bridge opened to traffic
November 1997	ETC (LeeWay) begins on Lee County facilities
August 1998	Variable Pricing introduced on the Cape Coral and Midpoint Bridges
December 2003	ETC and variable pricing made available to vehicles with three or more axles
June 2004	LeeWay accepted on toll systems throughout the state of Florida
October 2004	Sunpass, E-PASS, and O-Pass accepted on the Lee County facilities
November 2004	Tolls increased on the Sanibel Causeway
November 2005	Reduced Fare Program began. Tolls reduced on the Sanibel Causeway.
September 2007	New Sanibel Causeway grand reopening ceremony held
November 2007	One-year trial period for one-way tolling on the Cape Coral and Midpoint Bridges begins
June 2008	Approval given for permanent one-way tolling on the Cape Coral and Midpoint Bridges
November 2008	Last automatic coin machines (ACM) removed from Cape Coral and Midpoint Bridges
July 2009	Rental Car Program introduced for rental cars
May 2011	Midpoint Bridge toll plaza reconstruction complete: Open-road tolling introduced; remaining eastbound tolling infrastructure demolished
November 2012	Cape Coral Bridge toll plaza reconstruction complete: Open-road tolling introduced; remaining eastbound tolling infrastructure demolished
August 2013	LeeWay transponders accepted on North Carolina toll roads and NC Quick Pass customers are able to use LeeWay facilities via video tolling
November 2014	LeeWay transponders accepted on Georgia toll roads and Peach Pass customers are able to use LeeWay facilities via video tolling
March 2020	In response to the COVID-19 Pandemic, cash payments were suspended. Those without a transponder are billed via Pay-By-Plate.
May 2021	E-ZPass customers are able to use LeeWay facilities via video tolling
October 2021	Lee County converted to an all-electronic tolling process on October 1, 2021 (FY 2022). Implementation of \$3.00 administrative fee per Pay-By-Plate transaction and removal of motorcycle discount also began October 1, 2021.
March 2022	Lee County began accepting E-ZPass transponders in Lee County toll lanes.
February 2023	Lee County began accepting KTag (Kansas), PIKEPASS (Oklahoma), and TollTag (Texas) transponders in Lee County toll lanes.

Since the permanent implementation of one-way tolling on the Midpoint Memorial and Cape Coral Bridges, Lee County improved both bridges with westbound open-road tolling (ORT) lanes. These exclusive lanes allow ETC customers to pass through the toll plaza without slowing down to drive through a traditional toll booth. The reconstruction of the Midpoint Memorial Bridge plaza was completed in May 2011, and Cape Coral Bridge plaza renovations were completed in November of 2012.

To improve customer service, LeeWay and its Florida Toll Agency partners became interoperable with North Carolina Turnpike Authority (NCTA) and their NC Quick Pass program in August of 2013 and with the Georgia State Road and Tollway Authority (SRTA) Peach Pass program in November 2014. With this agreement, LeeWay customers can now travel to North Carolina and Georgia and use the North Carolina and Georgia toll facilities via video tolling. Also, as of May 2021, E-ZPass customers can use the Lee County Bridge facilities via video tolling. As of March 2022, E-ZPass transponders are accepted and processed as ETC transactions in all Lee County toll lanes. In February 2023, Lee County began accepting Kansas KTag, Oklahoma PIKEPASS, and Texas TollTag in Lee County toll lanes.

In response to the COVID-19 Pandemic, Lee County suspended cash payments on the three toll bridges and switched to all-electronic tolling (AET) as of March 18, 2020. Those without a transponder are now directed to proceed through any open toll lane and are processed as a Pay-By-Plate transaction. An image of their license plate is taken, and the customer is mailed an invoice for payment within 21 days of the transaction date. Payment can then be made online, over the phone or at the LeeWay Service Center. No administrative fees were assessed to these former cash customers through September 2021. In May 2020, LeeWay also began a promotion to offer free sticker transponders to customers opening a LeeWay account or adding a vehicle to an existing account. In June 2021, Lee County announced the permanent suspension of cash toll collection starting October 1, 2021 (FY 2022), going to AET on all Lee County bridges. As of FY 2022, Lee County also implemented a \$3.00 administrative fee per Pay-By-Plate transaction and permanently removed the motorcycle discount.

## TOLL RATE SCHEDULES

Toll rates on the Midpoint Memorial and Cape Coral Bridges for FY 2024 are shown in **Table 1-2** and vary based on the method of payment, vehicle class, and time of day. The FY 2024 base toll rate for an ETC transaction is \$2.00 for the first two axles plus \$2.00 for each additional axle. All Pay-By-Plate transactions are charged an additional \$3.00 administrative fee per transaction. However, many discount programs are available to customers using a LeeWay transponder.

**Table 1-2**  
**Midpoint Memorial Bridge and Cape Coral Bridge Toll Schedule**

Payment Type	Vehicle Class			
	2-Axle	3-Axle	4-Axle	5-Axle
ETC	\$2.00	\$4.00	\$6.00	\$8.00
Pay-By-Plate*	\$2.00	\$4.00	\$6.00	\$8.00
Unlimited	\$0.00	--	--	--
Reduced Fare	\$1.00	--	--	--
Variable Pricing	\$1.50	\$3.00	\$4.50	\$6.00
Unlimited Variable	\$0.00	--	--	--
Reduced Variable	\$0.75	--	--	--
<b>Program Fee</b>				
Unlimited Annual	\$330.00	--	--	--
Unlimited Semiannual	\$200.00	--	--	--
Reduced Fare Annual	\$40.00	--	--	--
Reduced Semiannual	\$24.00	--	--	--

\* All Pay-By-Plate transactions charged additional \$3.00 administrative fee per transaction

The Unlimited Fare program allows for an unlimited number of trips at a flat rate of \$330.00 per year per bridge. A semiannual plan is also available for \$200.00 and is valid from either November through April or May through October. Both plans allow for unlimited travel on the Midpoint Memorial and the Cape Coral Bridges and may be prorated for shorter periods. Lee County also offers a Reduced Fare program. Under this program, customers pay a one-time fee, after which they receive a fare reduction of 50 percent on all subsequent trips. Like the Unlimited Fare program, the Reduced Fare program is available on an annual or semiannual basis at a cost of \$40.00 and \$24.00, respectively.

In August 1998, Lee County introduced a Variable Pricing program. Under the program, customers receive an additional 25 percent discount if they travel during designated periods before and after the AM and PM peak travel hours. These periods are referred to as the “peak shoulders.” The intent is to attract motorists to travel during off peak hours to reduce congestion on the bridges.

In exchange for accepting a reduced rate, Lee County was able to free up capacity on the facility during its busiest hours. The shoulder periods are as follows (weekdays only, excluding holidays):

- 6:30 a.m. to 7:00 a.m.
- 9:00 a.m. to 11:00 a.m.
- 2:00 p.m. to 4:00 p.m.
- 6:30 p.m. to 7:00 p.m.

The Variable Pricing discount is given to every customer paying via ETC and reduces the toll from \$2.00 for 2-axle vehicles to \$1.50<sup>(1)</sup>. The Reduced Fare discount program can be used in conjunction with the Variable Pricing discount for LeeWay customers. The toll for a customer enrolled in the Reduced Fare program traveling in the shoulder hours would be as low as \$0.75 for a two-axle vehicle. Unlike some variable toll systems, there is no corresponding increase in the peak period rates. Variable tolls are not applicable for LeeWay customers with an Unlimited Fare program discount.

The rates and program fees that are currently in effect on the Sanibel Causeway are shown in **Table 1-3**. Since November 2004, when tolls on the Sanibel Causeway were raised to help secure financing for the construction of the new causeway facility, cash rates were \$6.00 for two-axle vehicles and \$3.00 per axle thereafter, until the removal of cash toll collection in March 2020 in response to the COVID-19 pandemic. A subsequent revision in November 2005 reduced tolls for customers participating in the discount programs to \$2.00 for 2-axle vehicles. The Unlimited and Reduced Fare programs reflect the higher base toll. Annual and semiannual Unlimited Fare program fees are \$400.00 and \$300.00, respectively, while the annual and semiannual Reduced Fare programs cost \$67.00 and \$50.00, respectively. Unlike the two other Lee County facilities, there is no Variable Pricing discount on the Sanibel Causeway.

As of October 1, 2021 (FY 2022), with the implementation to all-electronic tolling (AET), all Sanibel Pay-By-Plate transactions are charged an additional \$3.00 administrative fee per transaction.

---

<sup>(1)</sup> LeeWay customers must have a prepaid LeeWay account. All other transponder holders must be pre-approved by their respective issuing agencies.

Due to the numerous combinations of axle class, discount programs, and time-of-day pricing, Tables 1-2 and 1-3 are not all-inclusive. For example, Lee County also offers Combined and Multiple Vehicle Discount programs. The Combined Discount program allows for discounted and/or unlimited travel on all three Lee County toll facilities. Combined Unlimited annual and semiannual programs are available for \$730.00 and \$500.00, respectively. Combined Reduced Fare annual and semiannual programs are also available at a cost of \$107.00 and \$74.00, respectively. Additionally, customers can purchase mixed programs that provide unlimited travel on the Sanibel Causeway, and discounted travel on the Midpoint and Cape Coral Bridges, or vice versa.

**Table 1-3**  
**Sanibel Causeway Toll Schedule**

Payment Type	Vehicle Class			
	2-Axle	3-Axle	4-Axle	5-Axle
ETC	\$6.00	\$9.00	\$12.00	\$15.00
Pay-By-Plate*	\$6.00	\$9.00	\$12.00	\$15.00
Unlimited	\$0.00	--	--	--
Reduced Fare	\$2.00	--	--	--
<b>Program Fee</b>				
Unlimited Annual	\$400.00	--	--	--
Unlimited Semiannual	\$300.00	--	--	--
Reduced Fare Annual	\$67.00	--	--	--
Reduced Semiannual	\$50.00	--	--	--

\* All Pay-By-Plate transactions charged additional \$3.00 administrative fee per transaction

Another discount program offered is the Multiple Vehicle Discount program. Under this program customers pay the full price of any selected discount program on the first vehicle registered and receive a 50 percent discount off the original program fee for a second vehicle. For instance, a customer who signs up for the Unlimited Annual Discount program would pay \$330.00 for the first vehicle, but only \$165.00 for the second vehicle registered under the same account. For each vehicle registered to a discount program at full cost, a second may be added at a 50 percent discount if vehicles are registered to the same individual. The Multiple Vehicle Discount program is only available for two-axle vehicles.

## TOTAL SYSTEMWIDE TRANSACTIONS AND GROSS TOLL REVENUES

The following is a summary of detailed transaction and toll revenue performance for the Lee County toll facilities through FY 2024, with an emphasis on historical trends. Performance metrics reviewed include transactions, toll revenue, average toll rates and discount program sales and revenue. The historical trend analysis considers extenuating factors which may have affected transaction and revenue performance, such as toll rate increases, highway construction, the COVID-19 pandemic, and major weather events. The information presented in this section is derived from LeeDOT administration records and may differ slightly from values presented elsewhere in this report, which are derived from operational records and sample data. **Table 1-4** includes a comparison of FY 2024 and FY 2023 total systemwide transactions (includes non-revenue and exempt transactions).

**Table 1-4**  
**Comparison of FY 2023 and FY 2024**  
**Total Systemwide Transactions**

Facility	Transactions		
	FY 2023	% Change	FY 2024
Midpoint Memorial Bridge	8,759,872	9.6%	9,601,332
Cape Coral Bridge	7,922,680	11.2%	8,813,118
Sanibel Causeway	1,933,298	43.9%	2,782,259
<b>Total</b>	<b>18,615,850</b>	<b>13.9%</b>	<b>21,196,709</b>

Source: Lee County Daily Class/Traffic Type Reports

### ***Fiscal Year 2024 Systemwide Toll Transactions and Revenues***

In FY 2024, total systemwide toll transactions and revenues increased compared to FY 2023. All three facilities experienced increases in both categories. As shown in **Table 1-5**, of the three toll facilities, the Sanibel Causeway reported the largest increase in toll transactions at 44.0 percent. By comparison, toll transactions on the Cape Coral Bridge and Midpoint Memorial Bridge increased by 9.6 percent and 11.2 percent compared to FY 2023, respectively. Toll Revenues increased 29.2 percent compared to FY 2023. In FY 2023, both transactions and revenues were negatively impacted by toll suspensions during Hurricane Ian. Tolls were suspended on all three facilities starting on September 26, 2022. Tolls were reinstated on the Midpoint Memorial and Cape Coral Bridges on November 1, 2022, and on the Sanibel Causeway on January 1, 2023. The Sanibel Causeway experienced significant wash out and damage to the bridge approaches. Through a partnership with the Florida Department of Transportation and with funding from the State of Florida and Federal Highway Administration, the necessary repairs were made without the use of toll funds. The significant increase in both toll transactions and revenues in FY 2024 can be partially attributed to the recovery from the effects of Hurricane Ian on FY 2023 transactions and revenues, as well as normal growth.

**Table 1-5**  
**Comparison of FY 2023 and FY 2024**  
**Total Toll Transactions and Revenues**

Facility	Transactions			Revenues*		
	FY 2023	% Change	FY 2024	FY 2023	% Change	FY 2024
Midpoint Memorial Bridge	8,692,043	9.6%	9,523,334	\$ 16,764,229	22.4%	\$ 20,518,120
Cape Coral Bridge	7,879,783	11.2%	8,765,622	\$ 14,684,809	22.0%	\$ 17,918,517
Sanibel Causeway	1,923,781	44.0%	2,770,424	\$ 9,176,791	52.9%	\$ 14,034,030
<b>Total</b>	<b>18,495,607</b>	<b>13.9%</b>	<b>21,059,380</b>	<b>\$ 40,625,830</b>	<b>29.2%</b>	<b>\$ 52,470,667</b>

Source: Lee County Daily Class/Traffic Type Reports

\*Actual revenues collected can be for transactions that occurred in prior fiscal years.

In FY 2024, Lee County implemented a new Toll Due Invoice Program, which rebilled customers for any unpaid toll going back to October 2019. An additional \$3.73 million in toll revenue has been collected, which has attributed to the increase in revenue this past year. As well, Lee County has implemented the motor vehicle registration stop for Florida license plates in July 2024.

The relative proportions of systemwide toll transactions and revenues generated by each of the three Lee County toll bridges remained comparatively similar between FY 2023 and FY 2024. As shown in **Figure 1-2**, the Cape Coral and Midpoint Memorial Bridges accounted for the highest shares of systemwide toll transactions in FY 2024, collectively representing 86.8 percent of total toll transactions. The remaining 13.2 percent of systemwide toll transactions were on the Sanibel Causeway. Total systemwide toll revenue was more evenly split between the three facilities, with Midpoint Memorial accounting for 39.1 percent of toll revenues, Cape Coral 34.1 percent, and Sanibel accounting for 26.7 percent of toll revenues.

### ***Historical Toll Transactions and Revenues***

A comprehensive historical record of systemwide toll transactions and revenues from FY 2015 through FY 2024 is presented in **Table 1-6**. The data is also presented graphically in **Figure 1-3**. In FY 2015 and FY 2016, transactions and revenues showed increasing annual growth, which indicated the slow recovery period after the Great Recession.

In FY 2017, both toll transactions and revenues declined for the first time since the Great Recession and the conversion to one-way tolling. This decline can be attributed to the negative impacts of toll suspensions on Lee County facilities during Hurricane Irma.

In FY 2018, both toll transactions and revenues increased. As previously mentioned, the increase in FY 2018 can partially be attributed to the negative impacts of Hurricane Irma on FY 2017 toll transactions and revenues and natural growth on the bridges. FY 2019 showed an increase in both toll transactions and revenues. One potential issue that likely impacted the growth of toll transactions were the SunPass interoperability issues in the early part of FY 2019.

**Table 1-6**  
**Systemwide Toll Transactions and Revenues**  
**FY 2015 – FY 2024**

Fiscal Year		Toll-Paying Transactions	Percent Change	Total Revenue	Percent Change
2015		19,280,551	4.6%	\$ 44,030,727	4.9%
2016		19,872,830	3.1%	\$ 45,885,370	4.2%
2017	<sup>1</sup>	19,439,022	-2.2%	\$ 45,612,881	-0.6%
2018		20,335,755	4.6%	\$ 47,072,060	3.2%
2019		20,469,175	0.7%	\$ 48,724,431	3.5%
2020	<sup>2</sup>	18,770,373	-8.3%	\$ 40,397,249	-17.1%
2021	<sup>2</sup>	20,638,559	10.0%	\$ 41,048,190	1.6%
2022	<sup>3,4</sup>	20,871,757	1.1%	\$ 50,037,894	21.9%
2023	<sup>5</sup>	18,495,607	-11.4%	\$ 40,625,830	-18.8%
2024		21,059,380	13.9%	\$ 52,470,667	29.2%

Source: Historical Lee County Annual Reports.

<sup>(1)</sup> Effects from Hurricane Irma in September 2017.

<sup>(2)</sup> Effects from COVID-19 pandemic beginning March 2020 through February 2021.

<sup>(3)</sup> Conversion to All Electronic Tolling beginning October 1, 2022. Implementation of \$3.00 administrative fee per Pay-By-Plate transaction.

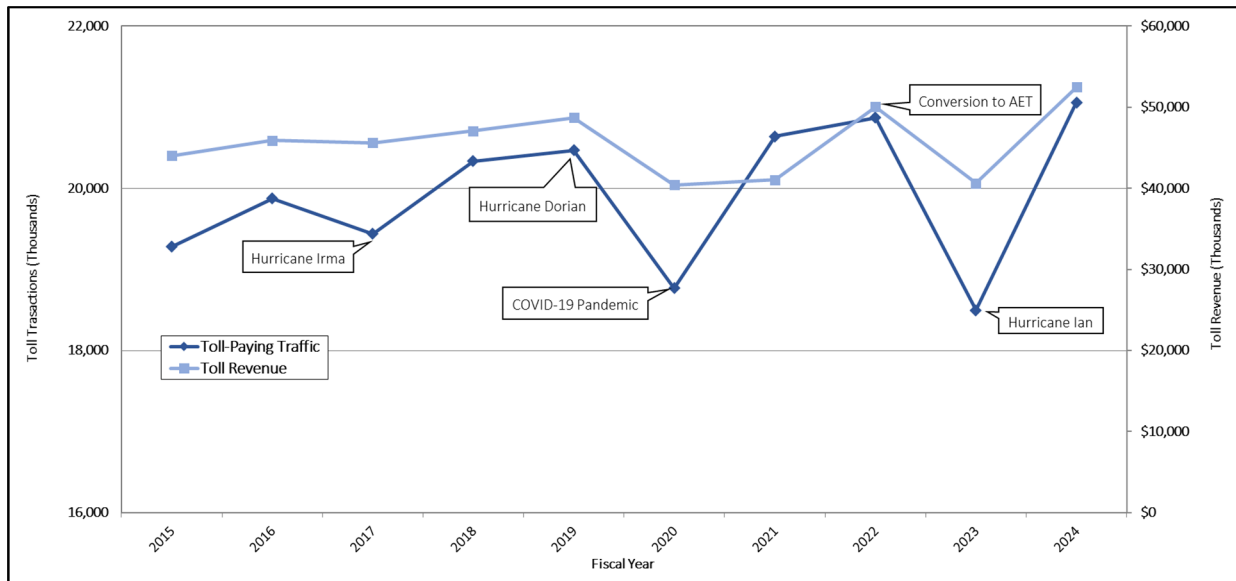

<sup>(4)</sup> Effects from Hurricane Ian in September 2022.

<sup>(5)</sup> Continued effects from Hurricane Ian from September through December 2022.

The most significant event in FY 2020 was the issuance of state and local stay-at-home orders, public space closures (including schools), social distancing orders and other restrictions beginning in March 2020 in response to the COVID-19 pandemic. These actions were taken to reduce the spread of the disease based on guidelines from the Centers for Disease Control and Prevention (CDC) and the Federal and State Government. Lee County was not as hard hit as other regions of Florida. However, the state and local restrictions and the general concern regarding the spread of the virus still produced major impacts to regional traffic patterns. The similarity in the relative share of toll transactions and revenue for the three toll facilities between FY 2019 and FY 2020 suggests that the impacts of COVID-19 affected the three bridges similarly. While the Sanibel Causeway had the greatest early negative impact, the Causeway rebounded the fastest with positive growth in August and September 2020.

In response to the COVID-19 pandemic, Lee County suspended cash payments on the three toll bridges beginning on March 18, 2020. Those without a transponder are now directed to proceed through any open lane and are processed as Pay-By-Plate transactions. An image of their license plate is taken, and the customer is mailed an invoice for payment within 21 days of the transaction date. Payment can then be made online, over the phone or at the LeeWay Service Center. Administrative fees were also suspended during this time.

**Figure 1-3**  
**Systemwide Annual Toll Transactions and Revenues**  
**FY 2015 – FY 2024**

Source: FY 2015 through FY 2024 Lee County Annual Reports.

In FY 2022, systemwide transactions increased by 1.1 percent and revenues increased by 21.9 percent compared to FY 2021. The significant increase in revenues can be attributed to the official conversion to AET, which began on October 1, 2021. Customers without a prepaid transponder are charged a \$3.00 administrative fee in addition to the toll for using the Pay-By-Plate system. As previously mentioned, both transactions and revenues in FY 2022 were negatively impacted by toll suspensions during Hurricane Ian.

In FY 2023, systemwide transactions decreased by 11.4 percent and revenues decreased by 18.8 percent compared to FY 2022. The significant decrease in both transactions and revenues in FY 2023 can be attributed to the negative impacts of continued toll suspensions during Hurricane Ian.

In FY 2024, systemwide transactions increased by 13.9 percent and revenues increased by 29.2 percent compared to FY 2023. This significant increase in both transactions and revenue for FY 2024 may be partially attributed to FY 2024 containing no toll suspensions due to hurricanes, which significantly impacted FY 2023. Furthermore, the 2024 calendar year was a leap year, resulting in one additional day of toll collection.

The following additional events, incidents, and construction activities were identified as potentially impacting transactions and revenue during FY 2024:

- From 7:00 p.m. until 10:00 p.m. on November 11, 2023, the Midpoint Memorial Bridge was closed for the annual Veterans Day race.
- From 3:00 a.m. on July 4, 2024, until 2:00 a.m. on July 5, 2024, the Cape Coral Bridge was closed for a Fourth of July celebration.

The percent change in toll transactions by month between FY 2023 and FY 2024 for each of the three facilities is presented in **Figure 1-4**. As shown, all three facilities experienced similar patterns of change throughout FY 2024. The largest decrease in toll transactions on all three facilities during the entire month of October 2023 is due to the significant impacts of toll suspensions during Hurricane Ian the prior year in October 2022. Additionally, the Sanibel Causeway toll transactions were suspended for the entire months of November and December 2022, which contributed to the significant increase in toll transactions in those months during FY 2024.

**Figure 1-4**  
**Percent Change in Toll Transactions between FY 2023 and FY 2024, by Month**

## ETC PARTICIPATION

ETC was first introduced on the three Lee County toll facilities in 1997. In addition to Lee County's branded ETC system, LeeWay, the Lee County toll facilities also accept the Florida Department of Transportation's SunPass transponders and the Central Florida Expressway Authority's (CFX) E-PASS transponders. North Carolina Quick Pass customers as of August 2013 and Georgia's Peach Pass customers as of October 2014 (FY 2015) can use LeeWay facilities via video tolling. As of March 2022, all E-ZPass transponders and North Carolina Quick Pass are accepted in Lee County toll lanes and processed as ETC transactions. In February 2023, Lee County also began accepting the Kansas KTag, Oklahoma PIKEPASS, and Texas TollTag in Lee County toll lanes. Discounts on Lee County toll facilities are only available to customers with a LeeWay transponder. Those without a transponder pay using Pay-By-Plate.

The historical rates of ETC participation are shown in **Table 1-7**. The Sanibel Causeway is separated in the table from the other two Lee County toll bridges due to the different toll rates and travel patterns associated with that facility. As shown in Table 1-7, ETC participation on the Lee County

toll facilities has increased from 50.9 percent of all toll transactions in FY 2005 to 64.9 percent during FY 2024. The significant increase in systemwide ETC participation can be partially attributed to customers shifting to payment via ETC to avoid the \$3.00 administrative fee per Pay-By-Plate transaction, which was implemented in FY 2022. The significant increase in FY 2022 could also be due to the acceptance of E-ZPass and Quick Pass transponders on Lee County toll facilities.

**Table 1-7**  
**Systemwide ETC Participation Percentage (all classes)**  
**FY 2005 – FY 2024**

Year	Sanibel Causeway	Cape Coral and Midpoint Bridges	Systemwide
FY 2005	57.0	50.4	50.9
FY 2006	60.2	51.2	51.9
FY 2007	60.7	53.9	54.4
FY 2008	60.3	56.1	56.7
FY 2009	60.1	56.1	56.8

## TOLL TRANSACTIONS BY PAYMENT TYPE

While the data presented thus far provides insight into the overall adoption of ETC, the actual use of LeeWay transponders is considerably more complex. This is due in large part to the many variations of available discount plan types, durations, and number of household vehicles. Moreover, the Sanibel Causeway serves a market with characteristics quite different from the market served by the Cape Coral and Midpoint Memorial Bridges. The distribution of payment type by facility during FY 2024 is presented in **Figure 1-5**. Though there are dozens of variations of

possible payment methods and plans, these plans can be classified in one of four ways: Pay-By-Plate, ETC with no discount, LeeWay Unlimited, and LeeWay Reduced Fare.

