**ELAB, INC.**  
**TERMS & CONDITIONS**

**I. SCOPE.** ELAB, Inc. (EL) agrees to perform the services (the "Services") requested by Client. Said Services may be described in a fee schedule, proposal, agreement, or other document, which shall be incorporated herein by reference and referred to as the "Proposal." Unless modified in writing by the parties hereto, the duties of EL shall not be construed to exceed those services specifically set forth in the Proposal. Nothing herein shall prevent EL from employing independent contractors or subcontractors in assisting with performance of the Services. Initiation of the Services shall constitute agreement and acceptance of the Proposal and these Terms and Conditions.

**II. COMPENSATION.** In consideration for the performance of the Services, Client agrees to pay for the Services in accordance with compensation provisions set forth by the Proposal and these Terms and Conditions. If not otherwise specified in the Proposal, compensation for laboratory analyses will be based on EL's then current published analytical fee schedule. Fees for Rush Analyses, Suspension, Termination, and additional storage or return of samples are discussed under Articles III, VI X, and XI herein.

Payment to EL shall be made within thirty (30) days after the date of billing. If Client objects to any portion of an invoice, it shall notify EL in writing within fifteen (15) days after receipt of said invoice and shall timely pay that portion of the invoice not in dispute. Past due invoices and any sums improperly withheld by Client shall accrue interest thereon at a rate of 1.5 percent per month or the maximum interest rate permitted by law, whichever is less. Such interest is due and payable when the overdue payment is made. Payments shall be applied first to any accrued interest.

In the event EL, as a nonparty, is required to respond to any subpoena, provide testimony or otherwise assist with litigation related to the Services, Client agrees to reimburse EL on a time-and-expenses basis, wherein time-related charges will be billed at employee's salary rate times an overhead factor of 3.5. Direct expenses will be billed at cost plus a 10 percent service charge.

**III. RUSH ANALYSES AND HOLDING TIMES.** A surcharge is normally added to the analytical cost if rush analysis is requested. The surcharge will depend upon the analysis to be performed. Rush analysis must be requested in writing and is offered contingent upon availability and prearrangement with EL's testing coordinator/Project Manager.

Client understands samples may become unusable if applicable holding times are exceeded and agrees EL shall not be responsible for expenses related to resampling or disposition of unusable samples, given EL was not negligent in exceeding said holding times.

**IV. HAZARD COMMUNICATION.** The Client shall inform EL of any hazardous characteristics known or suspected about any sample provided to EL by Client, its agent, employee, contractor or other representative prior to performance of the Services.

**V. DELIVERY OF SAMPLES.** Upon timely delivery of samples, EL will use reasonable efforts consistent with standard industry practice in meeting mutually agreed upon turnaround times. The Client shall be responsible for the proper shipment, delivery, preservation and chain-of-custody documents (including specifying analytical method) of any samples provided to EL.

The Client represents and warrants that any sample to be delivered to EL and known or suspected to contain any hazardous substance shall be labeled, packaged, manifested, transported, and delivered to EL in accordance with the then current state and federal regulations.

**VI. SAMPLE DISPOSITION.** All samples and portions thereof shall remain the property of Client at all times. Unless otherwise requested of EL in writing by the Client, EL will properly dispose of samples thirty (30) days after EL's analytical report is issued or other termination of the Services. If requested in writing by the Client prior to submission of the analytical report, EL can retain said samples longer than 30 days for an additional monthly storage charge based upon EL's then current fee schedule.

If Client requests in writing prior to submission of the analytical report, EL will retain unused samples or portions thereof for return to Client. EL, at its sole option, reserves the right to return samples or portions thereof to the Client if found or suspected to be hazardous according to state or federal guidelines, or charge the Client a disposal fee. If said samples contain hazardous substances, Client shall provide the method and choice of transporter and execute transport documents. Client agrees to pay for any and all costs associated with returning samples or portions thereof and further agrees to indemnify, defend and hold harmless EL for any allegations that EL is a transporter, arranger, generator, or disposer of said substances or samples.

**ELAB, INC. TERMS & CONDITIONS, continued**

**VII. WARRANTY AND LIABILITY.** Recognizing that the nature of many samples is unknown and that some may contain potentially hazardous components, EL warrants only that it will perform testing services, obtain findings, and prepare reports in accordance with generally acceptable analytical laboratory principles and practices. In recognition of the relative risks, rewards and benefits of the Services to both the Client and EL, the risks have been allocated such that the Client agrees, to the fullest extent permitted by law, that EL's aggregate liability to the Client for any and all injuries, claims, losses, expenses, damages or claim expenses arising out of the Services from any cause or causes, shall not exceed \$5,000. Such causes may include, but are not limited to, EL's negligence, errors, omissions, strict liability, breach of contract or breach of warranty.

