Date: October 2002

PLANTATION/PALMETTO CORRIDOR

Public Information Workshop Memorandum

The Metropolitan Planning Organization (MPO) and the Lee County Department of Transportation (DOT) held a public information workshop on September 26, 2002 at the Celebration Family Church, 12400 Plantation Road, Fort Myers, Florida. The purpose of the meeting was to present the results of the MPO traffic modeling generated for the Plantation/Palmetto Extension and other roadway facilities in proximity to Plantation Road and Palmetto Avenue. The traffic modeling was conducted as a result of the Lee County Department of Transportation public involvement process for the Alternative Alignment Study for the Plantation Road extension from Idlewild to Abbott Street.

The Lee County MPO is made up of the Florida Department of Transportation (FDOT), Lee County and all incorporated cities within the county. The Lee County Metropolitan Planning Organization is responsible for conducting a continuing, cooperative, and comprehensive transportation planning process for all of Lee County. In order for projects to be eligible for federal funds, the federal law requires that the MPO endorse a transportation improvement program and set priorities identifying projects to be completed over the next five, ten and twenty years. The MPO provides the public with complete information, timely public notice, and full public access to decisions and documents. It supports early and continuing public involvement in the development and review of its transportation plans and programs. The MPO provides a formal public hearing process for the adoption of transportation plans to allow the public to provide their input to the MPO Board members.

The Lee County Department of Transportation (DOT) is responsible for implementing the County roadway projects that are shown on the MPO's adopted 2010 and 2020 Long Range Transportation plans. The Lee DOT has an in depth, comprehensive public involvement process and makes it a practice to hold public meetings on all new roadway alignments and major roadway improvement projects. These public meetings are held to inform and solicit input from the public regarding the specific project being presented. The Plantation to Palmetto Extension and the four-laning was originally adopted by the MPO on the 2020 Long Range Transportation Plan in January of 1999. The Lee County Department of Transportation held a public information workshop on May 23, 2002 at the Life Church in Fort Myers to gather public opinion regarding the three alternative alignments developed for the extension of Plantation Road from Idlewild Street to Abbott Street. This project is Phase I of the implementation of the extension of Plantation Road to Palmetto Avenue. The four-laning has not been programmed. The main goal of the public workshop was to determine what alternative the public preferred. A total of 118 people attended the meeting and approximately half of the attendees objected to the Plantation/Palmetto Extension project and the future four-laning of Plantation Road.

Based on recent traffic model runs presented by the MPO staff, the Technical Advisory Committee (TAC) and Citizens Advisory Committee (CAC) at the June 21, 2002 MPO meeting recommended placing the Plantation/Palmetto Extension on the 2010 Long Range Transportation Plan. Due to objections from the public the MPO temporarily withdrew the project from the 2020 plan until the public was allowed to provide input on the entire extension and widening project from Six-Mile Cypress Parkway to Colonial Boulevard. The Plantation/Palmetto Extension Public Information Workshop was held to present the results of the MPO's traffic modeling as requested by the public and to solicit public input regarding the modeling results and the future proposed improvements to Plantation Road.

Requests from the public (generated as a result of the public workshop) led to the model runs consisting of the following roadway network configurations:

- Alternative A (2020 Long Range Plan adopted February 2002)
Plantation Road = 4 lanes with a connection to Colonial Blvd.
Six Mile Cypress Pkwy. = 4 lanes
Metro Pkwy. = 4 lanes
- Alternative B (No Project)
Plantation Road = 2 lanes with no connection to Colonial Blvd.
Six Mile Cypress Pkwy. = 6 lanes
Metro Pkwy. = 6 lanes
- Alternative C
Plantation Road = 2 lanes with a connection to Colonial Blvd.
Six Mile Cypress Pkwy. = 6 lanes
Metro Pkwy. = 6 lanes

The Plantation/Palmetto Corridor public workshop was advertised in the September 19, 2002 edition of the News-Press as a ¼ page display ad. Letters announcing the public workshop were mailed on September 16, 2002 to persons owning property lying within 300' of the right-of-way along Plantation Road and it's proposed extension, from Six Mile Cypress Parkway to Colonial Boulevard. In addition, a brochure about the Lee County MPO and their planning process was included with the meeting notification. The Lee County Department of Public Resources transmitted a press release to local media on September 19, 2002. Two variable message boards were placed within the project limits for a period of one week prior to the workshop to inform the traveling public. Copies of the notification for the workshop, mailing list and MPO Brochure are attached in Appendix A. In addition, two newspaper articles were published in the News Press concerning the project and are also provided in Appendix A.