As shown, the Midpoint Memorial Bridge had the highest percentage of Pay-By-Plate transactions at 37.5 percent, which is slightly higher than last year. ETC with no discount transactions on all three facilities accounted for 41.0 percent of transactions in FY 2024 compared to 40.2 percent in FY 2023. LeeWay Unlimited transactions increased on all three facilities from 4.8 percent for the system in FY 2023 to 5.2 percent in FY 2024. This increase can be attributed to the lack of toll suspensions due to hurricanes. LeeWay Reduced Fare transactions in FY 2024 decreased by 0.4 percent systemwide compared to FY 2023.

**Figure 1-5**  
**Percent of Toll Transactions by Payment Type by Facility**

Source: Lee County FY 2024 Monthly Traffic by Class and PMT.

For the ETC transactions, Lee County is interoperable with many toll agencies, including FDOT's SunPass, CFX's E-PASS. Lee County also accepts North Carolina's Quick Pass, and E-ZPass, Kansas' KTag, Oklahoma's PIKEPASS and Texas' TollTag. Georgia's Peach Pass is also accepted and processed via video tolling. As shown in **Table 1-8**, 57.8 percent of systemwide ETC transactions use LeeWay transponders, which is slightly lower than the 58.7 percent reported in FY 2023. This can be attributed to the slight increase in ETC participation from all the other transponder issuing agencies.

**Table 1-8**  
**Percent of ETC Transactions by Issuing Agency**

Issuing Agency	Transponder Name	Midpoint Memorial Bridge	Cape Coral Bridge	Sanibel Causeway	Systemwide Total
Lee County	LeeWay	54.7	57.6	69.2	57.8
FDOT	SunPass	40.9	37.3	24.1	37.1
CFX	E-PASS	1.5	1.3	1.3	1.4
Other*	Various*	3.0	3.8	5.4	3.7
<b>Total</b>		<b>100.0</b>	<b>100.0</b>	<b>100.0</b>	<b>100.0</b>

Source: Lee County FY 2024 ETC by Issuing Authority

\*Includes other agencies that issue transponders accepted in Lee County toll lanes (E-ZPass, KTag, PIKEPASS, TollTag).

The overall share of ETC transactions utilizing SunPass transponders has increased steadily in recent years, from 9.7 percent in FY 2009 to 37.1 percent in FY 2024. This is an increase from 36.6 percent reported in FY 2023.

The share of ETC revenue by issuing agency is presented in **Table 1-9**. This includes video tolling transactions through the Rental Car Program, which was introduced in FY 2009. Video tolling allows rental car customers to pay tolls on Lee County toll facilities without using cash or carrying their own transponder. The video tolling transactions for the Rental Car Program are charged toll rates equivalent to the ETC/Pay-By-Plate rate plus a video processing fee of \$0.06 per transaction. The service providers are charged an administrative maintenance fee of 8 percent of the monthly gross tolls paid from the provider's prepaid account. Since FY 2018, only one provider is enrolled in the program: Verra Mobility (a portfolio company of Platinum Equity), and includes rental car companies Dollar, Firefly, Hertz, Thrifty, Avis, Budget, Payless, Fox, Penske, Ryder, Alamo, Enterprise and National. All video tolling transactions are ultimately accounted for as ETC transactions, although all ETC transactions contain a record as to whether they were originally transponder-based (LeeWay, SunPass, E-PASS, E-ZPass, Quick Pass, KTag, PIKEPASS, TollTag) or image-based (Rental Car Program). Video tolling is also used to process Peach Pass transactions. The video tolling totals below do not include the video transactions processed by Lee County at the toll facilities, only rental vehicles enrolled in the program.

Note the distribution of revenue presented in this table does not match the distribution of toll transactions processed under each system or issuing agency and does not reflect the frequency with which each system or agency is invoked. The main reason for the differences is the discounts available to LeeWay customers, other issuing agency transponders pay full fare, as well as additional markups associated with the Rental Car Program transactions. So, the distribution of toll revenue does not necessarily correspond with frequency or prevalence of one system or agency over another. This is most noticeable when comparing the toll transaction and revenue distributions presented in Tables 1-8 and 1-9. For example, while LeeWay transponders account for 54.7 percent of all Midpoint Memorial ETC transactions, Table 1-9 shows these transactions only account for 38.6 percent of all Midpoint Memorial Bridge ETC toll revenues.

**Table 1-9**  
**Share of ETC Revenue by Issuing Agency**

Issuing Agency	Transponder Name	Midpoint Memorial Bridge	Cape Coral Bridge	Sanibel Causeway	Systemwide Total
Lee County	LeeWay	38.6	41.1	37.7	39.2
FDOT	SunPass	51.3	46.8	38.3	46.2
CFX	E-PASS	2.0	1.7	2.2	1.9
ISHTA	I-PASS	0.7	1.2	1.8	1.2
NCTA	Quick Pass	0.0	0.0	0.1	0.1
SRTA	Peach Pass	0.0	0.0	0.1	0.1
Rental Car Program	Rental Cars	3.8	5.1	12.8	6.7
Other*	Various*	3.7	3.9	7.0	4.6
<b>Total</b>		<b>100.0</b>	<b>100.0</b>	<b>100.0</b>	<b>100.0</b>

Source: Lee County FY 2024 AVI/V-Toll Report.

Note: Due to rounding, totals may not add to exactly 100.0 percent.

\*Includes other agencies that issue transponders accepted in Lee County toll lanes (E-ZPass, KTag, PIKEPASS, TollTag).

FY 2024 was the fifteenth full fiscal year in which video tolling was available for rental car customers. In FY 2024, the Rental Car Program accounted for 6.7 percent of systemwide ETC revenue, which was an increase from the 0.2 percent share in FY 2009 when the program was first introduced. This is an increase from 6.0 percent reported in FY 2023.

#### TOLL TRANSACTIONS BY VEHICLE CLASS

The share of toll transactions on each of the three Lee County toll facilities by vehicle class (number of axles) is presented in **Table 1-10**. Systemwide, 97.5 percent of all toll transactions were made by two-axle passenger vehicles, with minor variation among the three facilities. Motorcycles are included in the two-axle totals. The next most frequent vehicle classes were the three-axle and four-axle vehicles, with each accounting for 1.1 percent of total toll transactions. Three-axle trucks typically include delivery and service vehicles, including two-axle vehicles pulling trailers. Trucks with five or more axles represented just 0.3 percent of toll transactions. The distribution of multi-axle vehicle classes in FY 2024 slightly decreased from the previous fiscal year, as the share of two-axle vehicles in the systemwide total rose by 0.4 percent.

**Table 1-10**  
**Percent of Total Toll Transactions by Vehicle Class**

Vehicle Class	Midpoint Bridge	Cape Coral Bridge	Sanibel Causeway	Systemwide Total
2-Axle	97.5	98.2	94.6	97.5
3-Axle	1.0	0.9	2.3	1.1
4-Axle	1.1	0.7	2.5	1.1
5-or-More-Axles	0.3	0.2	0.6	0.3
<b>Total</b>	<b>100.0</b>	<b>100.0</b>	<b>100.0</b>	<b>100.0</b>

## COMPARATIVE PERFORMANCE

### *Other Florida Toll Facilities*

To provide additional context in analyzing the performance of the Lee County toll facilities, this section contains a comparison with performance on other toll roads and bridges throughout Florida. The available 2023 and 2024 toll transaction and revenue data for several such facilities is presented in **Table 1-11**. The facilities shown in the table operate on different fiscal years. All the facilities shown are operated by Florida's Turnpike Enterprise and run on a fiscal year of July 1 through June 30 as opposed to the Lee County fiscal year which runs from October 1 to September 30. Given the differences in accounting calendars and the fluid nature of the economy during this reporting period, the operating results shown in Table 1-11 may vary. In addition, several physical and operational changes have occurred on these facilities over the past two years, and Florida's Turnpike Enterprise enacting a toll rate adjustment on July 1, 2023, it is therefore difficult to control for all variables affecting transactions and revenue. Nevertheless, the comparative performance data provide additional information through which to assess performance on Lee County toll facilities.

**Table 1-11**  
**Comparative Performance**  
**Other Florida Toll Facilities**  
**FY 2023 vs. FY 2024**

Toll Facility	County	Length (miles)	Operator	Total Transactions (000s)			Total Revenue (\$000s)

Source: Florida's Turnpike Enterprise Comprehensive Annual Financial Report, FY 2024; Florida Department of Transportation 2024 Toll Operations Annual Report.

A review of the available data indicates a slowing in growth of transactions and revenue on most of the facilities in the State of Florida. Also, as previously mentioned, Lee County facilities were negatively impacted by toll suspensions in the last three months of 2022 (FY 2023) during Hurricane Ian. Of the 12 facilities shown in the table, all of them saw an increase in transactions compared to FY 2023. In terms of revenue, the impacts are generally greater. The discrepancy between transaction and revenue performance can be attributed to changes in methods of payment over the past year and the implementation of the Toll Due Notice Process, which rebilled unpaid tolls from as far back as October 2019. Lee County revenues had the second highest year over year increase in both transactions and revenue. Averaging the year-over-year percent change in toll and revenue on all facilities in the table, on average toll transactions increased by 6.8 percent while revenue increased by 20.7 percent.

## AVERAGE TOLL

While total transactions play a significant role in gross toll revenue, a shift in the distribution of vehicle class and payment methods can also have an impact on gross toll revenues. The combined effect of shifting payment method and vehicle class can be assessed by examining the average tolls on each of the Lee County facilities. **Table 1-12** presents the historical average toll rates for Fiscal Years 2005 through 2024 for each of the three toll bridges. As indicated, changes have been minimal over the last few years, with the significant increase in FY 2022 attributed to the conversion to AET and the implementation of the \$3.00 administrative fee per Pay-By-Plate transaction. In FY 2023, however, the Systemwide average toll decreased due to the impacts of Hurricane Ian. The average toll on all facilities and Systemwide increased significantly in FY 2024.

**Table 1-12**  
**Historical Average Toll (Includes Program Sales)**  
**FY 2005 – FY 2024**

Fiscal Year		Midpoint Memorial Bridge	Cape Coral Bridge	Sanibel Causeway	Systemwide
2005	<sup>1</sup>	\$0.85	\$0.81	\$4.76	\$1.13

2021		\$1.60	\$1.57	\$4.00	\$1.99
2022	<sup>5</sup>	\$2.01	\$1.92	\$4.55	\$2.40
2023		\$1.93	\$1.86	\$4.77	\$2.20
2024		\$2.15	\$2.04	\$5.07	\$2.49

<sup>(1)</sup> Toll increase applied on Sanibel Causeway November 2004.

<sup>(2)</sup> Reduced Fare Program transaction tolls reduced on Sanibel Causeway November 2005.

<sup>(3)</sup> Toll rates doubled on November 1, 2007 on Cape Coral and Midpoint Bridges, in conjunction with the conversion to one-way tolling.

<sup>(4)</sup> Cash tolls suspended beginning March 18, 2020 in response to the COVID-19 pandemic.

<sup>(5)</sup> Conversion to All Electronic Tolling beginning October 1, 2022. Implementation of \$3.00 administrative fee per Pay-By-Plate transaction.

Systemwide, the average toll rate was \$2.49 in FY 2024. This amount includes revenue from toll transactions, administration fees, and program sales. The average toll increased by \$0.22 on the Midpoint Memorial Bridge, increased by \$0.18 on the Cape Coral Bridge, and increased by \$0.30 on the Sanibel Causeway.

## PROGRAM SALES

A detailed accounting of the sale of discount programs by facility and plan type is provided in **Table 1-13**. In total, the sale of discount programs represents a significant share of the total revenue from toll operations collected by Lee County. As indicated, a total of 62,814 discount programs were sold in FY 2024, generating \$4,522,173 in revenue, or 8.6 percent of the total systemwide revenues. This represents a 15.7 percent increase in program sales revenue compared to FY 2023, when 62,279 program sales generated \$3,908,383 in gross revenue. The largest declines were noted in the Cape/Midpoint Annual Reduced Fare program, with program sales decreasing by more than 700 accounts. Many of those accounts appear to have shifted to the Sanibel and Cape/Midpoint Annual Reduced Fare program, which increased by 656 accounts. Specific details of transactions and revenue by payment type are included in the facility chapters.

**Table 1-13**  
**Discount Program Sales and Revenue**  
**FY 2024**

	Program Description	Quantity	Revenue
Sanibel	Sanibel Annual Unlimited	2,247	\$ 836,661
	Sanibel Semiannual Nov thru Apr Unlimited	55	\$ 15,050
	Sanibel Semiannual May thru Oct Unlimited	200	\$ 48,483

	<b>Total</b>	<b>62,814</b>	<b>\$ 4,522,173</b>

Source: Lee County FY 2024 Discount Program Sales

In **Table 1-14**, the comprehensive list of all program type sales has been condensed into five categories. The Cape Coral/Midpoint Unlimited category includes variations on that plan type, including annual and semiannual plans. The Cape Coral/Midpoint Reduced Fare category similarly condenses all annual and semiannual variants into a single category. The same is true of the two Sanibel categories. Finally, a fifth category includes combination plans that cover all three facilities (Reduced Fare, Unlimited, or a combination of the two). The Cape Coral/Midpoint Reduced Fare is the most popular program, with 72.2 percent of the program sales, with the second most popular program being Sanibel Reduced Fare at 14.9 percent of the program sales.

**Table 1-14**  
**Summary of Program Sales**  
**FY 2024**

Program	Total Count	Percent of Total
Cape Coral/Midpoint Unlimited	3,182	5.1
Cape Coral/Midpoint Reduced Fare	45,382	72.2
Sanibel Unlimited	2,502	4.0
Sanibel Reduced Fare	9,374	14.9
Combination	2,374	3.8
<b>Total</b>	<b>62,814</b>	<b>100.0</b>

## TRANSPONDER SALES

Additional revenues are generated directly through the sale of LeeWay transponders. Monthly transponder revenue and transponders sold in FY 2024 compared to FY 2023 are shown in **Figures 1-6** and **1-7**, respectively. During FY 2024, Lee County generated additional gross revenues of \$52,426 through the sale of 3,088 transponders. Transponder sales peaked in November with 633 transponders sold. Transponder sales and revenues were significantly lower in FY 2024. Transponder sales were 33.1 percent less in FY 2024 as compared with the previous year, while revenue also declined by 22.7 percent. A transponder program, started in June 2021, provides customers with a free sticker transponder when opening a LeeWay account or adding a vehicle to an existing account. This program has contributed to the significant decline in transponder sales.

## VIOLATION ENFORCEMENT SYSTEM

During 2007, a violation enforcement system (VES) was installed at the toll plazas for each of the three Lee County toll facilities. When a customer passes through a toll plaza without paying or with an invalid LeeWay account, the VES employs a system of cameras and sensors to photograph the license plate of the offending vehicle. Violation images that are not “read” by the system are reviewed through a double-blind procedure to obtain license plate information for each recordable violation. Under this process, the two reviews are independent of each other. Reviewers have no knowledge of the conclusion reached by the other reviewer. If both reviewers reach the same conclusion, the read is accepted. If there is a discrepancy between the two, the image is sent for additional review. Some images are considered unreadable due to factors such as sunlight or objects obscuring a clear view. If a license plate cannot be conclusively identified, the violation is “coded off” and the customer is not pursued.

Violations for which images are available and read are then forwarded for additional processing. If the license plate corresponds to a LeeWay, SunPass, E-PASS, Quick Pass, Peach Pass, E-ZPass, KTag, PIKEPASS, TollTag, or rental car toll collection service provider account on record, the appropriate toll amount is deducted from the account. This is referred to as Video Tolling, or a “V Toll.” If no ETC account information is available for the plate, the license plate information is provided to the Highway Safety Motor Vehicles Department to locate the registered owner of the vehicle. The registered owner’s information is used to open a VES account, and a Toll Due Invoice (TDI) is generated and mailed to the owner for Pay-By-Plate toll collection. Previously, if the toll was not paid or contested within 30 days, a uniform traffic citation (UTC) was issued. Owners who received a UTC had 40 days to pay the toll plus a \$100.00 fee. If not paid within the time specified,

the UTC was turned into the Lee County court system and the fine is increased to include court costs and three points may be added to the owner's driver's license. In December 2019, Lee County toll facilities began an overall review of its violation enforcement process and stopped issuing UTCs, with plans to pursue motor vehicle registration holds in the future. In November 2023, Lee County toll facilities implemented a new toll due invoice process. Customers began being rebilled for any unpaid tolls back to October 1, 2019 and sent a second follow up invoice for non-payment. In July 2024, Lee County toll facilities also began the motor vehicle registration stop process for non-payment for Florida plates, which is limited to transactions within the last 12-month period that had generated a third and final invoice.

**Table 1-15** presents a summary of systemwide violation transactions by month for FY 2024. As shown, FY 2024 violations represented roughly 34.5 percent of total transactions. FY 2024 represents the fourth full year of the AET toll collection at the toll facilities. Customers that formerly paid with cash are initially classified as "violators" and handled through the VES. Despite this, the average rate of violations sent for processing was 97.4 percent for the year.

**Table 1-15**  
**Monthly Violation Transactions**  
**FY 2024**

Month	Total Traffic	% of Violations	Total Violations	VES Code-Offs	Collection %
Oct	1,743,752	33.6%	586,602	42,855	97.5%

<b>Total</b>	<b>21,059,380</b>	<b>34.5%</b>	<b>7,265,848</b>	<b>551,851</b>	<b>97.4%</b>

Source: Lee County FY 2024 Violation Summary Report

Of the total violations, 7.6 percent were coded off because photos of license plates were not readable, or due to cross lane duplicates and other duplicate transactions. It should be noted that the number of violations increased compared to FY 2023. Total violations increased by 10.9 percent from FY 2023 to FY 2024, with a 0.2 percent decrease in the overall rate of collected transactions. In total, 97.4 percent of all Lee County transactions were either paid at the toll plaza or processed for payment through the VES.

**Table 1-16** contains a summary of revenue collection activities resulting from violations reported from the lane level system. In FY 2024, \$18,941,167 in violation revenue was registered by Lee County, a 12.6 percent increase from \$16,819,195 in FY 2023. Of that total, 29.0 percent, or \$5,486,687 was collected by video tolling to existing ETC accounts or through the Rental Car Program. Another \$8,705,270 or 46.0 percent, was collected through Pay-By-Plate collection or through video billing with the issuance of Toll Due Invoices. A total of \$4,749,209 in originally registered violation revenue was never collected, representing a decrease of 28.9 percent compared to FY 2023. On the other hand, an additional \$8,504,522 in revenue was collected in fines, fees, and other miscellaneous revenues related to the VES. In total, after accounting for uncollectible revenues and additional fees and fines that were collected, \$3,755,312 in revenue was collected through the VES compared to the amounts originally owed. This significant amount is due to the new rebilling process through which additional tolls and fines were collected from previous years starting in October 2019.

**Table 1-16**

# CHAPTER 2

## REGIONAL ECONOMIC GROWTH TRENDS

Toll facility usage, such as the Lee County bridges, depends on three principal factors: regional travel demand; the travel time and/or distance savings achieved from using the toll facility compared to toll-free facilities; and willingness to pay for such time and/or distance savings.

Regional travel demand is driven predominantly by socioeconomic trends, such as population, employment, and other economic activities. These trends are measured most directly by gross regional product (GRP), but are also reflected by retail sales, tourism, real estate, and income metrics. Development trends and the relative housing market attractiveness also impact regional traffic. Customers only have four routes between Fort Myers and Cape Coral, limiting travel options across the Caloosahatchee River, but only one route to Sanibel Island. Additionally, many residents with Cape Coral, Sanibel, or Fort Myers jobs must commute on the bridges daily. These factors directly impact both tolled and toll-free facilities.

Travel time and/or distance savings on toll facilities are based on the location of economic activities and transportation network conditions, such as congestion along alternative routes. If toll facilities offer significant travel time and/or distance savings, the facilities have relatively higher demand. While geography is fixed, relative congestion may change, with impacts on the toll facilities.

Ability and willingness to pay tolls determines facility demand, once the previous two factors are considered. Higher wages and certain trip purposes (commuter and business traffic) generally result in a higher value of time, resulting in a greater willingness to pay for time and/or distance savings. Discount programs, such as those offered through LeeWay, subsidize the ability to pay tolls and increase facility usage.

As these factors relate to socioeconomic trends, it is important to understand such conditions affecting Lee County facilities. This chapter presents socioeconomic metrics, with extensive historical context as appropriate and available. Where possible, comparative data are also presented for Florida and the United States. Except as noted, data presented refers to calendar years.

### HISTORICAL SOCIOECONOMIC TRENDS

This section summarizes long-term historical socioeconomic trends pertaining to Lee County toll facilities, with data extending as far back as 40 years, through 2023 or 2024, as available. Data are from various government, academic, and private sources.

## Population

Between 1970 and 2024, Lee County's population increased tremendously, at over 600 percent, with over 500,000 additional individuals between 1970 and 2008. Growth was interrupted in 2009 during the Great Recession when population declined by 8,600 people, or 1.4 percent. However, by 2010 growth resumed and continued through 2022, with a slight decline in 2023. In 2024, population increased slightly by 3.2 percent to 827,016. Since 1970, the compound average annual population growth rate was 3.9 percent. **Table 2-1** depicts Lee County's population growth, outpacing Florida at 2.3 percent, which in turn, historically grew faster than the nation, at 1.0 percent. Florida's population more than tripled from 6,791,418 in 1970 to 23,014,551 in 2024.

**Table 2-1**  
**Historical Population Growth**

Source: Florida Office of Economic and Demographic Research April 1, 2024, Estimates (State and County); U.S. Census Bureau July 1 Estimates (National).

In absolute population growth terms, Lee County ranked with the sixth largest growth in Florida between 2014 and 2024; in relative terms, Lee County ranked 14<sup>th</sup> in percent population growth, as presented in **Figures 2-1** and **2-2**, respectively, based on annual population estimates from the Florida Office of Economic and Demographic Research via Census Bureau data. In the preceding

decade since 2014, Lee County's population increased by 173,531 residents, equating to a 26.6 percent increase, from 653,485 to 827,016 residents. Lee County's relative ranking regarding population growth has not appreciably changed compared to other Florida counties.

## Employment

Total employment levels and changes since 1990 are shown in **Table 2-2**. Lee County's historical employment growth significantly outpaced Florida and the nation, with growth averaging 2.7 percent per year since 1990, compared with a statewide average of 1.7 percent and a national 0.9 percent average. Lee County's employment growth was strong throughout the 1990s and early 2000s, but employment levels contracted between 2007 and 2009 during the Great Recession. Employment growth resumed after 2009 until contracting 5.1 percent in 2020 due to the COVID-19 pandemic. However, the decline was less pronounced than Florida's 6.8 percent contraction and the nation's 6.1 percent. In 2023, Lee County's employment declined by 0.1 percent from 2022.

**Table 2-2**  
**Historical Employment Growth**

### Household Income

Median household income from 1969 through 2023 is shown in **Table 2-3**. For years ending 1969, 1979, 1989, and 1999, data are from the Decennial Census, conducted the year after (1970, 1980, etc.). For years 2004 through 2023, data are from the U.S. Census Bureau, Small Area Income and Poverty Estimates, published annually. Each year's value is inflated to constant 2023 dollars using the BLS Consumer Price Index for Urban Consumers Research Series (CPI-U-RS). CPI-U-RS is the same index used by the Census Bureau to adjust income between years. Since the previous Annual Report depicted 2022 dollars, historical values shown in 2023 dollars thus do not match those in previous Annual Reports.

Source: United States Census Bureau and Bureau of Labor Statistics. Values are inflated to constant 2023 dollars using the BLS Consumer Price Index for Urban Consumers Research Series CPI-U-RS.

Since 1969, Lee County's real median household income grew on average 0.5 percent per year, in line with the statewide 0.5 percent per year and slightly faster than the national 0.3 percent per year. Lee County's real median household income in 2023 was less than both Florida and the national median household income. County median household income declined 15.3 percent between 2008 and 2013, during and after the Great Recession, declining to over \$7,000 below the national median levels. County, state, and national median household incomes all declined for those five consecutive years, reflecting above-average unemployment, and falling salaries. Lee County's real median household income increased each year from 2014 to 2020. However, 2021 median household income levels were 4.1 percent lower than 2020, or \$74,695. The Florida and national median household income also declined in 2021. Lee County and the national levels also declined slightly in 2022. In 2023, Lee County declined further by 3.7 percent. These declines are most likely due to hurricanes impacting the region and record high inflation.

### ***Gross Regional Product***

Gross Regional Product (GRP), referred to as Gross Domestic Product (GDP) nationally, is important to gauging overall economic health. Measured as the value of all goods and services provided (or consumed) within a region, including government spending, it is intended to represent aggregate economic activity. GRP and GDP are estimated annually for states, metropolitan areas, and nationally by the Bureau of Economic Analysis (BEA). Real GRP for Lee County, Florida, and national GDP between 2001 and 2023 are in **Table 2-4**. Values are in constant (or fixed, or real) 2017 dollars. The BEA recently converted from 2012 dollars to 2017 dollars and truncated historical subnational series, which will likely be revised with further historical data next year.

**Table 2-4**  
**Historical Gross Regional Product (Millions of 2017\$)**

Source: United States Bureau of Economic Analysis.

Since the Great Recession (officially 2007 to 2009) through the 2020 COVID-19 pandemic, the economy expanded annually, resulting in an entire decade of growth. On average since 2017, the growth in Lee County's GRP has been similar to Florida and has exceeded the nation, with average rates of 4.4, 4.1, and 2.4 percent, respectively. In 2023, Lee County's GRP increased 4.2 percent, slightly lower than Florida's 4.3 percent increase, but higher than the nation's 2.9 percent increase.

### ***Building Permits***

Housing growth was a significant factor during the 2000s economic expansion, and in the following downturn at the end of the decade, known as the "housing bubble." Areas such as Lee County experienced large population and employment increases associated with significant new housing construction. As home values and sales declined, Lee County's economic impact was particularly severe, as reflected in the previous employment, GRP and household income tables illustrating

declines more severe than Florida and the nation. Such trend is underscored by the precipitous drop in new home construction during and after the Great Recession.