The parties hereunder agree they shall not be liable to each other for special, incidental, exemplary, punitive or consequences damages.

The exclusive remedy of any breach of this warranty will be, at EL's discretion, a rerun of the sample or a similar sample or a refund of the analytical fee for the implicated sample(s). This warranty is in lieu of all other warranties expressed or implied.

**VIII. DISPUTE RESOLUTION.** Any claims or disputes between the EL and the Client, made either before, during or after the Services, shall be submitted to non-binding mediation within a reasonable time. Client and EL agree to require a similar mediation agreement of all contractors, subcontractors, subconsultants, suppliers, and fabricators, thereby providing for meditation as the primary method for dispute resolution between all parties.

**IX. INSURANCE.** EL will maintain in force during the performance of Services, Workers' Compensation and Employer's Liability insurance (in accordance with the laws of the states having jurisdiction over our employees who are engaged in the performance of the Services), Comprehensive General and Liability (limit of \$1,000,000 per occurrence), Comprehensive Automobile Liability, owned and hired, (limit of \$1,000,000 for bodily injury and Professional Liability insurance (limit of \$1,000,000 per occurrence).

**X. DELAYS AND SUSPENSION.** Client may suspend all or a portion of the Services with 24 hours verbal notice to be confirmed in writing with proof of delivery. EL may suspend the Services by notifying Client of circumstances that are interfering with the normal progress of Services. EL may suspend the Services in the event the Client does not pay invoices when due. In the event of suspension, Client shall pay for costs incurred to the date of suspension in accordance with Article II.

In the event of termination, EL shall be compensated for Services actually performed prior to the effective date of termination plus any costs incurred by EL for the orderly termination of the Services.

**XII. APPLICABLE LAW.** The Services, Proposal and these Terms and Conditions shall be governed by and construed according to the laws of the State of Florida. Venue for any legal action hereunder shall be in the county where EL is officed.

**XIII. INVALIDITY.** In the event a provision herein shall for any reason be held invalid, illegal or unenforceable in any respect, such finding shall not affect the enforceability of any other provision herein.

**XIV. NONWAIVER AND COUNTERPARTS.** Failure or delay in exercising any right, power, or remedy herein shall not impair any right, power or remedy which any party hereto may have, nor shall any such failure or delay be construed to be a waiver of any such right, power or remedy or an acquiescence in any breach or default hereunder absent an express, written waiver or acquiescence, nor shall any waiver of any breach or default be deemed a waiver of any default or breach subsequently occurring. All documents related to the Services (including change orders) may be executed via facsimile or by transmitting originals; any number of executed counterparts constitute one and the same instrument.

**XV. ENTIRE AGREEMENT.** These Terms and Conditions and the Proposal (as defined hereunder) represent the entire understanding of Client and EL as to those matters contained herein. No prior oral or written understanding shall be of any force or effect with respect to those matters covered herein.

**XVI. AMENDMENTS.** The Proposal "ELAB, INC. ANALYTICAL SERVICE COST PROPOSAL" or "ELAB, INC. Terms and Conditions" herein may not be modified except in writing signed by both parties.

**Comment:**

Formation Potential Setup without Chlorination - For Chlorinated samples: It will not be necessary to complete the extensive chlorination process outlined in the method. It is only necessary to test chlorine residual at beginning and end of incubation period. This charge need only be administered once when both 502.2 and 552.2 are requested. Only need vials.

**Cell: A58**

**Comment:**

Formation Potential Setup with Chlorination - For non-chlorinated samples: When formation potential for both total THMs and HAAs are requested it is not necessary to charge for the chlorination step twice. The chlorination step will be done at one time, incubated, then aliquots will be split out for analyses of THM and HAA. Need 1LG bottles.

**Cell: A65**

**Comment:**

HAA FP Background Analysis (for HAA5) - Sometimes this is useful for pilot studies. It will tell if there are any HAAs present in the initial water before any treatment.

THM FP Background Analysis (for THMs) - Sometimes this is useful for pilot studies. It will tell if there are any THMs present in the initial water before any treatment.