The meeting format consisted of a slide show presentation and four stations that contained graphical representations of the project material with MPO and county representatives present to explain the project data and answer questions. The meeting was held from 6-8 pm, which allowed the public to attend and view the materials anytime between those hours. The slide presentation was approximately 15 minutes long and ran continuously throughout the two-hour period. A project hand-out that summarized the history of Plantation Road, the MPO planning process for the extension and the modeling efforts was provided to the public at the registration table. Copies of the slide show presentation and project hand-out are provided in Appendix B. A total of 257 people signed in at the registration table. Copies of the sign-in-sheets are attached as Appendix C.

During the meeting several neighborhood associations were gathered outside the entrance to the church. They identified themselves with placards that included the name of their neighborhood association. As persons arrived the neighborhood association representative would offer their opinion regarding the future improvements to Plantation Road and persons were offered cards which asked them to choose Alternative B (No Project) and ask several pre-drafted questions to the DOT representatives inside. The associations were against any proposed improvements to Plantation Road. A copy of the "Choose Alternative B" card is included in Appendix D. This activity is being documented in the Public Workshop Technical Memorandum at the request of a member of the public who supported the Plantation/Palmetto Extension and felt that this activity was unfair to members of the public who had not yet made a decision on the proposed extension or widening.

Appendix D also contains a copy of a petition that was submitted to the County Commission that was signed by 561 persons which states "We the citizens and homeowners from the neighborhoods contiguous to Plantation Road, due hereby petition Commissioners of Lee County, Florida not to extend Plantation Road. The construction of the proposed extension will forever damage the character, tranquility and safety of our collective neighborhoods."

The public was provided with comment forms in order to have their opinion recorded as public record. A total of 175 comment forms were received from the meeting and during the two-week comment period following the meeting. Comments that were received at the public workshop verbally, in writing and during the two-week comment period are summarized below. If two people signed a comment form, their opinion was counted individually. Copies of the comment forms are attached as Appendix D.

Against Plantation/Palmetto Extension and widening – 159

Favor Plantation/Palmetto Extension and widening – 30

Requests for information or other – 5

Comment: Please widen Metro Parkway and Six-Mile Cypress Parkway. Suggest looking at eight lanes for Six-Mile Cypress Parkway and/or eight lanes for Metro Parkway.

Response: The model does not indicate a traffic demand for Six-Mile Cypress Parkway that would warrant eight lanes. There are several reasons why eight laning Metro Parkway and Six Mile Cypress Parkway would be inappropriate. One reason is safety concerns—it is almost impossible for a pedestrian or a bicyclist to cross an eight lane roadway. The second is performance. Once an arterial with cross streets becomes eight lanes, weaving traffic tends to impact the ability for volumes to get through intersections and weaving traffic might increase safety concerns for vehicular traffic. There might also be right of way issues related to widening Metro Pkwy by more than six lanes. Even with the six-laning of both of these roads the model predicts that without the improvements to Plantation the level-of-service on Metro Parkway will be LOS F by 2020, which is unacceptable. Currently the extension of Plantation Road to Palmetto at Colonial is scheduled before the six laning of Metro Parkway from Daniels to Winkler. The widening of Plantation Road to 4 lanes from Idlewild to Colonial would probably occur at about the same time as the six laning of Metro Parkway. Metro Parkway is not being widened first because the cost to six lane Metro Parkway is substantially more and has not been funded by the FDOT.

Comment: Six lane Six-Mile Cypress Parkway with overpass at Colonial, Daniels, US 41, - send traffic around on beltway even into southwest Cape Coral

Comment: Six lane Six-Mile Cypress Parkway from Palm Beach Blvd to US 41 gives you a corridor that goes somewhere.

Comment: The MPO is just making a guess about future traffic on Plantation, Metro, and Six-Mile Cypress Parkway.