Estimated annual authorized housing units building permits between 2000 and 2024 are presented in **Table 2-5**. Lee County experienced double-digit building permit growth between 2003 to 2005, followed by significant annual declines through 2009. In 2010, 2011 and 2012, authorized permits rose slightly, with significant percent increases between 2013 and 2015. However, while the relatively large percentage increases appear substantial, they represent growth following a 96.8 percent decline between 2005 and 2009.

15,411 permits were issued in 2024, an annual 13.7 percent Increase, and only 52.5 percent of the 2005 peak, when over 29,000 units were permitted. Building permit data from 1995 to 2024 are graphed in **Figure 2-3** as an index to the value in 2024. Both Florida and the United States also exhibited a 2005 peak with subsequent decline. Housing permit growth occurred during the pandemic, with Lee County's increasing 17.2 percent in 2020, with Florida and the nation by 6.3 percent and 6.1 percent, respectively. 2021 growth was more pronounced, at 25.5 percent in Lee County, similar in relative magnitude to Florida and nation. 2022 showed a significant decline in permit growth, with the number of building permits in Lee County remaining about the same but declining by less than 1 percent in Florida and 4.1 percent in the US. Growth declined for all geographies in 2023. Lee County saw significant permit growth in 2024, a 13.7 percent increase, while Florida and U.S. national permits further declined by 10.6 and 2.6 percent, respectively. This significant in building permits in Lee County can be attributed to recovery efforts following Hurricane Ian and an increase in overall residential construction activity in the area.

### Tourism

Lee County toll bridge traffic, particularly on the Sanibel Causeway, is heavily influenced by regional tourism and by employment in the tourism and hospitality industry. Annual historical tourism visitation data are presented in **Table 2-6**. Due to a methodology change by the Florida Commission for Tourism, statewide estimates prior to 2009 are incompatible with currently available data; as such, data prior to 2009 are excluded.

COVID-19 negatively impacted travel/tourism in Florida and Lee County. While Lee County impacts in 2020 were not as severe as other Florida regions, the effect was nonetheless major, stemming from state and local restrictions, including stay-at-home orders, public space closures, and social distancing. Per Table 2-6, Lee County visitors declined 31.2 percent in 2020 to 3.4 million, 30.0 percent consisted of friends/family, which is significantly lower than previous years. Lee County impacts were likely not as severe as other Florida regions due to earlier beaches and hotels/short-term rental openings. In 2021, Lee County visitors increased by 38.2 percent to nearly 4.7 million with 27.0 percent friends/family. This significant increase can partly be attributed to the recovery from COVID-19 and gradual return to normal travel patterns. In 2022, Lee County experienced a decline in visitors of 10.3 percent with 28.0 percent friends and family. In 2023, visitors continued to decline by 34.1 percent. In 2024, visitors to Lee County increased by 15.5 percent, with 16.3 percent friends and family. Lee County visitor data are also graphed in **Figure 2-4**, showing trend with an increasing proportion of paid accommodation visitors. In 2024, tourists visiting friends and family remained stable at 33 percent of the share of annual visitors; tourists with paid accommodations were 67 percent of the annual visitors. The increase in tourism in 2024 over 2023 can be attributed to the recovery from Hurricane Ian, which impacted travel to the area from September 2022 through the end of 2023.

## SHORT-TERM RECENT SOCIOECONOMICS

This section reviews recent economic trends in employment, unemployment, retail sales, and building permit activity, presented monthly, for recent years. Such variables provide additional insight into trends influencing recent transactions and toll revenues.

### Employment

Year-over-year monthly employment percent changes between 2023 and 2024 are presented in **Figure 2-5** and are derived from the Bureau of Labor Statistics (BLS) Local Area Unemployment Statistics (LAUS). Employment levels decreased in nearly every month in 2024 at the county level, while state and national levels increased in nearly every month. The declines in Lee County were particularly in the tourism sector due to the impact of Hurricane Ian and overall economic uncertainty. Both Lee County and Florida exhibited higher employment increases than the nation throughout in the beginning of 2024 but were outpaced by National growth beginning in May and through the rest of the year.

**Figure 2-5**  
Monthly Employment Percent Change  
2024 vs. 2023

Source: United States Bureau of Labor Statistics, Local Area Unemployment Statistics.

Monthly unemployment rates for the past five years are shown in **Figure 2-6**, derived from the same BLS data as the previous figure. In 2019, unemployment rates remained steady between 3.0 and 4.0 percent. In March 2020, unemployment rates increased, with a significant and unprecedented spike in April and May 2020, following COVID-19. Since the early pandemic months in mid-2020, unemployment rates steadily declined, with end-2021 down to pre-pandemic levels between 3.0 and 4.0 percent. Rates have remained steady from 2021 through 2024. Lee County in December 2024 exhibited a 3.1 percent unemployment, slightly lower than Florida's 3.2, and below the national 3.8.

Figure 2-6  
Monthly Unemployment Rates  
2020 – 2024

Source: United States Bureau of Labor Statistics, Local Area Unemployment Statistics.

### Gross Retail Sales

Monthly gross retail sales in Lee County are presented in **Figure 2-7** for the last five years, based on Florida Department of Revenue data. Gross retail sales in 2024 declined slightly, exceeding 2023 sales in only five months out of the year. In 2024, these sales were about 1.0 percent lower than 2023.

Figure 2-7  
Lee County Monthly Gross Retail Sales  
2020 – 2024

Source: Florida Department of Revenue, Florida Sales Tax Return Data

### Building Units Permits

As noted, Lee County's housing market has been quite volatile, experiencing explosive growth in the early 2000s followed by a near total halt beginning 2007. Lee County's housing market is a good regional economic indicator, relating not only to home construction jobs, but as a leading population growth indicator, both result in higher traffic volumes. **Figure 2-8** presents new housing units authorized in the last five years, indexed to January 2020. Indexing allows for direct comparison between local, state, and national trends. While Lee County's trend is slightly more volatile than Florida or the nation (as expected, given relative scale), all have generally trended upwards in the last five years, regardless of COVID-19. Given the nature of the COVID-19 pandemic, with stay-at-home mandates, etc., the resultant recession did not prompt a housing crash similar to the 2007 housing bubble due to fundamentally different causal factors and ensuing trends.

**Figure 2-8**  
Indexed Building Units Permits  
2020 – 2024

Source: U.S. Census Bureau, Manufacturing, Mining, and Construction Statistics.

### Cape Coral Development

While economic development typically proceeds gradually, some localized changes are concentrated and significant, potentially affecting travel patterns. Historically, many regional retail destinations were in Fort Myers, such that Cape Coral residents would cross the river on one of the four bridges to obtain goods and services. In the early 2010s, the City of Cape Coral began initiatives to provide more services “on island”; a continued trend representing a substantial shift in the local economic landscape, reducing (or at least dampening growth of) cross-river trip demand, such as on the Cape Coral and Midpoint Memorial Bridges. The City adopted the *Cape*

*Coral Economic Development Master Plan – Blueprint for Promoting Growth*, which has already been successful in locating new development for the city.

The master plan has the city divided into four quadrants, with potential development and redevelopment opportunities identified. The Southeast and Southwest quadrants are served by the Midpoint Memorial and Cape Coral Bridges. The Southeast quadrant was the city's first commercial area, originally developed in the 1960's. The South Cape Community Redevelopment Area (CRA) serves this commercial area.

Within the Southeast quadrant, which runs from SR 78 to the Caloosahatchee River and from the river to Santa Barbara Blvd., the master plan identifies several redevelopment opportunities, including the 20-acres Bimini Basin East for redevelopment as a town center. In February of 2024, this site broke ground for Bimini Square, a \$100 million mixed use development with 218 multi-family units, 48,000 sq. ft. of medical office, 7,500 sq. ft. restaurant with boat slips, and 500-space parking garage. It is expected to open in the fall of 2025. Also, in the CRA, the Cove at 47<sup>th</sup> mixed use housing development is now open and leasing. This \$103M project includes 327 apartment units, 19,000 square feet of retail use, and a 585-space parking garage, with 125 spaces reserved for public use. Additionally, the \$40M Cape Coral Yacht Club Master Plan redevelopment is moving along with the design plans at 60%, permitting underway, and demolition of the hurricane damaged community center in April 2024.

The Southwest quadrant, which runs from SR 78 to the Caloosahatchee River and from Santa Barbara Blvd. to Surfside Blvd., has more larger lot development opportunities plus redevelopment opportunities. The Oasis at Surfside Apartments first phase of 221-units opened last year near the intersection of Surfside Blvd. and Veterans Pkwy., and the second phase consisting of another 211 units is now leasing. The City of Cape Coral opened an \$11.6MM Fore Training Facility on its utilities campus off SW 32<sup>nd</sup> Street. In addition, there are several smaller infill housing developments along Skyline Blvd., Cape Coral Pkwy, and Agualinda Blvd. On the retail side, many infill retail locations are popping up along Cape Coral Blvd. and Chiquita Blvd. With the economic development master plan, there appears to be a concentrated effort in bringing economic development and redevelopment in Cape Coral which may impact traffic on both the Midpoint Memorial and Cape Coral Bridges.

## PROJECTED SOCIOECONOMIC GROWTH

This section contains an overview of forecasted population, employment, and GRP based on data from the Bureau of Economic and Business Research (BEBR) at the University of Florida and from Woods & Poole Economics, Inc. Data are generally presented in five-year increments, with average annual growth calculated therefrom.

### *Population*

Population forecasts are presented in **Table 2-7**, based on BEBR for Lee County and Florida, and Woods & Poole for the nation, with the latter values presented developed by superimposing the growth rates from Woods & Poole to the actual 2024 population estimates in Table 2-1. Therefore, estimated population forecasts in Table 2-7 may not precisely match those presented in the Woods & Poole data. Such superimposition was made so projected future growth would be

directly comparable to historical trends. As of the date of this report, the BEBR forecasts had not yet been released, therefore Table 2-7 includes prior year estimates for Lee County and Florida.

**Table 2-7**  
**Population Growth Forecast**  
**2024 – 2050**

Year	Lee County	Avg. Ann. % Δ	Florida	Avg. Ann. % Δ	United States	Avg. Ann. % Δ
2024	827,016	--	23,014,551	--	340,110,988	--
2025	835,900	1.1%	23,292,200	1.2%	342,432,210	0.7%
2030	908,500	1.7%	24,698,500	1.2%	353,806,768	0.7%
2035	964,400	1.2%	25,815,000	0.9%	364,705,949	0.6%
2040	1,006,700	0.9%	26,682,000	0.7%	374,949,150	0.6%
2045	1,042,400	0.7%	27,409,400	0.5%	385,111,941	0.5%
2050	1,075,100	0.6%	28,065,000	0.5%	395,781,890	0.5%
'24-'50	+248,084	1.0%	+5,050,449	0.8%	+55,670,902	0.6%

Source: University of Florida Bureau of Economic and Business Research Florida Population Studies (Lee County and Florida); Woods & Poole Economics, Inc. 2024 CEDDS (U.S.); and CDM Smith calculations.

BEBR estimates Lee County's average annual population growth at 1.0 percent through 2050, with Florida at 0.8 percent. Woods & Poole projects 0.6 percent average annual growth for the nation. While BEBR forecasts are unavailable in one-year increments, the forecast suggests relatively slower growth in the next decade, followed by decelerating growth thereafter. Woods & Poole's national forecast show less deceleration trends than BEBR.

### ***Employment***

Employment forecasts are shown in **Table 2-8** from Woods & Poole. Similar to national population forecasts, data were developed by applying Woods & Poole growth rates onto actual 2024 employment previously shown in Table 2-2.

Lee County's employment growth forecasts are effectively the same as Florida's, both of which are forecast to outpace the nation. Lee County's employment forecast averages 1.2 percent and Florida's averages 1.3 percent annually through 2060; national growth is forecast at 1.0 percent. All geographies' employment forecast growth rates are projected to decelerate slightly over time.

**Table 2-8**  
**Employment Growth Forecast**  
**2024 – 2060**

Year	Lee County	Avg. Ann. % Δ	Florida	Avg. Ann. % Δ	United States	Avg. Ann. % Δ
2024	365,557	--	10,781,312	--	162,903,248	--
2025	370,849	1.4%	10,969,421	1.7%	165,124,492	1.4%
2030	397,718	1.4%	11,821,857	1.5%	175,337,626	1.2%

Source: Woods & Poole Economics, Inc. 2024 CEDDS and CDM Smith calculations.

### ***Real GRP***

Gross Domestic Product (GDP) and Gross Regional Product (GRP) forecasts are shown in **Table 2-9**, with a 2023 base year, as this is the last year that historical data were available. Like the previous two tables, data were developed by applying Woods & Poole growth rate forecasts to the historical base.

As with employment, Woods & Poole GRP growth forecast for Lee County is projected to be 1.9 percent annually and Florida is projected to be 2.3 percent annually through 2060. National GDP is projected with slightly lower growth, averaging 1.8 percent. Woods & Poole forecast relatively rapid growth from 2025 through 2030 followed by slower, steadier growth through 2060, closer aligned to historical average growth between 2.0 and 3.0 percent.

**Table 2-9**  
**Gross Product Growth Forecast (Millions of 2017\$)**  
**2023 – 2060**

Year	Lee County	Avg. Ann. % Δ	Florida	Avg. Ann. % Δ	United States	Avg. Ann. % Δ
2023	\$40,417	--	\$1,292,788	--	\$22,671,096	--

# CHAPTER 3

## MIDPOINT MEMORIAL BRIDGE

### FACILITY PROFILE

The Midpoint Memorial Bridge, shown in **Figure 3-1**, connects Veterans Parkway (SR 884) in Cape Coral with Colonial Boulevard (SR 884) in Fort Myers. It is located approximately three miles north of the Cape Coral Bridge and three miles south of the Caloosahatchee Bridge (US 41). The bridge opened to traffic in October 1997 (FY 1998). Concurrent with the construction of the Midpoint Memorial Bridge, major improvements were completed on SR 884 (Colonial Boulevard/Veterans Parkway) at the intersections at SR 867 (McGregor Boulevard), US 41, and Del Prado Boulevard. The combined improvements provided an additional and much-needed river crossing and greater mobility between the Cape Coral and Fort Myers communities. One-way tolling was implemented on the facility in November 2007. The toll plaza was reconstructed after the conversion to one-way tolling and the remaining eastbound tolling infrastructure was demolished. The reconstruction was completed by May 2011.

**Figure 3-1**  
**Midpoint Memorial Bridge Location Map**

## Facility Capacity

Based on information in the FDOT 2023 Multimodal Quality/ Level of Service Handbook – Generalized Service Volume Tables, a 4-lane, divided highway facility such as the Midpoint Memorial Bridge, which is designed for posted speeds of 55 MPH, can accommodate no more than 4,070 vehicles per hour per direction to maintain a level of service (LOS) “D” and 4,240 to maintain LOS “E” for limited access, urbanized context classification facilities. The average weekday peak hour transaction volume for FY 2024 was 3,024, based on Lee County 15-minute transaction records. With a daily peak hour capacity of 4,070 vehicles per hour per direction, it is estimated that the facility operated at a LOS of D or better during peak hours for all of FY 2024. Three lanes at the Midpoint Memorial Bridge toll plaza are open for AET collections. The toll booths were removed in August 2022. The raised concrete islands and coned off toll lanes still remain, with one lane being used for IT staff testing purposes.

## HISTORICAL TOLL TRANSACTIONS AND REVENUES

This section contains a summary of detailed toll transaction and toll revenue performance for the Midpoint Memorial Bridge toll facility from FY 2015 through FY 2024. This historical trend analysis considers extenuating factors which may have affected toll transaction and revenue performance, such as toll rate increases, highway construction, major weather events and the COVID-19 pandemic. The information presented in this section is derived from LeeDOT administration records and may differ slightly from values presented elsewhere in this report, which are derived from operational records and sample data. The historical toll transaction and revenue trends for the Midpoint Memorial Bridge from FY 2015 to the current reporting year are presented in **Table 3-1**.

In FY 2017, toll transactions declined by 2.2 percent over the prior year and toll revenues declined by 0.5 percent, which can be attributed to the negative impacts of toll suspensions on Lee County facilities for 12 days during Hurricane Irma in September 2017. In FY 2020, transactions and revenues decreased significantly, by 7.5 and 17.6 percent, respectively, due to the negative impacts of the COVID-19 pandemic.

The greater impact on revenue is due to the cash toll collection suspension beginning in March 2020. Former cash customer transactions are now being processed as Pay-By-Plate customers, who are identified by license plate reviews and sent a bill for their toll payments. In FY 2021, transactions increased by 9.7 percent and revenues decreased by 0.8 percent compared to FY 2020, representing the start of the recovery over COVID-19 conditions. October 2020 through February 2021 transactions and revenues continued to be negatively impacted by the COVID-19 pandemic, with partial recovery starting in March 2021.

**Table 3-1**  
**Midpoint Memorial Bridge Toll Transactions and Revenues**  
**FY 2015 – FY 2024**

Fiscal Year		Toll Transactions	Percent Change	Total Revenue*	Percent Change
2015		7,975,126	-	\$ 14,988,167	-
2016		8,268,884	3.7	\$ 15,830,786	5.6
2017	<sup>1</sup>	8,090,020	-2.2	\$ 15,754,267	-0.5
2018		8,707,346	7.6	\$ 16,865,696	7.1
2019		8,722,066	0.2	\$ 17,377,140	3.0
2020	<sup>2</sup>	8,071,567	-7.5	\$ 14,324,662	-17.6
2021	<sup>2</sup>	8,854,936	9.7	\$ 14,204,750	-0.8
2022	<sup>3,4</sup>	8,865,800	0.1	\$ 17,813,539	25.4
2023	<sup>5</sup>	8,692,043	-2.0	\$ 16,764,229	-5.9
2024		9,523,360	9.6	\$ 20,518,120	22.4

Source: Lee County Daily Class/Traffic Type Reports

\*Actual revenue collected can be for transactions that occurred in prior fiscal years.

<sup>(1)</sup> Effects from Hurricane Irma in September 2017.

<sup>(2)</sup> Effects from COVID-19 pandemic beginning March 2020 through February 2021.

<sup>(3)</sup> Conversion to All Electronic Tolling beginning October 1, 2021. Implementation of \$3.00 administrative fee per Pay-By-Plate transaction.

<sup>(4)</sup> Effects from Hurricane Ian in September 2022.

<sup>(5)</sup> Continued effects from Hurricane Ian in October 2022.

In FY 2022, the significant increase in revenues can be attributed to the official conversion to AET, which began on October 1, 2021. Customers without a prepaid transponder are charged a \$3.00 administrative fee in addition to the toll for using the Pay-By-Plate system. In FY 2022, both transactions and revenues were negatively impacted by toll suspensions during Hurricane Ian from September 26, 2022 through September 29, 2022. In FY 2023, transactions decreased by 2.0 percent and revenues decreased by 5.9 percent compared to FY 2022. This decrease reflects the continuation of toll suspension on the facility for the entire month of October during Hurricane Ian.

In FY 2024, transactions saw an increase of 9.6 percent and revenues increased by 22.4 percent compared to FY 2023. The significant increase in FY 2024 can be partially attributed to the recovery from the effects of Hurricane Ian on FY 2023 transactions and revenues, as well as normal growth. The Midpoint Memorial Bridge annual toll transactions and toll revenue trends including annual growth are also presented visually in **Figure 3-2** and **Figure 3-3**.

**Figure 3-2**  
**Midpoint Memorial Bridge Historical Toll Transactions and Annual Growth**  
**FY 2015 – FY 2024**

Source: Lee County Daily Class/Traffic Type Reports

**Figure 3-3**  
**Midpoint Memorial Bridge Historical Toll Revenues and Annual Growth**  
**FY 2015 – FY 2024**

Source: Lee County Daily Class/Traffic Type Reports

The monthly total transactions and average weekday transactions for the two most recent fiscal years are presented in **Table 3-2**. Using the average number of weekday transactions allows for an easy comparison of the variations in relative travel demand over the year. The average number of weekday transactions on Midpoint Memorial Bridge ranged from a low of 26,300 in September 2024 to a high of 30,400 in July 2024. The decline in December, March, and September can be partially attributed to one less weekday in those months compared to the prior year. September transactions could have also been negatively impacted by Hurricane Helene, which traveled up the west coast of Florida during the last week of the month, making landfall in the Florida Gulf Coast on September 26, 2024. Tolls on the Midpoint Memorial Bridge were suspended throughout the entirety of October 2022 during FY 2023 as a result of Hurricane Ian. June, July, and August transactions were significantly higher due to Caloosahatchee Bridge closures from May 31 through August 11, 2024 for bridge deck replacement, median barrier wall construction, and guardrail installation.

**Table 3-2**  
**Comparison of FY 2023 and FY 2024 Monthly Total Transactions**  
**Midpoint Memorial Bridge**

Month	Monthly Total Transactions			Average Weekday Transactions		
	FY 2023	% Change	FY 2024	FY 2023	% Change	FY 2024

Source: Lee County Daily Class/Traffic Type Reports, Lee County Toll Operations 15-minute transaction records, FY 2024

\*October FY 2023 tolls suspended due to Hurricane Ian.

A full breakdown of Midpoint Memorial Bridge transactions by class and payment method during FY 2023 and FY 2024 is provided in **Table 3-3**. Full Fare Pay-By-Plate transactions for two-axle vehicles increased by 10.9 percent compared to the same period in FY 2023. Transactions in the Full Fare and Variable Discount LeeWay categories increased by 11.9 percent and 10.9 percent, respectively. This increase over the previous fiscal year may be partially attributed to FY 2024 containing no toll suspensions due to hurricanes, which significantly impacted FY 2023. Furthermore, the 2024 calendar year was a leap year, resulting in one extra day of toll collection.

However, the trends over the past several years reflect the shift in customer payment method from Pay-By-Plate to ETC to avoid the \$3.00 administrative fee per transaction that was implemented on October 1, 2021 (FY 2022). In absolute terms, Full Fare Variable Discount LeeWay program transactions increased by 89,100 transactions and Full Fare LeeWay transactions increased by 318,600. In FY 2024, the LeeWay Unlimited program transactions increased by 3.2 percent. Total LeeWay Discount Program transactions increased by 5.6 percent compared to FY 2023.

Even with the increases in discount program transactions, there is an overall market shift to Full Fare LeeWay transactions. Full Fare LeeWay (no variable discount) accounted for 31.5 percent of toll-paying transactions in FY 2024. Overall, full fare transactions increased by 1.2 percent of market share compared FY 2023. Again, this suggests that customers were less able or willing to make the initial outlay of funds required to enroll in the discounted programs or simply took fewer trips. Full Fare Pay-By-Plate remains the largest single payment category, accounting for 36.2 percent of toll-paying transactions, with an increase in market share of 0.4 percent compared to FY 2023.

The implementation of a \$3.00 administrative fee per transaction that took place in FY 2022 has not yet significantly affected the market share of Full Fare Pay By Plate transactions. As previously mentioned, Hurricane Ian also negatively impacted travel on Lee County facilities in FY 2023 during the month of October 2022.

Revenues by revenue source are presented in **Table 3-4**. The revenue shown in this table is based upon the actual revenue collected for each of the payment methods as well as other revenue

sources. Table 3-4 provides valuable insight into the distribution of revenues on the Midpoint Memorial Bridge.

The change in revenue by payment method follows the trends in toll transactions identified above. Discount program sales revenue market share decreased from 8.1 to 6.7 percent and full fare ETC revenue market share also decreased from 60.0 to 55.5 percent. The Pay-By-Plate revenue market share increased from 13.8 to 16.6 percent compared to FY 2023. Again, most likely due to FY 2023 revenue being negatively impacted by toll suspensions during Hurricane Ian. The Toll Due Notice \$3.00 fee totaled \$4.2 million in FY 2024 and represented 20.5 percent of total revenue collected on the facility.

## SEASONAL TRANSACTION VARIATIONS

The relative variability of transactions from month to month highlights their seasonal patterns. A bridge that accommodates many tourism-related trips will exhibit considerable variation, with peak transactions occurring during months with holidays and vacation season. By contrast, facilities used predominantly by commuters and those with a large proportion of Interstate commercial transactions tend to have more consistent year-round levels of traffic. In the tables that follow, monthly total transaction volumes are normalized to average daily traffic (ADT), adjusting for the varying numbers of days in each month. Using monthly ADT allows for an easy comparison of the variations in relative travel demand across each facility at various times of the year.

The FY 2024 monthly seasonal transaction variations for the Midpoint Memorial Bridge are presented in **Table 3-5**. Over the twelve-month period, average daily transactions ranged from a high of 27,800 vehicles per day in July 2024 to a low of 24,000 vehicles per day in September 2024. These data are presented in a graphical format in **Figure 3-4**. Each month's ADT appears as a percentage of the annual average for the fiscal year, which shows the deviation of the monthly average from the annual average. As can be seen here, July 2024 has the largest peak at 6.1 percent over the annual average and September is 8.4 percent below. Transactions on the Midpoint Memorial Bridge are typically below average during the second half of the fiscal year. As previously mentioned, September 2024 transactions were negatively impacted by Hurricane Helene.

**Table 3-5**  
**Monthly Seasonal Variation in Transactions**  
**Midpoint Memorial Bridge**

Month	Number of Days in Month	Total Transactions	Average Daily Traffic	Seasonal Factor
October	31	791,714	25,500	0.973
November	30	761,758	25,400	0.969
December	31	777,480	25,100	0.958
January	31	798,968	25,800	0.985
February	29	788,420	27,200	1.038
March	31	820,849	26,500	1.011

### DAY-OF-WEEK TRANSACTION VARIATIONS

Fluctuations in transactions by day-of-week were also reviewed to provide additional insight into the operating characteristics of the facility. Typically, commuter-oriented bridges such as the Midpoint Memorial Bridge experience consistently high transaction volumes throughout the work week with lower volumes on the weekends.

This analysis compares total transactions by day of the week. The data are presented as an index, where the annual average daily traffic volume equals 100. An index value of 100 for a given day of the week would indicate that day's transactions were precisely the same volume as the facility average. A value of 120 would indicate a day that has 20 percent greater volume than the average.

As shown in **Figure 3-5**, FY 2024 weekday transaction volumes on the Midpoint Memorial Bridge remained relatively consistent over the course of the five-day work week and higher than the average. Transactions were highest on Wednesdays, with an index value of 113 (13 percent higher than the average day), and volumes on Monday, Tuesday, Thursday, and Friday ranged from index values of 103 to 112. Bridge transactions decline significantly on Saturdays and Sundays, which have index values of 86 and 65 consistent with a commuter facility. The variations in FY 2024 traffic by day-of-week are consistent with those seen in prior years.

**Figure 3-5**  
Variations in Transactions, by Day  
Midpoint Memorial Bridge

Source: Lee County Daily Class/Traffic Type Reports, Lee County Toll Operations 15-minute transaction records, FY 2024

## HOURLY TRANSACTION VARIATIONS

This analysis involves a review of transaction patterns by hour for the Midpoint Memorial Bridge. Weekday and weekend transactions are presented separately due to significant differences in their respective traffic patterns. As with the data presented previously, the estimates contained in this section were developed from unaudited counts at the lane level. Analysis of annual totals and financial documents presented elsewhere in this chapter are based on audited year-end reports and may not align with the data presented here. In addition, since the conversion to one-way tolling in November 2007, data is available only in the tolled direction. This is important to consider when observing the peaking patterns of transactions throughout the day. For instance, if a prominent afternoon peak is observed on weekdays in the tolled direction, this is likely due to daily commuters, and it can be inferred that a similar morning peak occurs in the non-tolled direction.

The weekday and weekend day hourly transaction profiles on the Midpoint Memorial Bridge are shown in **Figure 3-6**. On both weekdays and weekend days, westbound transaction volumes gradually increase throughout the day, peaking in the late afternoon. On weekdays, the afternoon peak is quite steep, reaching 3,000 vehicles per hour during the busiest hour between 5:00 and 6:00 p.m. Because the tolled direction is westbound (toward Cape Coral), this suggests that commuters using the bridge primarily reside on the west side, traveling east to Fort Myers in the morning and returning home in the evening. Weekday morning transactions significantly increase between 6:00 a.m. and 7:00 a.m., representing a modest reverse-commute peak in the morning before leveling off at 7:00 a.m. and rising slowly again during the midday and early afternoon period. Volumes grow rapidly between 2:00 p.m. and 5:00 p.m. The peak-hour volume represents approximately 10.5 percent of total weekday transactions in the tolled direction. After 6:00 p.m. transactions drop precipitously, returning to late morning levels by 7:00 p.m. On weekend days, neither the morning nor the significant afternoon peaks are present. Instead, transactions increase gradually from approximately 6:00 a.m. until mid-afternoon, reaching a peak of nearly 1,600 average peak hour vehicles in the 3:00 p.m. hour. After 5:00 p.m. transaction volumes decline steadily.

**Figure 3-6**  
Hourly Transaction Profile  
Midpoint Memorial Bridge

## FUTURE IMPROVEMENTS AND PLANS

A review of the Lee County Capital Improvement Program (CIP) for future years identified a few projects that could impact traffic on Lee County toll facilities. The first is the Cape Coral Bridge westbound span replacement, which began design in FY 21/22 and has been recommended for a complete bridge replacement. Additionally, the Midpoint Bridge widening was listed in the CIP with planning phases identified in the 2<sup>nd</sup> five years of the plan.

A review of the FY 2023/2024 through FY 2027/2028 Lee County Metropolitan Planning Organization (MPO) Transportation Improvement Program (TIP) revealed one significant short-term planned improvement that would directly affect traffic on the Midpoint Memorial Bridge – SR 739 (Metro Parkway) from south of Daniels Parkway to north of Colonial Boulevard widening project is funded through the right-of-way phase.

Long-term, the Lee County MPO 2045 Long-Range Transportation Plan (LRTP) includes the Midpoint Memorial Bridge widening project in the 2045 Needs Plan, ranked 27<sup>th</sup>, but the project is not in the Cost Feasible Plan. The third amendment to the Lee County/City of Cape Coral East-West Corridor Interlocal Agreement, adopted on September 1, 2020, includes several capital improvements that will directly affect traffic on the Midpoint Memorial Bridge, including:

- Burnt Store Road widening from Van Buren Parkway to the Charlotte County Line;
- Congestion improvements at Veterans Parkway and Santa Barbara Boulevard;
- Congestion improvements at Colonial Boulevard and Summerlin Road;
- Veterans Parkway widening from Chiquita Boulevard to Skyline Boulevard; and,
- Planning study for an additional crossing of the Caloosahatchee River.

The Burnt Store Road improvement is funded for preliminary engineering in FY 2023/2024 of the TIP. Two other improvements, the Veterans Parkway Widening and Colonial Boulevard/Summerlin Road, are in the Lee County CIP but beyond the first five years. The congestion improvement at Veterans Parkway and Santa Barbara Boulevard is listed in the Lee County MPO LRTP Cost Feasible Plan (2031-2035 timeframe).

## ANNUAL EVENTS

Every year the Midpoint Memorial Bridge is the site of the Veterans Day Midpoint Madness 5K footrace. It is held annually on Veterans Day weekend and in FY 2024 the bridge was closed to vehicular traffic on November 11, 2023 between 7:00 PM and 10:00 PM. The race, which typically attracts 800 racers, started on the Midpoint Memorial Bridge at the McGregor Boulevard overpass on the Fort Myers side and crossed the Caloosahatchee River towards Cape Coral and back on the bridge to the finish line at the entrance to Royal Palm Square Shopping Center. The race benefited the YMCA of Southwest Florida, who has hosted the event for several years.

# CHAPTER 4

## CAPE CORAL BRIDGE

### FACILITY PROFILE

The Cape Coral Bridge, which opened in 1964, provided the first direct connection across the Caloosahatchee River between Fort Myers and Cape Coral. Approximately 3.3 miles south-southwest of the Midpoint Memorial Bridge, the Cape Coral Bridge connects Cape Coral Parkway in Cape Coral with College Parkway in Fort Myers, as shown in **Figure 4-1**. Tolls were removed from the crossing in 1974 and then reintroduced in 1989 to help finance the construction of the second, parallel span. Currently, the original span carries two lanes of traffic in the westbound direction while the newer span carries two lanes of traffic in the eastbound direction. As with the Midpoint Memorial Bridge, one-way tolling was implemented in November 2007. The toll plaza was reconstructed after the conversion to one-way tolling and the remaining eastbound tolling infrastructure was demolished. The reconstruction was completed by November 2012.

Figure 4-1  
Cape Coral Bridge Location Map

## Facility Capacity

Based on information in the FDOT 2023 Multimodal Quality/Level of Service Handbook – Generalized Service Volume Tables, a 4-lane, divided highway facility such as the Cape Coral Bridge, which is designed for posted speeds of 55 MPH, can accommodate up to 4,070 vehicles per hour per direction to maintain a level of service (LOS) “D” and 4,240 to maintain LOS “E” for limited access, urbanized context classification facilities. The average weekday peak hour transaction volume for FY 2024 was 3,100, based on Lee County 15-minute transaction records. With a daily peak hour capacity of 4,070 vehicles per hour per direction, it is estimated that the facility operated at a LOS of D or better during peak hours for all of FY 2024. Four lanes at the Cape Coral Bridge toll plaza are open for AET collections. All toll booths were removed in August 2022. The remaining structure, which consists of raised concrete islands and coned off toll lanes, will be removed as part of the bridge replacement project.

## HISTORICAL TOLL TRANSACTIONS AND REVENUES

This section contains a summary of detailed toll transaction and revenue performance for the Cape Coral Bridge toll facility from FY 2015 through FY 2024. This historical trend analysis considers extenuating factors which may have affected toll transaction and revenue performance, such as toll rate increases, highway construction, major weather events and the COVID-19 pandemic. The information presented in this section is derived from LeeDOT administration records and may differ slightly from values presented elsewhere in this report, which are derived from operational records and sample data. The historical toll transaction and revenue trends for the Cape Coral Bridge from FY 2015 to the current reporting year are presented in **Table 4-1**.

Between FY 2016 and FY 2017, due to Hurricane Irma, toll transactions declined 2.4 percent over the prior year and toll revenues declined by 1.3 percent. This is the first decline in both transactions and revenues since FY 2012. This decline in both toll transactions and revenues can be attributed to the negative impacts of toll suspensions on Lee County facilities during Hurricane Irma in September 2017. In FY 2018, toll transactions increased by 3.6 percent and toll revenues increased by 4.0 percent over 2017. The significant increase in FY 2018 compared to FY 2017 can partially be attributed to the recovery from the effects of Hurricane Irma on FY 2017 transactions and revenues, as well as normal growth.

In FY 2020, transactions and revenues decreased significantly, by 8.9 and 18.0 percent, respectively, due to the negative impacts of the COVID-19 pandemic, which included the suspension of cash toll collection. The greater impact on revenue is due to the cash toll collection suspension beginning in March 2020. For FY 2022, the conversion to AET began on October 1, 2021. Former cash customer transactions are now being processed as Pay-By-Plate customers, who are identified by license plate reviews and sent a bill for their toll payments. Customers without a prepaid transponder are charged a \$3.00 administrative fee per transaction in addition to the toll for using the Pay-By-Plate system.

**Table 4-1**  
**Cape Coral Bridge Toll Transactions and Revenues**  
**FY 2015 – FY 2024**

Fiscal Year	Toll Transactions	Percent Change	Total Revenue*	Percent Change
2015	8,022,636	-	\$ 14,327,080	-
2016	8,266,891	3.0%	\$ 15,014,104	4.8%
2017 <sup>1</sup>	8,071,717	-2.4%	\$ 14,818,782	-1.3%
2018	8,364,186	3.6%	\$ 15,416,219	4.0%
2019	8,453,337	1.1%	\$ 16,101,310	4.4%
2020 <sup>2</sup>	7,701,445	-8.9%	\$ 13,197,691	-18.0%
2021 <sup>2</sup>	8,364,502	8.6%	\$ 13,171,616	-0.2%
2022 <sup>3,4</sup>	8,500,765	1.6%	\$ 16,290,405	23.7%
2023 <sup>5</sup>	7,879,783	-7.3%	\$ 14,684,809	-9.9%
2024	8,765,622	11.2%	\$ 17,918,517	22.0%

Source: Lee County Daily Class/Traffic Type Reports

\*Actual revenue collected can be for transactions that occurred in the prior fiscal year.

<sup>(1)</sup> Effects of Hurricane Irma in September 2017.

<sup>(2)</sup> Effects from COVID-19 pandemic beginning March 2020 through February 2021.

<sup>(3)</sup> Conversion to All Electronic Tolling beginning October 1, 2021. Implementation of \$3.00 administrative fee per Pay-By-Plate transaction.

<sup>(4)</sup> Effects from Hurricane Ian in September 2022.

<sup>(5)</sup> Continued effects from Hurricane Ian in October 2022.

In FY 2023, both transactions and revenues were negatively impacted by toll suspensions during Hurricane Ian from September 26, 2022, through October 31, 2022. In FY 2023, transactions decreased by 7.3 percent and revenues decreased by 9.9 percent compared to FY 2022. This decrease reflects the continuation of toll suspension on the facility for the entire month of October 2022 during Hurricane Ian.

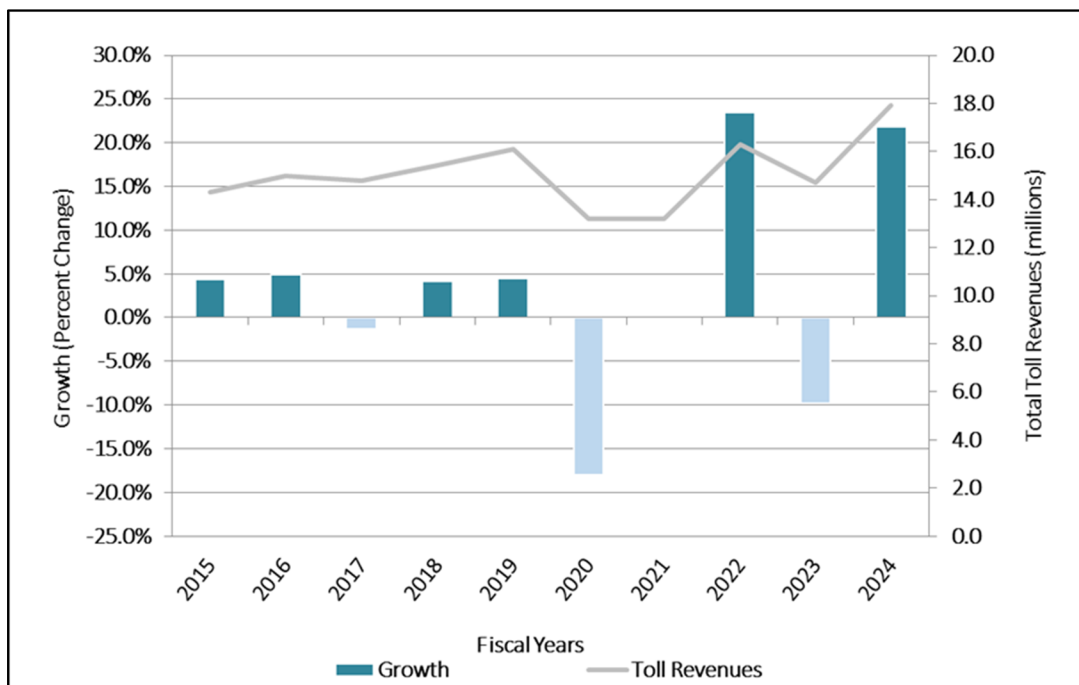

In FY 2024, transactions and revenues increased significantly over FY 2023. Toll transactions increased by 11.2 percent, while toll revenue increased by 22.0 percent. The significant increase in FY 2024 can be partially attributed to the recovery from the effects of Hurricane Ian on FY 2023 transactions and revenues, as well as normal growth. The Cape Coral Bridge annual toll transactions and toll revenue trends including annual growth are also presented visually in **Figure 4-2** and **Figure 4-3**.

Figure 4-2  
Cape Coral Bridge Historical Toll Transactions and Annual Growth  
FY 2015 – FY 2024

Source: Lee County Daily Class/Traffic Type Reports

Figure 4-3  
Cape Coral Bridge Historical Toll Revenues and Annual Growth  
FY 2015 – FY 2024

Source: Lee County Daily Class/Traffic Type Reports

The monthly transactions and average weekday transactions for the two most recent fiscal years are presented in **Table 4-2**. Using the average number of weekday transactions allows for an easy comparison of the variations in relative travel demand over the year. The average number of weekday transactions on the Cape Coral Bridge ranged from a low of 24,200 in September 2024, to a high of 29,000 in both February and March 2024. The Cape Coral Bridge experienced a decline in weekday transactions in January and September. The decline in September can be partially attributed to one less weekday compared to the prior year. September transactions could have also been negatively impacted by Hurricane Helene, which traveled up the west coast of Florida during the last week of the month, making landfall in the Florida Gulf Coast on September 26, 2024. June, July, and August transactions were significantly higher due to Caloosahatchee Bridge closures from May 31 through August 11, 2024 for bridge deck replacement, median barrier wall construction, and guardrail installation.

**Table 4-2**  
**Comparison of FY 2023 and FY 2024 Monthly Total Transactions**  
**Cape Coral Bridge**

Month	Monthly Total Transactions			Average Weekday Transactions		
	FY 2023	% Change	FY 2024	FY 2023	% Change	FY 2024

<b>Total</b>	<b>7,922,680</b>	<b>11.2%</b>	<b>8,813,118</b>	<b>26,200</b>	<b>1.9%</b>	<b>26,700</b>

Source: Lee County Daily Class/Traffic Type Reports, Lee County Toll Operations 15-minute transaction records, FY 2024

<sup>(1)</sup> October average weekday transactions adjusted to include no toll collection for the entire month due to toll suspensions during Hurricane Ian.

A full breakdown of Cape Coral Bridge transactions by class and payment method during FY 2023 and FY 2024 is provided in **Table 4-3**. Full-Fare Pay-By-Plate transactions for two-axle vehicles increased by 5.5 percent compared to the same period in FY 2023 but decreased in market share. Transactions in the Full Fare LeeWay categories increased by 17.5 percent, while Full Fare LeeWay Variable Discount transactions increased by 16.5 percent. This increase over the previous fiscal year may be partially attributed to FY 2024 containing no toll suspensions due to hurricanes, which significantly impacted FY 2023. Furthermore, the 2024 calendar year was a leap year, resulting in one extra day of toll collection. In absolute terms, Full Fare Variable Discount LeeWay program transactions increased by 127,224 transactions and Full Fare LeeWay transactions increased by

422,705. In FY 2024, the LeeWay Unlimited program transactions increased by 11.7 percent. Total LeeWay Discount Program transactions increased by 10.2 percent compared to FY 2023.

The implementation of a \$3.00 administrative fee per transaction that took place in FY 2022 reflects the market share declines in Full Fare Pay-By-Plate transactions as customers' payments shift to payment via ETC. As previously mentioned, Hurricane Ian also negatively impacted travel on Lee County facilities in FY 2023 during the month of October 2022.

Revenues by revenue source are presented in **Table 4-4**. The revenue shown in this table is based upon the actual revenue collected for each of the payment methods as well as other revenue sources. Table 4-4 provides valuable insight into the distribution of revenues on the Cape Coral Bridge.

The change in revenue by payment method follows the trends in toll transactions identified above. Discount program sales revenue was about equal to FY 2023, but the market share decreased from 9.3 percent to 7.6 percent while full fare ETC revenue market share decreased from 62.2 percent to 59.2 percent. The Full Fare Pay-By-Plate revenue market share increased by 2.3 percent over FY 2023. Again, most likely due to FY 2023 revenue being negatively impacted by toll suspensions during Hurricane Ian. The Toll Due Notice \$3.00 fee totaled \$3.2 million and represented 17.8 percent of total revenue collected on the facility.

## SEASONAL TRANSACTION VARIATIONS

The relative variability of transactions from month to month highlights their seasonal patterns. A bridge that accommodates many tourism-related trips will exhibit considerable variation, with peak transactions occurring during months with holidays and vacation season. By contrast, facilities used predominantly by commuters and those with a large proportion of Interstate commercial transactions tend to have more consistent year-round levels of traffic. In the tables that follow, monthly total transaction volumes are normalized to average daily traffic (ADT), adjusting for the varying numbers of days in each month. Using monthly ADT allows for an easy comparison of the variations in relative travel demand across each facility at different times of the year.

The FY 2024 monthly seasonal transaction variations for the Cape Coral Bridge are presented in **Table 4-5**. Over the twelve-month period, average daily transactions ranged from a high of 26,400 vehicles per day in February 2024 to a low of 21,600 vehicles per day in September 2024. These data are presented in a graphical format in **Figure 4-4**. Each month's ADT appears as a percentage of the annual average for the fiscal year, which shows the deviation of the monthly average from the annual average. As can be seen here, February 2024 has the largest peak at 9.5 percent over the annual average and September 2024 is 10.4 percent below. Transactions on the Cape Coral Bridge are typically below average during the second half of the year. As previously mentioned, September 2024 transactions were negatively impacted by Hurricane Helene.

Table 4-5  
Monthly Seasonal Variation in Transactions  
Cape Coral Bridge

Month	Number of Days in Month	Total Transactions	Average Daily Traffic	Seasonal Factor
October	31	740,222	23,900	0.992
November	30	715,436	23,800	0.988
December	31	727,690	23,500	0.975
January	31	763,208	24,600	1.021
February	29	765,180	26,400	1.095
March	31	807,613	26,100	1.083

## DAY-OF-WEEK TRANSACTION VARIATIONS

Fluctuations in transactions by day-of-week were also reviewed to provide additional insight into the operating characteristics of the facility. Typically, commuter-oriented roadways such as the Cape Coral Bridge experience consistently high transaction volumes throughout the work week with volumes declining on the weekends.

This analysis compares transactions by day of the week. The data are presented as an index, where the annual average daily traffic volume equals 100. An index value of 100 for a given day of the week would indicate that day's traffic was precisely the same volume as the facility average. A value of 120 would indicate a day that has 20 percent greater volume than the average.

As shown in **Figure 4-5**, FY 2024 weekday transaction volumes on the Cape Coral Bridge remained relatively consistent over the course of the five-day work week and higher than the average. Transactions were highest on Wednesdays, with an index value of 115 (15 percent higher than the average day), and volumes on Mondays, Tuesdays, Thursdays, and Fridays ranged from index values of 104 to 114. Bridge transactions decline significantly on Saturdays and Sundays, which have index values of 83 and 64. The variations in FY 2024 traffic by day-of-week are consistent with those seen in prior years.

## HOURLY TRANSACTION VARIATIONS

This section contains a review of transaction patterns by hour of the day for the Cape Coral Bridge. Weekday and weekend transactions are presented separately due to significant differences in their respective transaction patterns. As with the data presented previously, the values used in this analysis were developed from unaudited counts at the lane level. Analysis of annual totals and financial documents presented elsewhere in this chapter are based on audited year-end reports and may not agree with the data presented here. It is important to keep in mind that data is

available in the tolled direction only when observing the peaking patterns of transactions throughout the day. For instance, if a prominent afternoon peak is observed on weekdays in the tolled direction, this is likely due to daily commuters, and it can be inferred that a similar morning peak occurs in the non-tolled direction. Should permanent counters be installed in the future, two-way data will be reported in future annual reports, as was done prior to the conversion to one-way tolling. The tolled direction on the Cape Coral Bridge is westbound (away from Fort Myers and toward Cape Coral), just as on the Midpoint Memorial Bridge.

The weekday and weekend day hourly transaction profiles on the Cape Coral Bridge are shown in **Figure 4-6**. On both weekdays and weekend days, westbound transaction volumes gradually increase throughout the day, peaking in the late afternoon. On weekdays, the afternoon peak is quite steep, reaching slightly over 3,100 vehicles per hour during the busiest hour between 4:00 and 5:00 p.m. The peak hour flattens during afternoon peak hours, indicating the bridge reaching capacity. Because the tolled direction is westbound (toward Cape Coral), this suggests that commuters using the bridge primarily reside on the west side, traveling east to Fort Myers in the morning and returning home in the evening. Weekday morning transactions significantly increase between 6:00 a.m. and 7:00 a.m., representing a modest reverse-commute peak in the morning before leveling off at 7:00 a.m. and rising slowly again during the midday and early afternoon period. Volumes grow rapidly between 2:00 p.m. and 5:00 p.m. The peak-hour volume represents approximately 11.6 percent of total weekday transactions in the tolled direction. After 6:00 p.m. transactions drop precipitously, returning to late morning levels by 7:00 p.m. On weekend days, neither the morning nor the significant afternoon peaks are present. Instead, transactions increase gradually from approximately 6:00 a.m. until mid-afternoon, reaching a peak of 1,400 average peak hour vehicles in the 3:00 p.m. hour. After 5:00 p.m. transaction volumes decline steadily.

**Figure 4-6**  
Hourly Transaction Profile  
Cape Coral Bridge

## FUTURE IMPROVEMENTS AND PLANS

Several projects were identified in the Lee County Capital Improvement Program (CIP) for future years including replacement of the westbound span of the Cape Coral Bridge and additional lanes planned for the eastbound span for a total of six lanes. The environmental and preliminary engineering phases of the bridge replacement project began in FY 2021/2022 and are anticipated to be completed in FY 2024/2025. The preferred alternative for environmental study included a total bridge replacement to accommodate U-turns, bicycle and pedestrian facilities in each direction. Long-term, the Lee County MPO 2045 Long-Range Transportation Plan (LRTP) includes the Midpoint Memorial Bridge widening project in the 2045 Needs Plan, ranked 27<sup>th</sup>, but the project is not in the Cost Feasible Plan.

The third amendment to the Lee County / City of Cape Coral East-West Corridor Interlocal Agreement, adopted on September 1, 2020, includes several capital improvements that will directly affect traffic on the Cape Coral Bridge, including:

- Burnt Store Road widening from Van Buren Parkway to the Charlotte County Line;
- Congestion improvements at Cape Coral Bridge/College Parkway Overpass and McGregor Boulevard;
- Alternative design concept for the replacement of the westbound span of the Cape Coral Bridge, including sidewalk/bike path/lighting; and,
- Planning study for an additional crossing of the Caloosahatchee River.

The Burnt Store Road improvement is funded for preliminary engineering in FY 2023/2024 in the Lee County MPO Transportation Improvement Plan.

## ANNUAL EVENTS

On the 4th of July, the City of Cape Coral holds its annual City of Cape Coral Red, White and Boom event. The Cape Coral Bridge is the site of several activities including the Freedom 5K and a vantage point for the fireworks show. In FY 2024 the bridge was closed to vehicular traffic from 3:00 AM on July 4, 2024, through 2:00 AM on July 5, 2024.

This Page Intentionally Left Blank

# CHAPTER 5

## SANIBEL CAUSEWAY

### FACILITY PROFILE

Historically, the Sanibel Causeway opened to traffic in 1963, replacing a ferry that had operated between Sanibel Island and mainline Fort Myers for many years. Its location is shown in **Figure 5-1**. The Causeway consists of three bridges and roadways connecting mainland Fort Myers with Sanibel Island via two intermediate engineered islands. These three individual spans, the two islands, and the toll plaza underwent a major reconstruction that was completed in early September 2007.

On September 28, 2022, Hurricane Ian, a category 4 hurricane, made landfall on Fort Myers Beach causing significant wash out and damage to the bridge approaches. Through a partnership with the Florida Department of Transportation and with funding from the State of Florida and Federal Highway Administration, the necessary repairs were made without the use of toll funds.

**Figure 5-1**  
**Sanibel Causeway Location Map**

## Facility Capacity

Based on information in the FDOT 2023 Multimodal Quality/Level of Service Handbook – Generalized Service Volume Tables, a two-lane undivided highway facility with posted speeds of 30 MPH, such as the Sanibel Causeway, has a capacity of 730 and 1,490 vehicles per direction per hour for LOS “D” and “E” respectively for C1 & C2 Context Classification facilities. The average weekday peak hour transaction volume for FY 2024 was 970, based on Lee County 15-minute transaction records. With a daily peak hour capacity of 1,490 vehicles per hour per direction, it is estimated that the facility operated at a LOS of E or better during peak hours for all of FY 2024. Two lanes at the Sanibel Causeway toll plaza are open for AET collections.

## HISTORICAL TOLL TRANSACTIONS AND REVENUES

This section contains a summary of detailed transaction and toll revenue performance for the Sanibel Causeway toll facility from FY 2015 through FY 2024, with an emphasis on historical trends. The historical trend analysis considers extenuating factors which may have affected transaction and revenue performance, such as toll rate increases, highway construction, major weather events, and the COVID-19 pandemic. The information presented in this section is derived from LeeDOT administration records and may differ slightly from values presented elsewhere in this report, which are derived from operational records and sample data. The historical toll transaction and revenue trends for the Sanibel Causeway from FY 2015 to the current reporting year are presented in **Table 5-1**.

In FY 2016, toll transactions and toll revenues increased by 1.7 percent and 2.2 percent, as compared to FY 2015. Between FY 2016 and FY 2017, toll transactions declined 1.8 percent and toll revenues experienced a slight decline. This was the first decline in both transactions and revenues since FY 2010. This decline in both toll transactions and revenues can be attributed to the negative impacts of toll suspensions on Lee County facilities during Hurricane Irma in September 2017.

In FY 2018, toll transactions declined 0.4 percent and toll revenues declined 1.7 percent compared to FY 2017. This decline can partially be attributed to the longer-term economic impacts after Hurricane Irma in September 2017 (FY 2017). The Sanibel Causeway was also negatively impacted by poor water quality due to red tide and blue green algae blooms during the summer months, which negatively affected the local tourism, hotel, and fishing guide industries. The 3.3 million toll transactions recorded in FY 2018 were 5.6 percent below the peak of 3.5 million transactions recorded in FY 2001. In FY 2019, toll transactions increased by 0.9 percent from FY 2018 while toll revenues increased by 3.1 percent from FY 2018. In FY 2020, toll transactions decreased by 9.0 percent, due to the negative impacts of the COVID-19 pandemic. Toll revenues also dropped significantly in FY 2020 by 15.6 percent. The greater impact on revenue is due to the cash toll collection suspension beginning in March 2020. Former cash customer transactions are now being processed as Pay-By-Plate customers, who are identified by license plate reviews and sent a bill for their toll payments. In FY 2021, transactions increased by 14.1 percent and revenues increased by 6.2 percent compared to FY 2020, representing the initial recovery from COVID-19 conditions. October 2020 through February 2021 transactions and revenues continued to be negatively impacted by the COVID-19 pandemic, with partial recovery starting in March 2021.

**Table 5-1**  
**Sanibel Causeway Toll Transactions and Revenues**  
**FY 2015 – FY 2024**

Fiscal Year		Toll Transactions	Percent Change	Total Revenue*	Percent Change
2015		3,282,789	-	\$ 14,715,480	-
2016		3,337,055	1.7%	\$ 15,040,480	2.2%
2017	<sup>1</sup>	3,277,285	-1.8%	\$ 15,039,832	0.0%
2018		3,264,223	-0.4%	\$ 14,790,145	-1.7%
2019		3,293,772	0.9%	\$ 15,245,980	3.1%
2020	<sup>2</sup>	2,997,361	-9.0%	\$ 12,874,896	-15.6%
2021	<sup>2</sup>	3,419,121	14.1%	\$ 13,671,824	6.2%
2022	<sup>3,4</sup>	3,505,192	2.5%	\$ 15,933,950	16.5%
2023	<sup>5</sup>	1,923,781	-45.1%	\$ 9,176,791	-42.4%
2024		2,770,424	44.0%	\$ 14,034,030	52.9%

Source: Lee County Daily Class/Traffic Type Reports

\*Actual revenue collected can be from transactions that occurred in the prior fiscal year.

<sup>(1)</sup> Effects from Hurricane Irma in September 2017.

<sup>(2)</sup> Effects from COVID 19 pandemic beginning March 2020 through February 2021.

<sup>(3)</sup> Conversion to All Electronic Tolling beginning October 1, 2021. Implementation of \$3.00 administrative fee per Pay-By-Plate transaction.

<sup>(4)</sup> Effects from Hurricane Ian in September 2022.

<sup>(5)</sup> Continued effects from Hurricane Ian from October through December 2022.

In FY 2022, the significant increase in revenues can be attributed to the conversion to AET, which began on October 1, 2021. Customers without a prepaid transponder are charged a \$3.00 administrative fee in addition to the toll for using the Pay-By-Plate system. In FY 2022 and FY 2023, both transactions and revenues were negatively impacted by toll suspensions during Hurricane Ian from September 26, 2022, through December 31, 2022.

In FY 2023, transactions decreased by 45.1 percent and revenues decreased by 42.4 percent compared to FY 2022. This decrease reflects the continuation of toll suspension on the facility for the entire months of October through December 2022 during Hurricane Ian.

In FY 2024, transactions and revenues increased significantly over FY 2023. This increase can be partially attributed to the recovery from the effects of Hurricane Ian on FY 2023 transactions and revenues, as well as normal growth. Transactions and revenues on the Causeway are not back to pre-hurricane levels, as condominiums and resorts on the island are still rebuilding from storm impacts. Toll transactions increased by 44.0 percent, while toll revenue increased by 52.9 percent. The trends in Sanibel Causeway annual toll transactions and toll revenue annual growth are also presented visually in **Figure 5-2** and **Figure 5-3**.

Figure 5-2

Figure 5-3  
Sanibel Causeway Historical Toll Revenues and Annual Growth  
FY 2015 – FY 2024

Source: Lee County Daily Class/Traffic Type Reports

The monthly total transactions and average weekday transactions for the two most recent fiscal years are presented in **Table 5-2**. Using average number of weekday transactions allows for an easy comparison of the variations in relative travel demand over the year. From January 2024 through July 2024, the Sanibel Causeway overall experienced increases in both monthly and weekday transactions, as compared to the prior fiscal year. The average number of weekday transactions on Sanibel Causeway ranged from a low of 6,600 in September 2024, to a high of 9,900 in March 2024. The decline in September can be partially attributed to one less weekday in those months compared to the prior year, as well as negative impacts from Hurricane Helene, which traveled up the west coast of Florida during the last week of the month. The absence of transactions from October, November, and December of FY 2023 reflects the suspension of tolls and recovery efforts on Sanibel Causeway due to Hurricane Ian.

**Table 5-2**  
**Comparison of FY 2023 and FY 2024 Monthly Total Transactions**  
**Sanibel Causeway**

Month	Monthly Total Transactions			Average Weekday Transactions		
	FY 2023	% Change	FY 2024	FY 2023	% Change	FY 2024

<sup>(1)</sup> October through December average weekday transactions adjusted to include no toll collection due to toll suspensions during Hurricane Ian.

A full breakdown of Sanibel Causeway transactions by class and payment method during FY 2023 and FY 2024 is presented in **Table 5-3**. Full Fare Pay-By-Plate transactions for two-axle vehicles increased by 41.9 percent compared to the same period in FY 2023. Transactions in the Full Fare LeeWay category increased by 231,246, or 41.3 percent. In absolute terms, the total Full Fare transactions increased by 506,364. In FY 2024, the LeeWay Unlimited program transactions increased by 54.2 percent. Total LeeWay Discount Program transactions increased by 53.1 percent compared to FY 2023. It's difficult to determine trends for FY 2023 due to toll suspensions for the months of October through December 2022 during Hurricane Ian.

Due to the continuing shift away from discount programs toward Full Fare LeeWay transactions, overall market share among payment types is gradually changing. Full Fare LeeWay accounted for 28.5 percent of toll-paying transactions in FY 2024. Overall, full fare transactions market share decreased 1.0 percent as compared to FY 2023. Again, this suggests that motorists are using discount programs, which indicates that residents and businesses have returned to the island post-Ian. Full Fare Pay-By-Plate remains the largest single payment category, accounting for 33.6 percent of toll-paying transactions, although with a decrease in market share of 0.5 percent compared to FY 2023.

The implementation of a \$3.00 administrative fee per transaction that took place in FY 2022 has not yet significantly affected the market share of Full Fare Pay By Plate transactions. As previously mentioned, Hurricane Ian also negatively impacted travel on Lee County facilities in FY 2023 during the months of October, November, and December 2022.

<sup>(1)</sup> Variable discount is not offered on the Sanibel Causeway.

Revenues by revenue source are presented in **Table 5-4**. The revenue shown in this table are based upon the actual revenue collected for each of the payment categories and other revenue sources. Table 5-4 provides valuable insight into the distribution of revenues on the Sanibel Causeway.

The change in revenue by payment method follows the trends in toll transactions identified above. Discount program sales market share decreased from 13.0 percent to 12.8 percent while full fare ETC market share stayed relatively the same. The Full Fare Pay-By-Plate market share increased from 18.3 percent to 19.5 percent, even though the Pay-By-Plate market share of transactions was down. As previously mentioned, FY 2023 revenues were also negatively impacted by toll suspensions for the entire months of October, November, and December during Hurricane Ian and recovery efforts may have an impact on payment method shares.

## SEASONAL TRANSACTION VARIATIONS

The relative variability of transactions from month to month highlights their seasonal patterns. A bridge that accommodates many tourism-related trips will exhibit considerable variation, with peak transactions occurring during months with holidays and vacation season. By contrast, facilities used predominantly by commuters and those with a large proportion of Interstate commercial transactions tend to have more consistent year-round levels of traffic. In the tables that follow, monthly total transaction volumes are normalized to average daily traffic (ADT), adjusting for the varying numbers of days in each month. Using monthly ADT allows for an easy comparison of the variations in relative travel demand across each facility at different times of the year.

The FY 2024 monthly seasonal transaction variations for the Sanibel Causeway are presented in **Table 5-5**. Over the twelve-month period, average daily transactions ranged from a high of 9,200 vehicles per day in March 2024 to a low of 6,200 vehicles per day in September 2024. These data are presented in a graphical format in **Figure 5-4**. Each month's ADT appears as a percentage of the annual average for the fiscal year, which shows the deviation of the monthly average from the annual average. As can be seen here, March 2024 has the largest peak at 21.1 percent over the annual average and September 2024 is 18.4 percent below. Transactions on the Sanibel Causeway are typically below average during the second half of the year. As previously mentioned, September 2024 transactions were negatively impacted by Hurricane Helene.

Table 5-5  
Monthly Seasonal Variation in Transactions  
Sanibel Causeway

Month	Number of Days in Month	Total Transactions	Average Daily Traffic	Seasonal Factor
October	31	223,326	7,200	0.947
November	30	213,918	7,100	0.934
December	31	208,065	6,700	0.882
January	31	252,898	8,200	1.079
February	29	260,436	9,000	1.184
March	31	285,946	9,200	1.211
April	30	259,576	8,700	1.145
May	31	243,399	7,900	1.039

## DAY-OF-WEEK TRANSACTION VARIATIONS

Fluctuations in transactions by day of week were also reviewed to provide additional insight into the operating characteristics of the facility. A facility like the Sanibel Causeway which accommodates a substantial number of leisure trips may experience higher transaction volumes on weekends and holidays as compared with commuter facilities. The transactions used here refer to westbound travel only, the only tolled direction.

This analysis compares total transactions by day of the week. The data are presented as an index, where the annual average daily traffic volume equals 100. An index value of 100 for a given day of the week would indicate that day's transactions were precisely the same volume as the facility average. A value of 120 would indicate a day that has 20 percent greater volume than the average.

The variation in daily transactions during FY 2024 on the Sanibel Causeway exhibits a usage trend that is substantially different from prior years. FY 2024 weekday transaction volumes on the Sanibel Causeway remained relatively consistent over the course of the five-day work week and is inconsistent with the average of high weekend usage. As shown in **Figure 5-5**, toll transaction volumes rise gradually throughout the weekdays, from 103 percent of the average on Mondays to 112 percent of the average on Wednesdays. Thursdays and Fridays are slightly lower at 109 and 111 percent of the average respectively. Bridge transactions decline significantly on Saturdays and Sundays, which have index values of 88 and 67, which is more consistent with a commuter facility than a tourist facility. Weekend traffic has also been negatively impacted by the closure of causeway beaches since Hurricane Ian.

**Figure 5-5**  
**Variations in Transactions, by Day**  
**Sanibel Causeway**

Source: Lee County Daily Class/Traffic Type Reports, Lee County Toll Operations 15-minute transaction records

## HOURLY TRANSACTION VARIATIONS

This section contains a review of transaction patterns by hour of the day for the Sanibel Causeway. Weekday and weekend toll transactions are presented separately due to significant differences in their respective traffic patterns. As with the data presented previously, the values used in this analysis were developed from unaudited counts at the lane level. Analysis of annual totals and financial documents presented elsewhere in this chapter are based on audited year-end reports and may not agree with the data presented here. In addition, the data are only available in the tolled direction. This is important to keep in mind when observing the peaking patterns of traffic throughout the day. For instance, if a prominent morning peak is observed on weekdays in the tolled direction, this is likely due to daily commuters, and it can be inferred that a similar afternoon peak occurs in the non-tolled direction. The tolled direction on the Sanibel Causeway is westbound (toward Sanibel Island).

As illustrated in **Figure 5-6**, the hourly transaction patterns in the westbound (or on-island direction) on the Sanibel Causeway are quite different from the Midpoint Memorial and Cape Coral Bridges. Owing to the proportionally greater role of recreational transactions on this facility, weekday and weekend day transaction patterns are nearly identical except for the five-hour morning peak period occurring on weekdays due to workers traveling to Sanibel Island.

**Figure 5-6**  
Hourly Transaction Profile  
Sanibel Causeway

Source: Lee County Toll Operations 15-minute transaction records, FY 2024

From almost no transactions during overnight hours, weekday transactions toward Sanibel Island climbs rapidly beginning at 5:00 a.m. Transaction growth continues to build to an average peak hour volume of 974 vehicles per hour between 7:00 a.m. and 8:00 a.m., representing 11.7 percent of weekday transactions. Following the decline from the morning peak, transactions remain relatively stable throughout the midday at between 300 and 700 vehicles per hour between 10:00 a.m. and 4:00 p.m. Transaction volumes decline steadily after 4:00 p.m., with no significant afternoon reverse-commute peak.

Weekend transactions display unimodal distribution, where the volumes are similar for hours preceding and following 11:00 a.m. During the hours when the morning peak occurs on weekdays,

weekend transactions build gradually, to a peak of nearly 550 average peak hour vehicles between 11:00 a.m. and noon. These trends indicate a sizable number of commuters heading onto the island on weekdays, on top of a larger and steadier flow of recreational trips that occur on both weekdays and weekends, peaking in the middle of the day. As compared with the Midpoint Memorial and Cape Coral Bridges, peak-hour commuter transactions represent a smaller share of overall demand on the facility.

### FUTURE IMPROVEMENTS AND PLANS

The Sanibel Causeway experienced significant storm damage to the intermediate islands from Hurricane Ian as the storm made landfall on September 28, 2022. FDOT emergency response had the bridge open to emergency service vehicles within 15 days, and open to regular traffic on October 19, 2022, with temporary improvements at the cost of \$28.4M largely completed through state emergency funding. FDOT anticipates the permanent repairs to the causeway, including resiliency components, to be completed by December 2023. The resiliency components include raising the roadbed, buried sheet pile, stainless steel gabion baskets, armour stone and rip rap protection, box culverts and seagrass vegetation cost \$285.3M. The Federal Highway Administration (FHWA) is scheduled to reimburse FDOT approximately \$239M, or 80 percent of the cost of the permanent repairs. The Lee County non-federal share of this cost is \$46.1M with another \$5.5M in intermediate island improvements and amenities.

# CHAPTER 6

## NET AND EXCESS TOLL REVENUE

All toll revenues generated by the Lee County toll system are covered by a series of bond covenants and interlocal agreements that determine the manner and order in which revenues are distributed. This chapter contains descriptions of operating and maintenance costs, net revenues, deposits, and withdrawals of covenanted and pledged funds and bond obligations. Other financial transactions required by covenant or agreement are presented as well. The data in this chapter was obtained from the Lee County Excess Revenue Report and is based on accrued revenue, which differs from actual revenue collected used throughout the rest of this report.

### NET ACCRUED REVENUE

Net accrued revenue is calculated by deducting maintenance and operating (M&O) expenses from gross accrued revenues. FY 2024 gross accrued revenues, M&O expenditures, and the resulting net accrued revenues for the entire Lee County system and the three toll facilities individually are presented in **Table 6-1**. As shown, systemwide net accrued revenues totaled approximately \$37.6 million in FY 2024. Each of the three facilities contributed a different proportion of gross accrued revenues. The Midpoint Memorial Bridge had net accrued revenue that was 37.5 percent of the total, compared with 33.4 percent and 29.1 percent on the Cape Coral Bridge and Sanibel Causeway, respectively.

**Table 6-1**  
**Net Accrued Revenue by Facility**  
**FY 2024**

Line Item	Midpoint Memorial Bridge	Cape Coral Bridge	Sanibel Causeway	Total
Gross Accrued Revenue	\$18,891,021	\$18,239,816	\$15,588,559	\$52,719,395
M&O Costs	(\$4,822,790)	(\$5,678,206)	(\$4,656,382)	(\$15,157,378)
<b>Net Accrued Revenue</b>	<b>\$14,068,230</b>	<b>\$12,561,610</b>	<b>\$10,932,177</b>	<b>\$37,562,017</b>
<b>% of Net Accrued Revenue</b>	<b>37.5%</b>	<b>33.4%</b>	<b>29.1%</b>	<b>100.0%</b>

Source: Lee County Unaudited Excess Revenues over Expenditures as of November 24, 2024.

The year-over-year change in M&O expenses by facility is shown in **Table 6-2**. The Midpoint Memorial Bridge and Cape Coral Bridge facilities experienced a slight decrease in M&O expenses compared to FY 2023, while the Sanibel Causeway facility experienced an increase in M&O expenses. The increase in M&O expenses on Sanibel Causeway can be attributed to continued recovery and repair costs after Hurricane Ian. Cape Coral Bridge experienced the largest percent decrease in M&O expenses at 7.7 percent. Overall, expenses decreased by 2.7 percent systemwide.

**Table 6-2**  
**Comparative M&O Expenses by Facility**  
**FY 2023 and 2024**

Facility	FY 2023 Actual	FY 2024 Actual	Percent Change over FY 2023
Midpoint Memorial Bridge	\$5,029,909	\$4,822,790	-4.1
Cape Coral Bridge	\$6,151,250	\$5,678,206	-7.7
Sanibel Causeway	\$4,404,683	\$4,656,382	5.7
<b>Total</b>	<b>\$15,585,842</b>	<b>\$15,157,378</b>	<b>-2.7</b>

Source: Lee County Unaudited Excess Revenues over Expenditures as of November 24, 2024.

## EXPENDITURES AND EXCESS REVENUE

As previously stated, net accrued revenues generated by the three tolled facilities must be disbursed in a prescribed manner. The flow of funds is presented in **Figure 6-1**.

### *Senior Lien Debt Obligation*

After paying all M&O expenses, the first obligation is to service senior lien debt. Senior lien debt is comprised of debt service to the Series 2014 bonds that refunded the Series 2001 bonds. The ratio of net revenue versus the amount of senior lien debt due in that fiscal year is referred to as the coverage ratio. By covenant, Lee County is required to maintain a coverage ratio of 1.20. This means net revenue must exceed total senior lien debt obligations by 20 percent. In FY 2024, the coverage ratio for senior lien debt equaled 3.83, as shown in **Table 6-3**. The coverage ratio increased from the FY 2023 coverage ratio of 2.65, which was impacted by the toll suspensions affecting the facilities that year.

**Table 6-3**  
**Senior Lien Bond Coverage**  
**FY 2024**

Line Item	Amount
Total Gross Accrued Revenue	\$52,719,395
Total M&O Costs	(\$15,157,378)
Total Net Accrued Revenue	\$37,562,017
Annual Debt Service	(\$9,819,168)
<b>Senior Lien Debt Coverage Ratio</b>	<b>3.83</b>

Source: Lee County and CDM Smith Analysis.

Figure 6-1  
Flow of Funds

### ***Renewal and Replacement Fund***

After fulfilling bond and debt obligations, Lee County is required to maintain a renewal and replacement (R&R) account for each facility. These accounts are required to have a minimum balance of either \$500,000 or 5.0 percent of the previous year's gross toll revenues, whichever is greater. Funds in these accounts can be used for a limited number of specific purposes including but not limited to major improvements or additions; unusual and extraordinary maintenance or repairs; maintenance activities not recurring annually; renewal and replacement of major equipment; and repairs or maintenance resulting from an emergency. The latter item is conditional and can only be used in cases where money from the maintenance and operations account and insurance proceeds do not cover the total cost of said emergency. **Table 6-4** contains the FY 2024 gross accrued revenues for each bridge, 5.0 percent of the gross accrued revenues, the expenditures for each bridge and the deposits required to meet the 5.0 percent minimum balance. In FY 2024 expenditures totaling \$375,582 were made from the three R&R accounts. No deposits were made into the three R&R funds in FY 2024, as each was already overfunded based on previous years' revenues.

**Table 6-4**

Deposits	\$0	\$0	\$0	<b>\$0</b>

Source: Lee County Unaudited Excess Revenues over Expenditures as of September 30, 2024.

### ***Other Debt and Expenses***

In addition to meeting the senior lien debt coverage requirement, Lee County is obligated to maintain a coverage ratio of 1.00 over all junior lien debt, subordinate debt, and covenanted payments, including bank and FDOT loans. The coverage ratio is calculated as net revenues over annual debt service and other expenses. As shown in **Table 6-5**, the Lee County facilities exceeded the required coverage ratio in FY 2024 with a 3.83 coverage ratio.

### ***Interlocal Agreements***

After meeting the debt obligations outlined above and satisfying covenanted fund requirements, remaining revenues are subject to Lee County's existing interlocal agreements with the City of Sanibel and the City of Cape Coral. The interlocal agreement with Cape Coral is attached as **Appendix A**. A copy of the settlement agreement with the City of Sanibel, which includes the interlocal agreement, is attached in **Appendix B**. The following sections provide brief overviews of these agreements and the general terms of each interlocal agreement.

**Cape Coral Interlocal Agreement:** The interlocal agreement between Lee County and the City of Cape Coral was entered into on March 22, 1995, and has been amended four times, in May 2001, November 2002, August 2004, and September 2020. The agreement states that 40.0 percent of the net surplus toll revenues generated by the Midpoint Memorial and Cape Coral Bridges are to be paid to the City of Cape Coral. Net surplus revenues are defined as total gross toll revenues minus Midpoint Memorial and Cape Coral Bridges M&O expenses, debt service payments, deposits into the R&R fund, and projects as outlined in the interlocal agreement. No direct transfer of funds between the county and the city has occurred. Rather, excess revenues are deposited into the capital improvement budget to be spent on projects in accordance with the interlocal agreement, in FY 2024 no funds were transferred to the capital improvement budget. The funds were transferred to the fund for system projects to begin toll system replacement.

**Sanibel Interlocal Agreement:** The interlocal agreement with the City of Sanibel went into effect in November 1987 and was amended and restated in June 2002. In January 2004, a lawsuit was filed by the City of Sanibel against Lee County based primarily on the County's plan to replace Span

A of the causeway with a fixed-span bridge rather than a moveable span like the original. This case was dismissed on March 1, 2005, at which time a settlement agreement was reached between Lee County and the City of Sanibel. Under this settlement agreement, the City of Sanibel agreed to use its share of surplus toll revenues to reduce the cost of commuter discount program fees and tolls. Accordingly, a new toll schedule was implemented in November 2005.

As part of the current agreement, Lee County is required to remit to the City of Sanibel 21.0 percent of the net surplus revenues generated from the operation of the Sanibel Causeway. Net surplus revenues are defined as total gross revenues minus causeway M&O expenses, the debt service requirement for bonds issued related to the causeway, and payments into the causeway R&R account. In FY 2024, this equated to a payment of \$1,204,293.46, leaving a residual net revenue of \$5,605,642.03.

### ***Capital Improvement Program***

Revenue remaining after meeting the conditions of the interlocal agreements must be deposited into a capital improvements fund. The projects being funded through the capital improvement program include:

- Software/hardware upgrades to maintain toll interoperability with other toll agencies on all three facilities;
- Replacement of overhead signage at Sanibel Causeway, Cape Coral Bridge, Midpoint Memorial Bridge, and Big Carlos Pass Bridge; and,
- The replacement of the Cape Coral Bridge.

In FY 2024, the overhead signage replacement at the three bridges was installed and completed, and the Cape Coral Bridge Replacement Project, Preliminary Engineering phase is still ongoing.

**Appendix A**  
**Interlocal Agreement – City of Cape Coral**

**THIRD AMENDMENT TO THE  
LEE COUNTY/CITY OF CAPE CORAL  
EAST-WEST CORRIDOR INTERLOCAL AGREEMENT**

This Third Amendment to the Lee County/City of Cape Coral East-West Corridor Interlocal Agreement dated March 22, 1995, the Amended and Restated Lee County/City of Cape Coral East-West Corridor Interlocal Agreement dated May 22, 2001, and Second Amendment to the Lee County/City of Cape Coral East-West Corridor Interlocal Agreement dated November 26, 2002, is made and entered into this 1st day of September, 2020 by and between LEE COUNTY, a political subdivision of the State of Florida, hereinafter referred to as "COUNTY" and the CITY OF CAPE CORAL, a Florida municipal corporation located within Lee County, hereinafter referred to as "CITY", collectively, the "Parties".

**WHEREAS**, pursuant to the powers and authority granted the Parties under the Constitution of the State of Florida and by statute, each has planned, separately and in cooperation with the other, an integrated road network; and

**WHEREAS**, in a cooperative effort between the Parties to accomplish shared transportation objectives, certain interrelated capital transportation facilities known as the "Midpoint Bridge" (from Deleon Street in the City of Fort Myers to the Del Prado Interchange in the City of Cape Coral, the "East-West Corridor" [now known as the "Veterans Memorial Parkway"]) from the Del Prado Interchange west to the County Line including Burnt Store Road from Pine Island Road north to the County Line and Colonial Boulevard from Deleon Street to Solomon Boulevard in the City of Fort Myers) (collectively, the "PROJECT") have been planned and are, or are being constructed; and

**WHEREAS**, the CITY and COUNTY entered into an Interlocal Agreement regarding their respective duties and responsibilities for the PROJECT; and

**WHEREAS**, it is in the public's interest of both the CITY and the COUNTY to amend the Interlocal Agreement dated March 22, 1995, the Amended and Restated Lee County/City of Cape Coral East-West Corridor Interlocal Agreement dated May 22, 2001, and the Second Amendment to the Lee County/City of Cape Coral East-West Corridor Interlocal Agreement dated November 26, 2002, attached hereto as Exhibits "A", "B" and "C" respectively; and

**WHEREAS**, the March 22, 1995 Interlocal Agreement's main purpose was to build the interrelated facilities known as the "Midpoint Bridge" (from Deleon Street in the City of Fort Myers to the Del Prado Interchange in the City of Cape Coral), the "East-West Corridor" (from the Del Prado Interchange to Santa Barbara Boulevard in the City of Cape Coral) and Colonial Boulevard from Deleon Street to Solomon Boulevard in the City of Fort Myers; and,

**WHEREAS**, the May 22, 2001 Restated and Amended Agreement's main purpose was to extend the "East-West Corridor" from Santa Barbara Boulevard to Miracle Parkway in the City of Cape Coral, and from Surfside Boulevard in Cape Coral to Pine Island Road (known as Veteran's Memorial Parkway); and,

**WHEREAS**, the November 26, 2002 Second Amendment's main purpose was to widen Burnt Store Road from Pine Island Road (SR 78) to the Charlotte County line and provide technology and toll plaza upgrades to the Cape Coral Bridge and Midpoint Bridge Toll Facilities; and,

**WHEREAS**, the Parties seek to continue the cooperative effort through the financing, design, right-of-way acquisition, and construction of the PROJECT in a manner that fairly accomplishes the Parties' respective transportation goals and objectives; and

**WHEREAS**, the Parties seek to utilize the "Toll Revenues" and "Net Surplus Toll Revenues" as herein defined, to equitably distribute same, to meet future CITY and COUNTY transportation needs.

**NOW, THEREFORE**, in consideration of the above promises and other good and valuable consideration, the sufficiency of which is hereby acknowledged by the Parties, the CITY and COUNTY hereby agree to amend the Interlocal Agreement as follows:

1. The Recitals as set forth above are incorporated into the terms of this Agreement as if set out herein at length.
2. The Second Amendment to the Agreement is hereby amended as follows, with underlined language being the amendment to previously adopted text and deleted language being shown by ~~struck-through type~~ stricken text.

2.1 This Agreement shall remain in full force and effect through the Calendar Year ~~2020~~ 2030, and will be evaluated by the Parties hereto in Calendar Year ~~2007~~ 2029.

2.2 The Parties acknowledge and agree that certain PROJECTS and/or financing of PROJECTS will be funded through this Agreement. Those PROJECTS may include, but are not limited to:

- a. Replacement of the westbound span of the Cape Coral Bridge.
- b. Technology upgrades at the Cape Coral and Midpoint Memorial Bridges toll plazas.
- c. Burnt Store Road widening from Van Buren Parkway to the Charlotte County line.
- d. Congestion improvements at Veterans Parkway and Santa Barbara Boulevard.
- e. Congestion improvements at Colonial Boulevard and Summerlin Road.
- f. Congestion improvements at Cape Coral Bridge/College Parkway Overpass and McGregor Boulevard.

g. Veterans Parkway widening from Chiquita Boulevard to Skyline Boulevard.

2.3 The Parties may seek an alternate design concept for the replacement of the westbound span of the Cape Coral Bridge that may include a sidewalk/bike path/lighting. The COUNTY and CITY will review the design concepts and jointly determine the feasibility of the cost and whether joint funding is feasible or desired. If the Parties cannot agree on the feasibility and cost share of the sidewalk/bike path/lighting, that portion of the replacement will not go forward; however, the Parties will continue to pursue the replacement identified in 2.2.a. herein.

2.4 The COUNTY and CITY will coordinate planning efforts to determine whether another bridge across the Caloosahatchee River is warranted based on projected volumetrics and/or feasibility.

3. The remaining terms in the Interlocal Agreement dated March 22, 1995, the Amended and Restated Agreement dated March 22, 2001, and the Second Amendment to the Agreement attached hereto, remain the same.

IN WITNESS WHEREOF, the parties hereto have caused the execution hereby by their duly authorized officials on the date set forth above.

## LEE COUNTY/CITY OF CAPE CORAL EAST-WEST CORRIDOR INTERLOCAL AGREEMENT

This Interlocal Agreement is made and entered into this 22nd day of March, 1995, by and between LEE COUNTY, FLORIDA, a political subdivision of the State of Florida, (hereinafter "COUNTY") and the CITY OF CAPE CORAL, FLORIDA, a Florida municipal corporation located within Lee County; (hereinafter "CITY"), collectively, the "Parties" hereto.

WHEREAS, pursuant to the powers and authority granted the Parties under the constitution of the State of Florida and by statute, each has planned, separately and in cooperation with the other, an integrated road network; and,

WHEREAS, in a cooperative effort between the Parties to accomplish shared transportation objectives, certain interrelated capital transportation facilities known as the "Midpoint Bridge" (from Deleon Street in the City of Fort Myers to the Del Prado Interchange in the City of Cape Coral), the "East-West Corridor" (from the Del Prado Interchange to Santa Barbara Boulevard in the City of Cape Coral) and Colonial Boulevard from Deleon Street to Solomon Boulevard in the City of Fort Myers (collectively, the "PROJECT") have been planned; and,

WHEREAS, the cooperative effort of the Parties has included successful participation in the litigation and related expense to establish the authority of the Parties to plan and construct the PROJECT, as reflected in Lee County and The City of Cape Coral v. The City of Fort Myers, Case No. 88-5598-CA; and,

WHEREAS, the cooperative effort of the Parties has included shared expense of preliminary engineering and the preparation and approval through the public hearing process of the Environmental Impact Statements (E.I.S.) for the PROJECT; and,

WHEREAS, the Parties seek to continue the cooperative effort through the financing, design, right-of-way acquisition, and construction of the PROJECT in a manner that fairly accomplishes the Parties' respective transportation goals and objectives; and,

WHEREAS, the cooperative financing effort includes a proposal to utilize a share of the CITY'S debt capacity to fund the construction of a portion of the PROJECT; and,

WHEREAS, the Parties seek to utilize the "Toll Revenues" and "Net Surplus Toll Revenues" as herein defined, in order to mitigate the effect of the pledge of the CITY'S credit, and to equitably distribute same, so as to meet future CITY and COUNTY transportation needs.

NOW THEREFORE, in consideration of the mutual covenants and promises contained herein, the Parties agree as follows:

1. The Parties agree that the PROJECT shall be included within the Lee County Road System for the purposes of superintendence and control by the COUNTY as set forth in the "Florida Transportation Code" Chapter 334.01 et. seq., Florida Statutes, and for all other legal purposes.

2. The Parties acknowledge and agree that the COUNTY shall use all reasonable efforts to finance, design, construct and maintain the transportation facility

known as the "Midpoint Bridge" project. The "Midpoint Bridge" project herein referred to shall consist of construction of the toll funded multi-laned road and bridge from Deleon Street in the City of Fort Myers to Del Prado Boulevard in the City of Cape Coral. The Parties further acknowledge and agree that the COUNTY shall use all reasonable efforts to finance, design, construct, acquire right-of-way for and maintain the Del Prado Boulevard Interchange, which connects the "Midpoint Bridge" project with the "East-West Corridor".

3. a) The Parties agree that the CITY, with the COUNTY'S prior request, review and approval, will use its bonding capacity to finance part of the "East-West Corridor", west of the Del Prado Interchange to Santa Barbara Boulevard. COUNTY'S approval of said financing shall not be unreasonably withheld. Subsequent to the COUNTY'S issuance of its "Toll Bonds" for the PROJECT, the CITY agrees to issue Local Option Gas Tax Revenue Bonds sufficient to finance no more than \$18.6 million of COUNTY construction funds for the Del Prado Interchange to Santa Barbara Boulevard portion of the PROJECT and \$5.0 million, or such other amount as provided for below, for the financing of CITY transportation projects at its discretion. The application of interest earnings from the proceeds of the Gas Tax Bonds issued by the CITY will be determined by the distribution of the bond proceeds to the Parties. The Parties agree that at the time of the issuance of the CITY'S bonds, the CITY may withhold \$5.0 million, or such other amount as provided for below, from the proceeds of the CITY'S bond issue.

If the COUNTY finds and notifies the CITY that the estimated CITY Gas Tax

bonding needs for the development of the Del Prado Interchange to Santa Barbara portion of the PROJECT is less than currently anticipated, the CITY agrees to reduce the total amount of the bonded debt accordingly. To the extent that the COUNTY'S required construction proceeds from the CITY'S Gas Tax bond issue are less than \$16.0 million, there will be a corresponding proportional reduction in the amount of funds to be withheld by the CITY. For purposes of establishing the percentage reduction for the CITY'S withheld funds, the "Total Gas Tax Bond Issue" shall mean the COUNTY'S actual construction proceeds, plus \$5.0 million. The proportional reduction in the funds to be withheld by the CITY shall be as follows: 1) from \$16.0 million to \$13.4 million of COUNTY construction proceeds, 24% of the total Gas Tax bond issue will be withheld by the CITY, 2) from \$13.3 million to \$3.0 million of COUNTY construction proceeds, 21% of the total Gas Tax bond issue will be withheld by the CITY (See: Exhibit "A" attached hereto, for examples of distribution). Any such reduction in the amount bonded by the CITY shall not affect the CITY'S released dedication of certain Gas Tax proceeds as set forth in paragraph c), below.

b) The balance of the funds required to finance the East-West Corridor will be provided solely by the COUNTY. The CITY will pledge its share of the COUNTY'S Local Option Gas Tax revenues (Section 336.025(1), Florida Statutes) as set forth herein, pursuant to a bond resolution, and by this Agreement, the COUNTY will pay to the CITY on an annual basis with toll or any other lawfully available County revenue sources, a sum of funds equal to the CITY'S actual debt service on the CITY'S total bond issue for the term of said bonds. Other than as set forth in this section, the

COUNTY shall use all reasonable efforts to finance, design, construct, acquire right-of-way for, and maintain the PROJECT.

c) The Parties agree that upon execution of this Agreement, the 2% increase to the allocation for Fiscal Year 1994-95 Gas Tax proceeds and the 4% increase to the allocation for Fiscal Year 1995-96 Gas Tax proceeds designated for use on the East-West Corridor as outlined in the June 27, 1994, Addendum to Gas Tax Interlocal Agreement (Section 3) between the Parties, shall be released from the dedication requirement.

4. The Parties acknowledge that an extension of the "East-West Corridor" project west of Santa Barbara Boulevard to Miracle Parkway is a future additional, essential link in the PROJECT in order to establish a continuous facility from the eastern to the western limits of the CITY. The Parties agree that the COUNTY shall use all reasonable efforts to design that portion of the "East-West Corridor" from Santa Barbara Boulevard to connect with Miracle Parkway. The Parties agree that the CITY may, but is not required to, conduct advance right-of-way acquisition for the Santa Barbara Boulevard to Miracle Parkway portion of the PROJECT in order to expedite construction and to control cost. Unless otherwise agreed to by the CITY under official CITY action, the actual costs of the advance right-of-way cost (not including "internal" or "in-house" costs), shall be reimbursed to the CITY by the COUNTY at or prior to commencement of construction. Such reimbursement shall be conditioned upon COUNTY'S approval of CITY'S purchase price and costs for any property acquired by CITY prior to closing of each parcel. Such approval shall not be unreasonably withheld

by COUNTY. COUNTY agrees to construct this portion of the corridor when necessary, appropriate and financially feasible.

5. The Parties acknowledge that both the existing Cape Coral Bridge and the future Midpoint Bridge facility will produce certain toll revenues. The Parties further acknowledge that based upon revenue projections by the feasibility and financial consultants retained by the COUNTY, there may be at some point in time, "Net Surplus Toll Revenues" as herein defined, generated by the Cape Coral Bridge and Midpoint Bridge facilities.

For purposes of this Section 5, the terms used herein shall have the following meaning:

1. "Additional Obligations" shall mean indebtedness payable on a parity with the Outstanding Bonds, whether such indebtedness is initially issued on a parity basis or achieves parity status by accession as set forth in the Resolution.
2. "Bonds" shall mean the Outstanding Bonds and any Additional Obligations.
3. "Bridges" shall mean the Cape Coral Bridge and the Midpoint Bridge.
4. "Bridges Debt Service Requirement" shall mean the sum of (a) the product of the Debt Service Requirement for the Outstanding Bonds multiplied by the ratio derived by dividing the sum of the amount or proceeds of the Outstanding Bonds used to finance the Bridges and extensions and improvements thereto and any capitalized interest in connection therewith by the total proceeds of the Outstanding Bonds less the sum of (i) any accrued interest, (ii) all issuance costs including any bond insurance premium or other credit enhancement fees, and (iii) any deposit to the Reserve

Subaccount established pursuant to the Resolution, and (b) the product of the Debt Service Requirement for any outstanding Additional Obligations and Subordinated Indebtedness multiplied by the ratio derived by dividing the amount of proceeds of any such Additional Obligations and Subordinated Indebtedness used to finance improvements, modifications or extensions to the Bridges and any capitalized interest in connection therewith by the total proceeds of such Additional Obligations and Subordinated Indebtedness less the sum of (i) any accrued interest, (ii) all issuance costs including any bond insurance premium or other credit enhancement fees, and (iii) any deposit to the Reserve Subaccount established pursuant to the Resolution or to any reserve account for Subordinated Indebtedness.

5. "Debt Service Requirement" for any annual period shall mean the aggregate amount of (a) interest paid or to be paid on account of the Bonds or any Subordinated Indebtedness during such annual period, except to the extent that such interest is paid from the proceeds of such Bonds or Subordinated Indebtedness, (b) principal of the Bonds or Subordinated Indebtedness paid or to be paid during such period whether such payment is due to maturity or mandatory redemption, (c) any deposits to the Reserve Subaccount required by the Resolution, or to any reserve account for Subordinated Indebtedness, during such period, and (d) disbursements for the expenses, liabilities and compensation of any paying agent, registrar, credit bank or depository related to the Bonds or Subordinated Indebtedness during such period.

6. "Gross Revenues" shall have the meaning provided therefor in the Resolution.

7. "Net Revenues" shall mean Gross Revenues less Operating Expenses.

8. "Operating Expenses" shall have the meaning provided therefor in the Resolution.

9. "Outstanding Bonds" shall mean (a) the Lee County, Florida Transportation Facilities Revenue Bonds, Series 1987, (b) the Lee County, Florida Transportation Facilities Refunding Revenue Bonds, Series 1991, (c) the Lee County, Florida Transportation Facilities Refunding Revenue Bonds, Series 1993 & 1993A, and (d) the Lee County, Florida Transportation Facilities Revenue Bonds, Series 1995.

10. "Renewal and Replacement Costs" shall mean an amount equal to five percent (5%) of the Gross Revenues of the Bridges.

11. "Resolution" shall mean Resolution No. 86-4-12 of the COUNTY, as restated, amended and supplemented.

12. "Subordinated Indebtedness" shall mean indebtedness secured by Net Revenues on a basis junior and subordinate to the Bonds.

On each April 1, following the first September 30 subsequent to completion of the Midpoint Bridge, the COUNTY shall remit to the CITY from monies available in the Surplus Account established by the Resolution, forty percent (40%) of the Net Surplus Toll Revenues as defined herein derived from operation of the Bridges during the preceeding fiscal year (October 1 to September 30) prior to each payment date, along with an accounting for such payment. Such percentage may be reviewed and renegotiated by the Parties in good faith, each five (5) years following the execution of this Agreement.

For purposes of this Agreement, "Net Surplus Toll Revenues" shall mean Gross Revenues of the Bridges less (i) Operating Expenses of the Bridges, (ii) the Bridges Debt Service Requirement, (iii) the Renewal and Replacement Costs of the Bridges, (iv) any payments made by the COUNTY to reimburse the CITY for debt service pursuant to Section 3 hereof, (v) debt service payments made by the COUNTY with respect to its Capital and Transportation Facilities Refunding Revenue Bonds, Series 1993A , (vi) any debt service payments made by the COUNTY with respect to obligations it issues to pay for costs of the PROJECT other than the Bonds and the obligations of the COUNTY secured by a pledge of the COUNTY'S share of the gas tax levied by the COUNTY pursuant to Section 336.025(1), Florida Statutes, as described in the Interlocal Agreement between the Parties dated June 27, 1994 (Lee County Contract No. C-93-0835), and (vii) any other debt service payments on any of the outstanding bonds as defined in paragraph 9. above, if necessary.

"Net Surplus Toll Revenues" shall be calculated prior to any deduction of debt service payments by the COUNTY for bonded transportation projects other than the PROJECT, which for purposes of this provision, shall also include the proposed road improvements from Santa Barbara to the Burnt Store Road Extension in the City of Cape Coral.

"Net Surplus Toll Revenues" shall further be calculated after the allocations to the CIP as currently contained in the Lee County CIP for FY 95-99, and programmed for Fiscal Years 94-95, 95-96 and 96-97, have been deducted. For all years following Fiscal Year 96-97, "Net Surplus Toll Revenues" shall be calculated prior to any

allocations to the Lee County D.O.T. CIP. Funds paid to the CITY pursuant to this Agreement shall be used for any transportation purpose as authorized by applicable Florida Statutes.

It is expressly understood and agreed by the CITY that the obligation of the COUNTY to make payments to the CITY required by this Agreement is in all respects subject to the Resolution, and that such payments shall be made only from the Surplus Account established pursuant to the Resolution, to the extent monies are available therein for such purpose, and are junior and subordinate to all payments required by the Resolution.

Finally, except for the Gas Tax Bonds as contemplated by this Agreement and as issued by the CITY, nothing herein shall be construed or interpreted to create or constitute an obligation or responsibility of the CITY for any deficits in the revenues from the PROJECT.

6. The Burnt Store Road Extension consists of the continuation of Burnt Store Road south of State Road 78 to the East-West Corridor at Miracle Parkway. This Agreement shall not affect the existing Interlocal Agreement between the Parties pertaining to Burnt Store Road.

7. The Parties acknowledge that the CITY has made certain expenditures for matters in advance of construction of the Midpoint Bridge to assist the COUNTY. The CITY'S efforts include filling certain canals necessitated by the future construction, relocation of existing in-service sewer lines in the PROJECT path, and additional wastewater engineering services associated with the Midpoint Bridge project. The

COUNTY agrees to reimburse the CITY the total sum of \$200,000 for those expenditures, pursuant to invoices from the CITY with back-up documentation.

8. In the event any one or more of the provisions contained in this Agreement shall, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity or illegality or unenforceability shall not affect any other provision hereof, and this Agreement shall be constructed as if such invalid, illegal or unenforceable provision had never been contained herein.

9. This Agreement shall remain in full force and effect through the calendar year 2017, and will be evaluated by the Parties hereto in calendar year 2007, except that the Net Surplus Toll Revenue sharing formula as set forth herein shall remain in full force and effect as long as either or both the Cape Coral or Midpoint Bridges shall remain toll facilities. This Agreement shall be construed in accordance with the laws of the State of Florida.

10. If this Agreement is not adopted and executed by the City of Cape Coral within fourteen (14) days from the date of execution by Lee County, then this Agreement will automatically become void, and of no further force or effect.

11. This Agreement may be executed in counterparts, with each Agreement becoming a fully effective and binding document upon the Parties once both Parties have each executed this Interlocal Agreement by their duly authorized representatives.

IN WITNESS WHEREOF, the Parties have hereunto set their hands and seals  
the date and year first above written.

## AMENDED AND RESTATED LEE COUNTY / CITY OF CAPE CORAL EAST-WEST CORRIDOR INTERLOCAL AGREEMENT

This Amended and Restated Interlocal Agreement is made and entered into this 22<sup>nd</sup> day of May, 2001, by and between LEE COUNTY, FLORIDA, a political subdivision of the State of Florida, (hereinafter "COUNTY") and the CITY OF CAPE CORAL, FLORIDA, a Florida municipal corporation located within Lee County; (hereinafter "CITY"), collectively, the "Parties" hereto.

WHEREAS, pursuant to the powers and authority granted the Parties under the constitution of the State of Florida and by statute, each has planned, separately and in cooperation with the other, an integrated road network; and,

WHEREAS, in a cooperative effort between the Parties to accomplish shared transportation objectives, certain interrelated capital transportation facilities known as the "Midpoint Bridge" (from Deleon Street in the City of Fort Myers to the Del Prado Interchange in the City of Cape Coral, the "East-West Corridor" [now known as the "Veterans Memorial Parkway"] (from the Del Prado Interchange to Burnt Store Road in the City of Cape Coral) and Colonial Boulevard from Deleon Street to Solomon Boulevard in the City of Fort Myers (collectively, the "PROJECT") have been planned and are, or are being constructed; and,

WHEREAS, the cooperative effort of the Parties has included successful participation in the litigation and related expense to establish the authority of the Parties to plan and construct the PROJECT, as reflected in Lee County and The City of Cape

Coral v. The City of Fort Myers, Case No. 88-5598-CA; and,

WHEREAS, the cooperative effort of the Parties has included shared expense of preliminary engineering and the preparation and approval through the public hearing process of the Environmental Impact Statements (E.I.S.) for the PROJECT; and,

WHEREAS, the Parties seek to continue the cooperative effort through the financing, design, right-of-way acquisition, and construction of the PROJECT in a manner that fairly accomplishes the Parties' respective transportation goals and objectives; and,

WHEREAS, the cooperative financing effort includes a proposal to utilize a share of the CITY'S debt capacity to fund the construction of a portion of the PROJECT; and,

WHEREAS, the Parties seek to utilize the "Toll Revenues" and "Net Surplus Toll Revenues" as herein defined, in order to mitigate the effect of the pledge of the CITY'S credit, and to equitably distribute same, so as to meet future CITY and COUNTY transportation needs.

NOW THEREFORE, in consideration of the mutual covenants and promises contained herein, the Parties agree as follows:

1. The Parties agree that the PROJECT shall be included within the Lee County Road System for the purposes of superintendence and control by the COUNTY as set forth in the "Florida Transportation Code" Chapter 334.01 et. seq., Florida Statutes, and for all other legal purposes.

2. The Parties acknowledge and agree that the COUNTY shall use all reasonable efforts to finance, design, construct and maintain the transportation facility known as the "Midpoint Bridge" project. The "Midpoint Bridge" project herein referred to

shall consist of construction of the toll funded multi-laned road and bridge from DeLeon Street in the City of Fort Myers to Del Prado Boulevard in the City of Cape Coral. The Parties further acknowledge and agree that the COUNTY shall use all reasonable efforts to finance, design, construct, acquire right-of-way for and maintain the Del Prado Boulevard Interchange, which connects the "Midpoint Bridge" project with the "East-West Corridor".

3. The Parties acknowledge that an extension of the "East-West Corridor" project west of Santa Barbara Boulevard to Miracle Parkway is a future additional, essential link in the PROJECT in order to establish a continuous facility from the eastern to the western limits of the CITY. The Parties agree that the COUNTY shall use all reasonable efforts to design that portion of the "East-West Corridor" from Santa Barbara Boulevard to connect with Miracle Parkway. The Parties agree that the CITY may, but is not required to, conduct advance right-of-way acquisition for the Santa Barbara Boulevard to Miracle Parkway portion of the PROJECT in order to expedite construction and to control cost. Unless otherwise agreed to by the CITY under official CITY action, the actual costs of the advance right-of-way cost (not including "internal" or "in-house" costs), shall be reimbursed to the CITY by the COUNTY at or prior to commencement of construction. Such reimbursement shall be conditioned upon COUNTY'S approval of CITY'S purchase price and costs for any property acquired by CITY prior to closing of each parcel. Such approval shall not be unreasonably withheld by COUNTY. COUNTY agrees to construct this portion of the corridor when necessary, appropriate and financially feasible.

4. The Parties acknowledge that both the existing Cape Coral Bridge and the

future Midpoint Bridge facility will produce certain toll revenues. The Parties further acknowledge that based upon revenue projections by the feasibility and financial consultants retained by the COUNTY, there may be at some point in time, "Net Surplus Toll Revenues" as herein defined, generated by the Cape Coral Bridge and Midpoint Bridge facilities.

For purposes of this Section 4., the terms used herein shall have the following meaning:

1. "Additional Obligations" shall mean indebtedness payable on a parity with the Outstanding Bonds, whether such indebtedness is initially issued on a parity basis or achieves parity status by accession as set forth in the Resolution.
2. "Bonds" shall mean the Outstanding Bonds and any Additional Obligations.
3. "Bridges" shall mean the Cape Coral Bridge and the Midpoint Bridge.
4. "Bridges Debt Service Requirement" shall mean the sum of (a) the product of the Debt Service Requirement for the Outstanding Bonds multiplied by the ratio derived by dividing the sum of the amount or proceeds of the Outstanding Bonds used to finance the Bridges and extensions and improvements thereto and any capitalized interest in connection therewith by the total proceeds of the Outstanding Bonds less the sum of (i) any accrued interest, (ii) all issuance costs including any bond insurance premium or other credit enhancement fees, and (iii) any deposit to the Reserve Subaccount established pursuant to the Resolution, and (b) the product of the Debt Service Requirement for any outstanding Additional Obligations and Subordinated Indebtedness multiplied by the ratio derived by dividing the amount of proceeds of any such Additional Obligations and

Subordinated Indebtedness used to finance improvements, modifications or extensions to the Bridges and any capitalized interest in connection therewith by the total proceeds of such Additional Obligations and Subordinated Indebtedness less the sum of (i) any accrued interest, (ii) all issuance costs including any bond insurance premium or other credit enhancement fees, and (iii) any deposit to the Reserve Subaccount established pursuant to the Resolution or to any reserve account for Subordinated Indebtedness.

5. "Debt Service Requirement" for any annual period shall mean the aggregate amount of (a) interest paid or to be paid on account of the Bonds or any Subordinated Indebtedness during such annual period, except to the extent that such interest is paid from the proceeds of such Bonds or Subordinated Indebtedness, (b) principal of the Bonds or Subordinated Indebtedness paid or to be paid during such period whether such payment is due to maturity or mandatory redemption, (c) any deposits to the Reserve Subaccount required by the Resolution, or to any reserve account for Subordinated Indebtedness, during such period, and (d) disbursements for the expenses, liabilities and compensation of any paying agent, registrar, credit bank or depository related to the Bonds or Subordinated Indebtedness during such period.

6. "Gross Revenues" shall have the meaning provided therefor in the Resolution.

7. "Net Revenues" shall mean Gross Revenues less Operating Expenses.

8. "Operating Expenses" shall have the meaning provided therefor in the Resolution.

9. "Outstanding Bonds" shall mean (a) the Lee County, Florida Transportation

Facilities Revenue Bonds, Series 1987, (b) the Lee County, Florida Transportation Facilities Refunding Revenue Bonds, Series 1991, (c) the Lee County, Florida Transportation Facilities Refunding Revenue Bonds, Series 1993 & 1993A, and (d) the Lee County, Florida Transportation Facilities Revenue Bonds, Series 1995.

10. "Renewal and Replacement Costs" shall mean an amount equal to five percent (5%) of the Gross Revenue of the Bridges.

11. "Resolution" shall mean Resolution No. 86-4-12 of the COUNTY, as restated, amended and supplemented.

12. "Subordinated Indebtedness" shall mean indebtedness secured by Net Revenues on a basis junior and subordinate to the Bonds.

On each April 1, following the first September 30 subsequent to completion of the Midpoint Bridge, the COUNTY shall remit to the CITY from monies available in the Surplus Account established by the Resolution, forty percent (40%) of the Net Surplus Toll Revenues as defined herein derived from operation of the Bridges during the preceding fiscal year (October 1 to September 30) prior to each payment date, along with an accounting for such payment. Such percentage may be reviewed and renegotiated by the Parties in good faith, each five (5) years following the execution of this Agreement.

For purposes of this Agreement, "Net Surplus Toll Revenues" shall mean Gross Revenues of the Bridges less (i) Operating Expenses of the Bridges, (ii) the Bridges Debt Service Requirement, (iii) the Renewal and Replacement Costs of the Bridges pursuant to the Lee County Bond Covenants, (iv) any payments made by the COUNTY to reimburse the CITY for debt service pursuant to Section 3 hereof, (v) debt service payments made

by the COUNTY with respect to its Capital and Transportation Facilities Refunding Revenue Bonds, Series 1993A, (vi) any debt service payments made by the COUNTY with respect to obligations it issues to pay for costs of the PROJECT other than the Bonds and the obligations of the COUNTY secured by a pledge of the COUNTY'S share of the gas tax levied by the COUNTY pursuant to Section 336.025(1), Florida Statutes, as described in the Interlocal Agreement between the Parties dated June 27, 1994 (Lee County Contract No. C-93-0835), (vii) any repayment of the Toll Facilities Revolving Trust Fund (TFRTF) loan by the State of Florida for Veteran's Memorial Parkway between Santa Barbara Boulevard and Surfside Boulevard; (viii) any repayments to the commercial paper debt incurred for the construction of Veteran's Memorial Parkway between Santa Barbara Boulevard and Miracle Parkway; (ix) any project costs, including land acquisition, professional fees, permits and construction of Veteran's Memorial Parkway between Santa Barbara Boulevard and Surfside; (x) construction costs, including any monies advanced by COUNTY for construction of Veteran's Memorial Parkway, of that portion of road segment formally known as "Veteran's Memorial Parkway Extension", from Surfside Boulevard to approximately 800 feet north of Pine Island Road, including the intersection of Veteran's and Pine Island Road; State of Florida Infrastructure bank loans, or any other enhancement projects as mutually agreed to by both government entities, and (xi) any other debt service payments on any of the outstanding bonds as defined in subsection 9. above, if necessary.

"Net Surplus Toll Revenues" shall be calculated prior to any deduction of debt service payments by the COUNTY for bonded transportation projects other than the

PROJECT, which for purposes of this provision, shall also include the proposed road improvements from Santa Barbara to the Burnt Store Road Extension in the City of Cape Coral.

Funds paid to the CITY pursuant to this Agreement shall be used for any transportation purpose as authorized by applicable Florida Statutes.

It is expressly understood and agreed by the CITY that the obligation of the COUNTY to make payments to the CITY required by this Agreement is in all respects subject to the Resolution, and that such payments shall be made only from the Surplus Account established pursuant to the Resolution, to the extent monies are available therein for such purpose, and are junior and subordinate to all payments required by the Resolution.

Finally, except for the Gas Tax Bonds as contemplated by this Agreement and as issued by the CITY, nothing herein shall be construed or interpreted to create or constitute an obligation or responsibility of the CITY for any deficits in the revenues from the PROJECT.

5. The "Burnt Store Road Extension" of the Veteran's Memorial Parkway consists of the continuation of Burnt Store Road south of State Road 78 to the East-West Corridor at Surfside Boulevard. This Agreement shall not affect the existing Interlocal Agreement between the Parties pertaining to the Burnt Store Road Extension" of the Veteran's Memorial Parkway. Prior to the disbursement of any Net Surplus Toll Revenues, any costs for construction of the Veteran's Memorial Parkway Extension will be deducted as previously provided in Section Four, subparagraph five herein.

The CITY and the COUNTY acknowledge that the construction of the Veteran's Memorial Parkway Extension, consisting of Veteran's Memorial Parkway between Santa Barbara Boulevard and Surfside Boulevard, and Surfside Boulevard to approximately 800 feet north of Pine Island Road, including the intersection of Veteran's and Pine Island Road, will commence in Calendar Year 2001. The COUNTY will use all reasonable efforts to complete construction in Calendar Year 2002.

6. In the event any one or more of the provisions contained in this Agreement shall, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity or illegality or unenforceability shall not affect any other provision hereof, and this Agreement shall be constructed as if such invalid, illegal or unenforceable provision had never been contained herein.

7. This Agreement shall remain in full force and effect through the Calendar Year 2020, and will be evaluated by the Parties hereto in Calendar Year 2010, except that the Net Surplus Toll Revenue sharing formula as set forth herein shall remain in full force and effect as long as either or both the Cape Coral or Midpoint Bridges shall remain toll facilities. This Agreement shall be construed in accordance with the laws of the State of Florida.

8. This Agreement may be executed in counterparts, with each Agreement becoming a fully effective and binding document upon the Parties once both Parties have each executed this Interlocal Agreement by their duly authorized representatives.

IN WITNESS WHEREOF, the Parties have hereunto set their hands and seals the  
date and year first above written.

## **SECOND AMENDMENT TO THE LEE COUNTY/CITY OF CAPE CORAL EAST-WEST CORRIDOR INTERLOCAL AGREEMENT**

This Amendment to the Lee County/City of Cape Coral East-West Corridor Interlocal Agreement dated March 22, 1995 and Amended and Restated Lee County/City of Cape Coral East-West Corridor Interlocal Agreement dated May 22, 2001, is made and entered into this 26 day of November, 2002, by and between LEE COUNTY, a political subdivision of the State of Florida, hereinafter referred to as "COUNTY" and the CITY OF CAPE CORAL, a Florida municipal corporation located within Lee County, hereinafter referred to as "CITY", collectively, the "Parties".

**WHEREAS**, pursuant to the powers and authority granted the Parties under the constitution of the State of Florida and by statute, each has planned, separately and in cooperation with the other, an integrated road network; and

**WHEREAS**, in a cooperative effort between the Parties to accomplish shared transportation objectives, certain interrelated capital transportation facilities known as the "Midpoint Bridge (from DeLeon Street in the City of Fort Myers to the Del Prado Interchange in the City of Cape Coral, the "East-West Corridor" [now known as the "Veterans Memorial Parkway"]) from the Del Prado Interchange west to the County Line including Burnt Store Road from Pine Island Road north to the County Line and Colonial Boulevard from DeLeon Street to Solomon Boulevard in the City of Fort Myers) (collectively, the "PROJECT") have been planned and are, or are being constructed; and

**WHEREAS**, the CITY and COUNTY entered into an Interlocal Agreement regarding their respective duties and responsibilities for the PROJECT; and

**WHEREAS**, it is in the public's interest of both the CITY and the COUNTY to amend the Interlocal Agreement dated March 22, 1995 and Amended and Restated Lee County/City of Cape Coral East-West

Corridor Interlocal Agreement dated March 22, 2001, attached hereto as Exhibits "A" and "B" respectively.

**WHEREAS**, the cooperative effort of the Parties has included successful participation in the litigation and related expense to establish the authority of the Parties to plan and construct the PROJECT, as reflected in *Lee County and the City of Cape Coral v. the City of Fort Myers*, Case No. 88-598-CA; and,

**WHEREAS**, the cooperative effort of the Parties has included shared expense of preliminary engineering and the preparation and approval through the public hearing process of the Environmental Impact Statements (E.I.S.) for the PROJECT; and

**WHEREAS**, the Parties seek to continue the cooperative effort through the financing, design, right-of-way, acquisition, and construction of the PROJECT in a manner that fairly accomplishes the Parties' respective transportation goals and objectives; and

**WHEREAS**, the Parties seek to utilize the "Toll Revenues" and "Net Surplus Toll Revenues" as herein defined, to equitably distribute same, so as to meet future CITY and COUNTY transportation needs.

**NOW, THEREFORE**, in consideration of the above promises and other good and valuable consideration, the sufficiency of which is hereby acknowledged by the Parties, the CITY and COUNTY hereby agree to amend the Interlocal Agreement as follows:

1. The Recitals as set forth above are incorporated into the terms of this Agreement as if set out herein at length.
2. The Amended and Restated Agreement is hereby amended as follows, with underlined language being the amendment to previously adopted text and deleted language being shown by struck-through type.

On each April 1, following the first September 30 subsequent to completion of the Midpoint Bridge,

the COUNTY shall remit to the CITY from monies available in the Surplus Account established by the Resolution, forty percent (40%) of the Net Surplus Toll Revenues as defined herein derived from operation of the Bridges during the preceding fiscal year (October 1 to September 30) prior to each payment date, along with an accounting for such payment. Such percentage may be reviewed and renegotiated by the Parties in good faith, each five (5) years following the execution of this Agreement.

For purposes of this Agreement, "Net Surplus Toll Revenues" shall mean Gross Revenues of the Bridges less (i) Operating Expenses of the Bridges; (ii) the Bridges Debt Service Requirement; (iii) the Renewal and Replacement Costs of the Bridges pursuant to the Lee County Bond Covenants; (iv) any payments made by the COUNTY to reimburse the CITY for debt service pursuant to Section 3 hereof; (v) debt service payments made by the COUNTY with respect to its Capital and Transportation Facilities Refunding Revenue Bonds, Series 1993A; (vi) any debt service payments made by the COUNTY with respect to obligations it issues to pay for costs of the PROJECT other than the Bonds and the obligations of the COUNTY secured by a pledge of the COUNTY's share of the gas tax levied by the COUNTY pursuant to Section 336.025(1), Florida Statutes, as described in the Interlocal Agreement between the Parties dated June 27, 1994 (Lee County Contract No. C-93-0835); (vii) any repayment of the Toll Facilities Revolving Trust Fund (TFRTF) loan by the State of Florida for Veteran's Memorial Parkway between Santa Barbara and Surfside Boulevard; (viii) any repayments to the commercial paper debt incurred for the construction of Veteran's Memorial Parkway between Santa Barbara Boulevard and Miracle Parkway; (ix) any project costs, including land acquisition, professional fees, permits and construction of Veteran's Memorial Parkway between Santa Barbara Boulevard and Surfside; (x) construction costs, including any monies advanced by COUNTY for construction of "Veteran's Memorial Parkway Extension", from Surfside Boulevard to approximately 800 feet north of Pine Island Road,

including the intersection of Veteran's and Pine Island Road and project costs relating to Burnt Store Road from SR 78 (Pine Island Road) north to the County line; (xi) State of Florida Infrastructure bank loans, or any other enhancement projects as mutually agreed to by both government entities; and (xii) any other debt service payments on any of the outstanding bonds as defined in subsection 9. above, if necessary; (xiii) and the Cape Coral Toll Plaza Rehabilitation, and (xiv) technology relating to electronic toll collection for Cape Coral and Midpoint Toll Facilities.

3. The County will undertake a corridor study for this roadway from Burnt Store Road at the north county line to Colonial Boulevard's interchange with Interstate I-75. The County will also provide street lighting at Veterans Parkway intersection with State Road 78. Additional street lighting will be provided when warranted and consistent with the adopted County policy on street lighting. Also, the County will construct turn lane improvements at Ceitus Parkway.

43. All of the remaining terms in the Interlocal Agreement dated March 22, 1995 and the Amended and Restated Agreement dated March 22, 2001, attached hereto, remain the same.

IN WITNESS WHEREOF, the parties hereto have caused the execution hereby by their duly authorized officials on the date set forth above.

**SETTLEMENT AGREEMENT AND RELEASE OF CLAIMS  
BY AND BETWEEN THE CITY OF SANIBEL AND LEE COUNTY**

This Settlement Agreement and Release of Claims (the "Agreement") is entered into this the 1<sup>st</sup> day of March, 2005 by and between the City of Sanibel ("City") and Lee County, Florida ("County"), who stipulate as follows:

**RECITALS**

A. WHEREAS, the City and County are parties to an action in the Circuit Court in and for Lee County, Florida, Case No. 04-134-CA-H, the style of which is set forth above (the "Litigation") arising out of or relating to the Sanibel Island Bridge and Causeway (the "Causeway"); and

B. WHEREAS, the parties have determined that settlement of the Litigation is in the best interests of the residents and businesses of the City and the County and will serve to improve the working relationship between the City and County in general, and specifically with regard to the reduction of the current Sanibel Discount Program Fees and Tolls; and

C. WHEREAS, the City and the County have determined to settle all the claims existing between them in the Litigation in accordance with the terms of this Settlement Agreement; and.

D. WHEREAS, the City and County have been parties to an interlocal agreement pertaining to the Causeway for several decades, the most recent of which is entitled the "Amended and Restated Interlocal Agreement," dated June 11, 2002 (the "Interlocal Agreement"), a copy of which is appended hereto as Exhibit A; and

E. WHEREAS, rights and liabilities of the Parties hereto arising under interlocal agreements other than the Interlocal Agreement as defined hereinabove are not affected nor addressed in any way by this Agreement; and

F. WHEREAS, under Section 6 of the Interlocal Agreement, the parties agreed that the County shall remit to the City twenty-one percent (21%) of the Net Revenues, as that term is defined therein, derived from operation of the Causeway; and

G. WHEREAS, as the result of incurring construction and other costs associated with construction of a new Causeway, the County has increased the Tolls and Sanibel Discount Program Fees associated with use of the Causeway (the "Causeway Tolls," as more fully defined below); and

H. WHEREAS, as the result of incurring construction and other costs associated with the construction of the new Causeway, the County has prepared a "Transportation Facilities Financing Model – Sanibel Interlocal Agreement Rebate" ("Financing Model"), a copy of which is appended hereto as Exhibit B; and

I. WHEREAS, the County intends to issue permanent financing for the replacement of the Sanibel Bridges and Causeway in parity with the County's Series 2001A Transportation Facilities Refunding Bonds, as defined in the Interlocal Agreement, with the estimated debt service payments (acknowledged by the parties to be only estimated as of the date of this Agreement, and subject to change) reflected in the "Bonded Debt Service" column of Exhibit "B".

NOW, THEREFORE, in consideration of the covenants by and between the City and the County, as set forth herein, and the sufficiency of each such sum and covenant being hereby acknowledged by the parties, it is agreed:

#### **TERMS AND CONDITIONS OF AGREEMENT**

1. The parties acknowledge that the recitals set forth hereinabove are material, are true and correct, and are incorporated herein by reference.

2. Definitions

a. Causeway Tolls – The term "Causeway Tolls" includes the fee charged the motoring public for the vehicular use of the Sanibel Causeway, and for purposes of this Agreement, the term "Causeway Tolls" shall include the following defined terms:

- (i) "Sanibel Discount Program Fees", which shall include the cost of all Program Fees as described in Lee County Resolution No. 04-08-60, at Section One, Paragraph c., i, ii, iii and iv, and Paragraph e., i, ii, iii and iv, attached hereto as Exhibit C., on an annual, semi-annual or other basis as part of the Sanibel Discount Program, and the per trip charge applicable to such Sanibel Discount Program.
- (ii) "Toll" shall mean the cash fee paid by motorists other than those paying Sanibel Discount Program Fees.

b. Junior Lien or General Loan Fund – The term “Junior Lien or General Loan Fund” means County debt obligation(s) other than bonded debt, and is reflected in the fourth column, “Other Debt Service,” on Exhibit B. The County currently anticipates that this Junior Lien or General Loan Fund will be substantially retired in 2010 and completely retired by 2012.

c. Surplus Toll Revenues – For the purposes of this Agreement only, “Surplus Toll Revenues” shall mean the “Gross Revenues” less the principal “Causeway Debt Service Requirement”, “Additional Obligations”, “Operating Expenses”, “Renewal and Replacement Costs”, and “Subordinated Indebtedness” for the 2001A Transportation Refunding Revenue Bonds, as all such terms are defined in the Interlocal Agreement, except that the term “Transportation Facility” shall mean the Causeway as defined hereinabove.

3. The Parties to this Agreement hereby expressly covenant and agree, for themselves and all who might make claim by and through them, to discontinue and dismiss with prejudice all actions, claims, counterclaims, suits and proceedings, including the Litigation, which are now pending by and between them with respect to the Causeway and/or the Interlocal Agreement, upon full payment of the sum set forth in paragraph No. 4 below, and do further expressly covenant and agree not to institute, reinstate or prosecute any action, cause of action, claim, cross-claim, counterclaim, proceeding or suit among or between them, whether sounding in tort, in contract, or otherwise for any loss or damage suffered by them and all who might make claim through them on account of the Causeway and/or the Interlocal Agreement or any matters related thereto. Each Party shall utilize its best efforts to seek the approval of the Circuit Court for a Joint Stipulated Motion for Dismissal With Prejudice and “Order,” which is appended

hereto as Exhibit D. Each Party shall bear its own attorney's and expert fees, costs, and other expenses.

4. Lee County shall release to the City, the Surplus Toll Revenues which were otherwise due and payable to the City on November 1, 2004, in the sum of Two Hundred Two Thousand Seven Hundred Ninety-Four and 85/100 Dollars (\$202,794.85) within ten (10) business days after the final execution of this Agreement. The City agrees to use same solely for reducing the Sanibel Discount Program Fees consistent with the terms of Paragraph no. 5.a. below.

5. Effective for all Surplus Toll Revenues collected and otherwise available as of October 1, 2004, the City and the County agree to contribute One Hundred Percent (100%) of their respective shares of the Surplus Toll Revenues for the following purposes:

a. The City shall contribute its 21% pro rata share of the Surplus Toll Revenues to which it is entitled under the terms of the Interlocal Agreement for the sole purpose of reducing the Sanibel Discount Program Fees for the Causeway so long as the County contributes its 79% pro rata share as described in Paragraph 5.b below. Notwithstanding the foregoing, and to the extent that the Surplus Toll Revenues must be utilized to retire the Junior Lien Debt or General Fund Loan in order to reduce the Sanibel Discount Program Fees, then to such extent the City contributes the same percentage of its pro rata share as is contributed by the County, with the remainder of its share pledged to the reduction of the Sanibel Discount Program Fees as described above.

b. The County shall contribute the entirety of its 79% pro rata share of the Sanibel Surplus Toll Revenues to which it is entitled under the terms of the Interlocal Agreement for the sole purpose of reducing the Sanibel Bridges Replacement and Toll Facility Project with

associated Sanibel Discount Program Fees and Causeway Tolls, until such time as the Junior Lien Debt or General Fund Loan is paid in full.

6. With respect to the issuance of the County's permanent bonded financing for the Project, the Parties recognize and acknowledge that the market conditions existing at the time of the bond sale, including but not limited to the prime interest rate, the bond ratings established by independent agencies, the relative strength or weakness of the bond market, and other financial variables are all conditions which are beyond the control of the County and make it impossible for the County to definitively agree upon a specific amount of decrease in the Sanibel Discount Program Fees. Nevertheless, it is the County's intention to utilize its best efforts to reduce such fees by at least thirty percent (30%) if market conditions existing at the time of the bond sale can sustain such percentage. The timing of the reduction shall be predicated on the timing of the sale of the County's bonds.

7. The County agrees to utilize its best efforts to establish amounts and schedules which shall result in the substantial retirement of the Junior Lien Debt or General Loan Fund in 2010, with final retirement of the same in 2012. After initial establishment of the amount of the Junior Lien or General Loan Fund, no additional sums shall be added to this class of debt service.

8. Upon the full retirement of the Junior Lien Debt or General Loan Fund, the County shall employ at its expense a Traffic and Revenue consultant to review the toll structure to ensure there are sufficient revenues to comply with the existing bond covenants. Said consultant shall exercise due diligence in reviewing and certifying its review. Within one year of the completion of the consultant's review and certification, the County shall consider possible additional reductions in the toll structure and shall perform an assessment of the Surplus Toll

Revenues for each Party. Under no circumstances shall the Surplus Toll Revenues be disbursed to only one of the Parties to this Agreement. Upon any such distribution, the Surplus Toll Revenues shall be used by the Parties for any lawful transportation purpose, as may be authorized by then existing law. In 2009, the Parties shall meet and negotiate in good faith, certain amendments to the "Interlocal Agreement" as defined herein, in conjunction with revisions to that certain Sanibel/Lee County Local Option Gas Tax distribution Interlocal Agreement as entered into by the Parties on May 31, 1989.

9. Subject to applicable laws relating to public hearings and other requirements of the laws of the State of Florida, the Parties will utilize their best efforts to amend and restate the Interlocal Agreement to reflect the above terms and conditions, effectuating the purposes of the Interlocal Agreement to the extent they are not inconsistent herewith.

10. Unless this Agreement is materially breached by the County, the City agrees that it will not bring any action or cause of action against the County or any other entity, nor will it take any action, formal or informal, which would be intended to adversely affect the County's ability to obtain permanent financing, in the form of the issuance of bonds or otherwise, for the Sanibel Bridges Replacement and Toll Facility Project.

11. The Parties acknowledge and agree that dates, assumptions and estimated costs set forth hereinabove and in Exhibit B are expressly contingent upon the Causeway not being subjected to an intervening Act of God or other natural disaster which render the projected performance of either Party as set forth herein or in Exhibit B, commercially impracticable.

12. The City hereby releases and forever discharges the County and its employees, officers, commissioners, agents, attorneys, and successors of and from all claims, demands, and causes of action of any kind and nature, whether known or unknown, in law or in equity, arising

out of or related to the Interlocal Agreement, including but not limited to the claims asserted in the Litigation and any and all such additional claims as could have been asserted in the Litigation.

13. The County hereby releases and forever discharges the City and its employees, officers, councilmen and councilwomen, agents, attorneys, and successors of and from all claims, demands, and causes of action of any kind and nature, whether known or unknown, in law or in equity, arising out of or related to the Interlocal Agreement, including but not limited to the claims asserted in the Litigation and any and all such additional claims as could have been asserted in the Litigation.

14. It is understood and agreed that the making and execution of this Agreement by the Parties hereto and the exchange of consideration reflected herein is not intended to be and shall not be construed as an admission of liability on the part of anyone or any entity, but is made and exchanged in settlement of disputed claims for the reasons set forth in the recitals and to avoid the expense of continuing litigation by the governmental bodies herein.

15. Each Party represents that the individual whose signature appears below on its behalf has full power and authority to execute this Agreement on its behalf, and that such authority is derived by virtue of that individual's office.

16. The Parties represent that they have not sold, assigned, granted or transferred to any person, corporate or natural, any claim, action, demand or cause of action which is released by this Agreement.

17. This Agreement is the result of negotiations among and between the City and the County, and each has had the opportunity to modify the drafting of this Agreement. Each Party

acknowledges that neither it nor anyone acting on its behalf is relying upon any statement, representation or promise (other than those set forth herein) made by or on behalf of any other Party but that, in agreeing to the settlement and in executing this Agreement, it is relying solely upon the results of its own investigation and knowledge and those of its own attorneys, agents, and employees and in reliance upon legal advice of counsel of its own selection, and not upon the legal advice of any other Party or that Party's attorneys.

18. The Parties agree that this Agreement shall be interpreted and construed in accordance with Florida law.

19. The Parties acknowledge and agree that this Agreement may be executed in counterparts, and that it shall be binding in all respects upon and inure to the benefit of the Parties, their legal representatives, successors, and duly approved assigns.

20. In the event that an action is commenced to enforce or interpret this Agreement, the Court may award attorneys' fees, costs and litigation expenses to the prevailing Party.

21. This Agreement must be signed and the Joint Stipulated Motion for Dismissal With Prejudice and Order appended hereto as Exhibit D must be executed and filed on or before the close of business on March 1, 2005; otherwise this Agreement shall be void and of no force and effect.

**AMENDED AND RESTATED  
INTERLOCAL AGREEMENT**

THIS AMENDED AND RESTATED INTERLOCAL AGREEMENT is made and entered into on this 11th day of June, 2002, by and between Lee County, a political subdivision and charter county of the State of Florida (the "County"), and the City of Sanibel, a municipal corporation of the State of Florida (the "City"), collectively the "Parties" hereto.

**WITNESSETH:**

WHEREAS, the County currently owns and operates the Sanibel Bridge and Causeway; and,

WHEREAS, the County has heretofore enacted Lee County Ordinance No. 86-11 providing for the imposition of tolls on certain transportation facilities, including the Sanibel Bridge and Causeway, and authorizing the issuance of transportation facilities revenue bonds payable from the aggregate net revenues of such transportation facilities; and,

WHEREAS, the County has, pursuant to Ordinance No. 86-11, adopted Resolution No. 86-4-12, authorizing the issuance of Transportation Facilities Revenue Bonds, Series 1987, for the purpose of refunding the County's Sanibel Bridge Improvement Bonds dated June 1, 1979, and financing the construction of certain other Transportation Facilities; and,

WHEREAS, in connection with the County's issuance of the Sanibel Bridge Improvement Bonds dated June 1, 1979, the City and the County entered into an Interlocal

Agreement dated as of November 10, 1987; and,

WHEREAS, the Parties hereto have determined that it is in the best interests of the citizens of both the City and the County to amend and restate the prior 1987 Interlocal Agreement and to enter into this Interlocal Agreement in connection with the County's issuance of its Transportation Facilities Revenue Bonds pursuant to Ordinance No. 86-11, and Resolution No. 86-4-12 as it has been further amended.

NOW THEREFORE, in consideration of the mutual benefits to be derived from this Agreement, the Parties hereto covenant and agree as follows:

**Section 1. Definitions.**

When used in this Agreement, the following terms shall have the following meanings, unless the context clearly otherwise requires:

**"Additional Obligations"** shall mean indebtedness payable on a parity with the Series 1987 Bonds as they have been subsequently refunded, whether such indebtedness is initially issued on a parity basis or achieves parity status by accession as set forth in the applicable Resolution.

**"Agreement"** shall mean this Amended and Restated Interlocal Agreement.

**"Bonds"** shall mean the Series 1987 Bonds as they have been subsequently refunded, and any Additional Parity Obligations.

**"Causeway"** shall mean the Sanibel Bridge and Causeway extending McGregor Boulevard in Punta Rassa and Causeway Road on Sanibel Island.

**"Causeway Debt Service Requirement"** shall mean the sum of (a) the product of the Debt Service Requirement for the Series 1987 Bonds multiplied by the ratio derived by

dividing the sum of (i) the amount of proceeds of the Series 1987 Bonds required to refund the Series 1987 Bonds used to finance improvements, modifications or extensions to the Causeway and any capitalized interest in connection therewith by the total proceeds of the Series 1987 Bonds less the sum of (i) any accrued interest, (ii) all issuance costs including any bond insurance premium or other credit enhancement fees, and (iii) any deposit to the Reserve Subaccount established pursuant to the Resolution, and (b) the product of the Debt Service Requirement for any outstanding Additional Obligations and Subordinated Indebtedness multiplied by the ratio derived by dividing the amount of proceeds of any such Additional Obligations and Subordinated Indebtedness used to finance improvements, modifications or extensions to the Causeway and any capitalized interest in connection therewith by the total proceeds of such Additional Obligations and Subordinated Indebtedness less the sum of (i) any accrued interest, and (ii) all issuance costs including any bond insurance premium or other credit enhancement fees and (iii) any deposit to the Reserve Subaccount established pursuant to the Resolution or to any reserve account for Subordinated Indebtedness. The above shall apply to the 1987 Bonds as subsequently refunded by the Series 2001A Transportation Facilities Refunding Revenue Bonds.

"City" shall mean the City of Sanibel, a municipal corporation of the State of Florida.

"County" shall mean Lee County, a political subdivision and charter county of the State of Florida.

"Debt Service Requirement" for any semi-annual period shall mean the aggregate

amount of (a) interest paid or to be paid on account of the Bonds or any Subordinated Indebtedness during such semi-annual period, except to the extent that such interest is paid from the proceeds of such Bonds or Subordinated Indebtedness, (b) principal of outstanding Bonds or Subordinated Indebtedness paid or to be paid during such period whether such payment is due to maturity or mandatory redemption, (c) any deposits to the Reserve Subaccount required by the Resolution, or to any reserve account for Subordinated Indebtedness, during such period, and (d) disbursements for the expenses, liabilities and compensation of any paying agent, registrar, credit bank or depository related to the Bonds or Subordinated Indebtedness during such period.

**"Gross Revenues"** shall mean all income and monies received by the County from the rates, fees, tolls and other charges to be made and collected by the County from the operation and ownership of a Transportation Facility, or otherwise received by the County or accruing to the County in the ownership and operation of such Transportation Facility, calculated in accordance with generally accepted accounting principles employed in the operation of facilities similar to such Transportation Facility. "Gross Revenues" do not include the proceeds of any governmental grants received in connection with any Transportation Facility.

**"Operating Expenses"** shall mean the County's reasonable and necessary expenses for current operation, maintenance and repair with respect to a Transportation Facility and shall include, without limiting the generality of the foregoing, administration expenses, insurance and surety bond premiums, legal and engineering expenses, ordinary and current rentals of equipment or other property, refunds of monies lawfully due to

others, payments to pension, retirement, health and hospitalization funds, repayments of operating subsidies received by the County on account of such Transportation Facility, and any other expenses required to be paid for or with respect to proper operation, maintenance or repair of such Transportation Facility, all to the extent properly attributable to such Transportation Facility in accordance with generally accepted accounting principles employed in the operation of facilities similar to the Transportation Facility. "Operating Expenses" do not include any provision for interest, depreciation, amortization or similar charges.

"Ordinance" shall mean Lee County Ordinance No. 86-11, as the same may from time to time hereafter be amended and/or supplemented.

"Prior Agreement" shall mean the Interlocal Agreement dated as of November 10, 1987, entered into by the City and the County in connection with the County's issuance of its Series 1987 Bonds.

"Renewal and Replacement Costs" shall mean an amount equal to five percent (5%) of the Gross Revenues.

"Resolution" shall mean Resolution No. 86-4-12 of the County, including any amendments thereto, heretofore, or hereafter adopted by the County.

"Series 1979 Bonds" shall mean the County's Sanibel Bridge Improvement Bonds dated June 1, 1979.

"Series 1987 Bonds" shall mean the Transportation Facilities Revenue Bonds, Series 1987, issued by the County pursuant to the Resolution, for the purpose of refunding the Series 1979 Bonds, and to finance the construction of certain other Transportation

Facilities.

"Series 2001A Transportation Facilities Refunding Revenue Bonds" shall mean the Transportation Facilities Revenue Bonds issued by the County, pursuant to the Resolution for the purpose of refunding the Series 1987 Bonds among other related Transportation Bond Issues.

"Subordinated Indebtedness" shall mean indebtedness secured by Gross Revenues on a basis junior and subordinate to the Bonds.

"Transportation Facility" shall mean the Causeway or any other bridge or bridges, causeway or expressway which is acquired, constructed or improved with the proceeds of any series of Bonds.

The terms "herein", "hereunder", "hereby", "hereto", "hereof", and any similar terms, shall refer to this Agreement; the term "heretofore" shall mean before the date of execution of this Agreement; and the term "hereafter" shall mean after the date of execution of this Agreement.

Words importing the masculine gender include every other gender.

Words importing the singular number include the plural number, and vice versa.

**Section 2. Term of Agreement.**

This Agreement shall become effective upon its execution by the Parties hereto, and shall remain in effect for as long as any Parity Bonds remain outstanding under the Resolution.

**Section 3. Maintenance of Causeway.**

The County agrees that it will, at all times, maintain the Causeway in good repair

and in sound operating condition and will make all necessary repairs, renewals and replacements. To facilitate the foregoing, the County will have the Causeway inspected by an engineering firm on a biennial basis. The engineering firm will be required to submit a report setting forth its findings whether the Causeway has been maintained in good repair, working order and condition. The inspection and report on the Causeway's condition may be combined with other transportation facilities of the County.

**Section 4. Imposition of Causeway Tolls.**

The Parties recognize that the County is empowered to establish and impose tolls for use of the Causeway. Subject to the provisions of the Resolution, the County agrees that all such tolls shall be reasonable in amount and shall be classified in a reasonable way to cover all traffic, so that such tolls are uniform in application to all traffic falling within any reasonable classes.

**Section 5. Causeway Improvements.**

The Parties recognize that the County is presently proceeding to permit, design and construct certain improvements to the Transportation Facility for its entire length, which, if constructed, will develop the Transportation Facility as a two-lane roadway for traffic; one traffic lane for each direction, with two, associated, marked emergency breakdown lanes, one breakdown lane for each direction. The County will proceed in good faith to permit, design and construct the improved two-lane Transportation Facility with the two emergency breakdown lanes as described, retaining the existing Causeway Islands. The description for the two, associated, marked emergency breakdown lanes will not apply to Span A (the bascule bridge) of the Project.

The Parties agree that the County will proceed to seek all necessary and required permits for the proposed Transportation Facility pursuant to the terms and conditions of its Preliminary Design and Engineering ("PD&E") Report dated June 26, 2001, and that the City will not object to, nor interfere with, the County's pursuit of the said permits pursuant to the PD&E Study so long as the current Causeway configuration is maintained.

The Parties further acknowledge said planned Transportation Facility improvement process is an uncertain one as to end result and/or timing, although the County presently anticipates said road and bridge construction may commence approximately in Year 2004. The Parties recognize that the County and the City have been working and consulting together regarding the design of the projected improvements for a substantial period of time and in conjunction with a Study Group established by the City and the County for input on the design. Should the County be unable to reasonably obtain the permits for the projected improvements to the Transportation Facility and/or should circumstances arise beyond the lawful and reasonable control of the County in the permitting, design, or construction of the two-lane road with the two marked emergency breakdown lanes which would make such roadway improvements unfeasible, then this paragraph will be deemed null, void and of no further effect, and can be so declared by the County. The County will provide the City with ninety (90) days prior written notice of the County's proposed declaration of the nullification of this section and the basis for its decision. Then, in such event, the County will consult with the City concerning any alternative designs and applications for the construction of the improvements; such consultation to be non-binding in nature for both Parties.

**Section 6. Payments to the City.**

On October 30<sup>th</sup> and April 30<sup>th</sup>, the County shall remit to the City twenty-one percent (21%) of the Net Revenues derived from operation of the Causeway during the semiannual period ending thirty (30) days prior to each payment date. For purposes of this Agreement, Net Revenues shall mean Gross Revenues of the Causeway less (i) Operating Expenses of the Causeway, (ii) the Causeway Debt Service Requirement, and (iii) the Renewal and Replacement Costs of the Causeway. Commencing with the first full fiscal year following completion of the proposed improvements described in Section 5. hereof, the payment due April 30 of each year shall be adjusted, if necessary and if adequate funds are then on deposit in the Surplus Account, such that the total payment to the City in each fiscal year shall not be less than \$200,000.00. Funds paid to the City pursuant to this Agreement may be used for any lawful purpose of the City.

It is expressly understood and agreed by the City that the obligation of the County to make payments to the City required by this Agreement is in all respects subject to the Resolution and that such payments shall be made only from the Surplus Account established pursuant to the Resolution and are junior and subordinate to all payments required by the Resolution.

**Section 7. Tolls for Other Transportation Facilities.**

The County agrees to impose on the Transportation Facilities other than the Causeway, tolls that produce Gross Revenues at least sufficient in the aggregate to pay (i) the Debt Service Requirement less the Causeway Debt Service Requirement, (ii) the Operating Expenses of Transportation Facilities other than the Causeway, and (iii) the

Renewal and Replacement Costs of Transportation Facilities other than the Causeway.

Notwithstanding the foregoing, during the period in which interest allocable to the amount of Series 1987 Bond proceeds used to finance the acquisition and construction of a parallel span to the Cape Coral Bridge has been funded from proceeds of the Series 1987 Bonds, the County may, at its sole option, elect to fund the Operating Expenses and renewal and replacement costs of the Cape Coral Bridge from lawfully available funds of the County other than Gross Revenues of the Causeway, in lieu of imposing any toll thereon.

**Section 8. Series 1979 Renewal and Replacement Fund.**

Upon defeasance of the Series 1979 Bonds, the County shall remit to the City a sum equal to sixteen percent (16%) of the amount then on deposit in the renewal and replacement fund established in connection with issuance of the Series 1979 Bonds.

**Section 9. Books and Records.**

The County agrees to maintain books, records and accounts sufficient to determine compliance with Section 6. and Section 7. of this Agreement. The City shall have the right at all reasonable times to inspect such books, records and accounts.

**Section 10. Prior Agreement Amended.**

Upon the execution of this Agreement by the Parties hereto, the 1987 Agreement shall be duly amended by the terms of this Agreement.

**Section 11. Parties In Interest.**

This Agreement is made solely for the benefit of the County and the City and no other party or person shall acquire or have any right hereunder or by virtue hereof.

**Section 12. Counterparts.**

This Agreement may be executed in several counterparts, each of which shall be regarded as the original and all of which shall constitute one and the same Agreement.

**Section 13. Severability.**

If any one or more of the covenants, agreements or provisions of this Agreement shall be held contrary to any express provision of law or contrary to the policy of express law, though not expressly prohibited, or against public policy, or shall for any reason whatsoever be held invalid or unenforceable, then such covenants, agreements or provisions be null and void and shall be deemed separable from the remaining covenants, agreements or provisions of this Agreement and shall in no way affect the validity or enforceability of any of the other covenants, agreements or provisions hereof.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed this 11th day of June, 2002, for the purposes herein expressed.

## EXHIBIT "C"

## LEE COUNTY RESOLUTION NO. 04-08-60

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF LEE COUNTY, FLORIDA; AMENDING LEE COUNTY RESOLUTION NOS. 90-09-26, 90-09-27, 94-08-05, 96-12-105, 97-09-53, AND 01-06-58, RELATING TO THE CAPE CORAL, MIDPOINT MEMORIAL AND SANIBEL TOLL FACILITIES; MODIFY TOLL STRUCTURE; IMPOSING TOLLS ON THE SANIBEL BRIDGE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, on April 16, 1986, the Board of County Commissioners of Lee County, Florida (the "Board"), enacted Lee County Ordinance No. 86-11, providing for the imposition of tolls on certain bridges and causeways and for the issuance of revenue bonds payable therefrom; and,

WHEREAS, the Board has previously adopted Lee County Resolution Nos. 90-09-26, 90-09-27, 94-08-05, and 01-06-58, which established the toll rates and commuter discount programs for the Sanibel Bridges, Midpoint Memorial Bridge and the Cape Coral Bridge collectively, "The Bridges"; and,

WHEREAS, the Board, on December 18, 1996, adopted Lee County Resolution No. 96-12-105 which sets forth reduced rates for each one-way trip on the Cape Coral Bridge and the Midpoint Memorial Bridge during off-peak hours when using the Automatic Vehicle Identification System (AVI System) for the duration of the congestion pricing program; and,

WHEREAS, the existing Cape Coral Bridge and the new Midpoint Memorial Bridge were established to function in concert to serve a common transportation corridor between the east and west banks of the Caloosahatchee River (collectively, the "Corridor"); and,

S:\GS\RESOLUTION\04-08-60 AMENDING RESOLUTION - TOLL STRUCTURE.wpd

8-10-04

**COPY**

WHEREAS, on September 23, 1997, the Board adopted Lee County Resolution No. 97-09-53 extending the term for the use of decals for the discount program; and,

WHEREAS, the Board finds and determines that vehicle class, frequency of use and time-of-day of use are a reasonable bases basis for the classification of its tolls; and,

WHEREAS, the Board now finds it appropriate to further amend the Toll Facilities' Resolutions to better serve the public.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF LEE COUNTY, FLORIDA, that:

SECTION ONE:

Lee County Resolution Nos. 90-09-26, 90-09-27, 94-08-05, 96-12-105, 97-09-53 and 01-06-58 are hereby amended with language being added indicated by underlining and language being deleted indicated by ~~strike-through~~, as indicated below.

Imposition of Tolls. Commencing on November 1, 1997 2004, the following tolls shall be imposed for use of The Bridges.

a. Except as otherwise provided herein, a toll for each one-way trip on the Cape Coral and Midpoint Memorial Bridges shall be paid in accordance with the schedule set forth below:

<u>Vehicle Class</u>	<u>Toll</u>
Motorcycles	\$ .50
2 axles, 4 tires	1.00
2 axles, 6 tires	1.00
3 axles	2.00
4 axles	3.00
5 axles	4.00
6 or more axles	1.00 per axle

S:\GS\RESOLUTION\04-03-60 AMENDING RESOLUTION - TOLL STRUCTURE.wpd

b. The following commuter discount programs utilizing an AVI device will be available for 2-axle, 4-tire vehicles or 2-axle, 6-tire vehicles only:

i. An annual discount program utilizing an AVI device may be purchased at a cost of \$40.00 per vehicle or \$20.00 for the second, fourth, sixth, etc., non-commercial vehicle registered to or leased by the same natural person, which when properly installed will entitle such vehicle to use the Cape Coral and Midpoint Memorial Bridges for a period of twelve months commencing on November 1, upon payment of a \$0.50 toll to be deducted from a prepaid debit account for each one-way trip across the Bridges.

ii. A semi-annual discount program utilizing an AVI device may be purchased at a cost of \$24.00 per vehicle or \$12.00 for the second, fourth, sixth, etc., non-commercial vehicle registered to or leased by the same natural person, which when properly installed will entitle such vehicle to use the Cape Coral and Midpoint Memorial Bridges for a period of six months commencing on November 1, or May 1, upon payment of a \$0.50 toll to be deducted from a prepaid debit account for each one-way trip across the Bridges.

iii. An annual discount program utilizing an AVI device may be purchased at a cost of \$330.00 per vehicle or \$165.00 for the second, fourth, sixth, etc., non-commercial vehicle registered to or leased by the same natural person, which when properly installed will entitle such vehicle to use the Cape Coral and Midpoint Memorial Bridges for a period of twelve months commencing on November 1, without further payment. Prorated annual commuter programs will be sold per the following schedule:

<u>Validity Period</u>	<u>Price</u>	<u>Half-Price</u>
December 1 - October 31	\$309.00	\$155.00
January 1 - October 31	288.00	144.00
February 1 - October 31	267.00	134.00
March 1 - October 31	246.00	123.00
April 1 - October 31	222.00	111.00

iv. A semi-annual discount program utilizing an AVI device may be purchased at a cost of \$200.00 per vehicle or \$100.00 for the second, fourth, sixth, etc. non-commercial vehicle registered to or leased by the same natural person, which when properly installed will entitle such vehicle to use the Cape Coral and Midpoint Memorial Bridges for a period of six months commencing on November 1, or May 1, without further payment. Prorated semi-annual commuter programs will be available per the following schedule:

<u>Validity Period</u>	<u>Price</u>	<u>Half-Price</u>
December 1 - April 30	\$168.00	\$84.00
January 1 - April 30	136.00	68.00
February 1 - April 30	104.00	52.00
March 1 - April 30	72.00	36.00
June 1 - October 31	\$168.00	\$84.00
July 1 - October 31	136.00	68.00
August 1 - October 31	104.00	52.00
September 1 - October 31	72.00	36.00

c. Combination commuter discount programs utilizing an AVI device for use on the Cape Coral, Midpoint Memorial and Sanibel Toll Facilities will be available for 2-axle, 4-wheel vehicles or 2-axle, 6 wheel vehicles only:

i. Annual combination discount programs utilizing an AVI device may be purchased at a cost of ~~\$50.00~~ \$140.00 per vehicle of ~~\$25.00~~ \$70.00 for the second, fourth, sixth, etc., non-commercial vehicles registered to or leased by the same natural person, which when properly installed will entitle such vehicle to use the Cape Coral, Midpoint Memorial and Sanibel

S:\QSV\RESOLUTION\04-01-00 AMENDING RESOLUTION - TOLL STRUCTURE.wpd

Toll facilities for a period of twelve months commencing on November 1, upon the payment of a \$0.50 toll deducted from a prepaid debit account at the Cape Coral and Midpoint Memorial Bridges and a \$3.00 toll deducted from a prepaid debit account at the Sanibel Toll Facilities.

ii. Semi-annual combination discount programs utilizing an AVI device may be purchased at a cost of ~~\$50.00~~ \$99.00 per vehicle or ~~\$15.00~~ \$49.50 for the second, fourth, sixth, etc., non-commercial vehicles registered to or leased by the same natural person, which when properly installed will entitle such vehicle to use the Cape Coral, Midpoint Memorial and Sanibel Toll Facilities for a period of six months commencing on November 1 or May 1 upon payment of a \$0.50 toll deducted from a prepaid debit account at the Cape Coral and Midpoint Memorial Bridges and a \$3.00 toll deducted from a prepaid debit account at the Sanibel Toll Facilities.

iii. Annual combination discount programs utilizing an AVI device may be purchased at a cost of ~~\$585.00~~ \$930.00 per vehicle or ~~\$195.00~~ \$465.00 for the second, fourth, sixth, etc. non-commercial vehicle registered to or leased by the same natural person, which when properly installed, will entitle such vehicle to use the Cape Coral, Midpoint Memorial and the Sanibel Toll Facilities for a period of twelve months commencing on November 1, without further payment. Prorated annual combination commuter programs will be sold per the following schedule:

<u>Validity Period</u>	<u>Price</u>	<u>Half-Price</u>
December 1 - October 31	<del>\$355.00</del> <u>\$884.00</u>	<del>\$178.00</del> <u>\$442.00</u>

Motorcycles	\$ .50	\$ .25, upon availability
2 axles, 4 tires	\$1.00	\$ .50/.25 (applies to \$.25 coin drop pre-paid)
2 axles, 6 tires	\$1.00	\$ .50/.25 (applies to \$.25 coin drop pre-paid)
3 axles	\$2.00	\$1.00, upon availability
4 axles	\$3.00	\$1.50, upon availability
5 axles	\$4.00	\$2.00, upon availability
6 or more axles	\$1.00 per axle	\$ .50 per axle, upon availability

\*As defined and authorized by Paragraphs 1.b.i., 1.b.ii., 1.c.i. and 1.c.ii., above.

S:\CIVIL\RESOLUTION\04-08-00 AMENDING RESOLUTION - TOLL STRUCTURE.wpd

-B-

The above rates for off-peak discounted toll travel shall only be available to toll facility travelers who have established a pre-paid account and obtained an officially authorized automatic vehicle identification device. Accommodations for consumers desiring a single payment, annual or semi-annual, discount program, utilizing an AVI device free of a per-trip toll for either the Cape/Midpoint Corridor or with a combination of the Cape/Midpoint Corridor and Sanibel Bridges, shall be continued at the current pricing, but without any additional discounting.

Off-peak hours are currently defined as that time between 6:30 a.m. to 7:00 a.m.; 9:00 a.m. to 11:00 a.m.; 2:00 p.m. to 4:00 p.m.; and 6:30 to 7:00 p.m. Monday through Friday, excluding Memorial Day, Fourth of July, Labor Day, Thanksgiving, Christmas and New Year's Days. The Lee County Director of Public Works shall have the ability to modify the off-peak hours if deemed necessary, upon posting at the facilities of the changes in hours in accordance with §338.01, Florida Statutes. In the event the Fourth of July, Christmas or New Year's Day falls on a Saturday or Sunday, the week-day customarily given as a day off to county employees will be excluded from the definition of off-peak hours and no additional discount in accordance with this schedule will be given.

~~g. From November 1, 1997 should the transponders (AVI devices) not be substantially distributed and operational, any semi-annual and annual decal purchased after April 30, 1997 and October 31, 1996, respectively, will be honored at the toll facilities in Lee County for the various commuter discount programs as outlined in this Resolution, until such time that the transponders (AVI devices) be substantially distributed and operational.~~

~~Upon completion of distributing transponders to all persons taking part in the commuter discount programs, Lee County Division of Transportation will post notice at the facilities that the stickers will no longer be honored at the facilities.~~

SACSRESOLUTION04-08-60 AMENDING RESOLUTION - TOLL STRUCTURE.wpd

SECTION TWO:

This Resolution shall be implemented as of November 1, 2004, however, the effective date that the time-of-day variable tolls as specified in Section One (d) are put into effect at the Cape Coral and Midpoint Memorial Toll Facilities will be determined by the Lee County Division of Transportation, upon posting at the facilities of the change in accordance with Section 338.01, Florida Statutes.

The foregoing Resolution was offered by Commissioner Judah, who moved its adoption. The motion was seconded by Commissioner St. Cerny and, being put to a vote, the vote was as follows:

DOUGLAS ST. CERNY	<u>AYE</u>
BOB JANES	<u>AYE</u>
RAY JUDAH	<u>AYE</u>
ANDREW COY	<u>AYE</u>
JOHN E. ALBION	<u>AYE</u>

DULY PASSED AND ADOPTED this 10th day of August, 2004.