Response: MPO's transportation planning process currently predicts that the north-south travel demand in the vicinity of Metro Parkway and Plantation Road can only be met by the six-laning of Metro Parkway and the extension and four-laning for Plantation Road. The travel demand cannot be met by six-laning Six-Mile Cypress Parkway as this roadway system does not provide access to the areas that generate the demand.

Comment: By not four laning Plantation traffic will be forced to use Six-Mile Cypress Parkway.

Comment: Already difficult to get on Plantation from Brookshire

Response: As north-south traffic demand continues to grow, it will be increasingly more difficult to travel Plantation Road. Six-Mile Cypress Parkway does not provide access to the areas in central Fort Myers that the model predicts is needed.

Comment: You need to concentrate on I-75. Why aren't you ten laning I-75?

Response: Construction is programmed for 2007/2008 for the six laning of I-75 from Daniels Parkway south to the County line. However the ten laning determined to be necessary by 2030 is not funded.

Comment: Four lane McGregor

Response: The four laning of McGregor Boulevard is cost prohibitive due to right-of-way costs. In addition, the travel demand in the Plantation/Metro Parkway area could not be satisfied by the four laning of McGregor Boulevard. McGregor is constrained because of right-of-way and the royal palms are protected by State law.

Comment: A better alternative would be to hook-up the Palmetto Extension east-west to Airport Road.

Comment: Maybe Palmetto could turn east off Colonial meet up with Six-Mile Cypress Parkway

Response: An east-west connection would not satisfy the north-south travel demand. Also a connection to Airport Road would conflict with the Page Field runway protection zone.

Comment: It will decrease value of property

Response: No detrimental effects to market values have been recorded on the majority of Lee County DOT completed projects. In several instances property values have increased after project completion.

Comment: Want sound barriers of some kind

Response: Lee County does not build noise walls since they must typically be 14 feet or higher to make any appreciable reduction in noise. At these heights, they are cost prohibitive and create a number of problems on their own.

Comment: Recommend traffic light at Crystal and Idlewild intersections

Comment: Will there be a light at Idlewild and Plantation?

If the project is constructed, traffic signals will be evaluated in the design phase of the project and constructed where warranted.

Comment: If Plantation is four lanes it creates more traffic, speeding, accidents, truck traffic and not safe for children

Comment: You speak only of LOS for traffic nothing about on existing neighborhoods

Comment: If you build the Extension make sure you address noise, left turns, and child safety with ample bus stops

Response: If Plantation is four laned, sidewalks will be constructed on at least one side of the road. Landscaped medians, which improve traffic safety, would also be constructed. The speed limit would remain the same. Bus stops for children are established by the Lee County Schools Transportation Division and would be adjusted to provide maximum safety for children.

Comment: Plantation was not designed to be four nor six lanes

Comment: Some areas do not have enough easement and land to widen Plantation

Response: If Plantation is widened to four lanes (as shown on the 2020 Long Range Plan adopted in February 2002), the County would acquire right-of-way needed to construct the road.

Comment: Extending Plantation would bring in crime

Comment: The County should stick with land use plans instead of zoning changes to people with money. It is time the county placed its' citizens ahead of developers

Comment: Allowing Plantation to be widened will bring big new apartment projects and other commercial/residential development

Response: These comments are not germane to the need for the project. The need for the project is based on the adopted land use plan and the area wide growth projections.

Comment: Block off access to Plantation Road for industrial business. Commercial traffic already unbearable and uncontrollable

Response: This would exacerbate the traffic problems on Metro Parkway. Plantation is currently signed for "No through trucks".

Comment: We should join together to hire an attorney to help find another route

Response: Other routes have been evaluated over the past ten years. Due to environmental and socioeconomic impacts, Plantation four laning and extension to Palmetto was determined to be the alternative that would least impact the surrounding areas.

Comment: Please keep Plantation a residential area and leave alone

Response: Plantation Road is not strictly a residential area from a land use perspective. Land uses also include industrial and commercial uses.

Comment: If you need to four lane Plantation to Colonial don't put Extension thru to Hanson

The Palmetto Extension from Colonial to Palm Beach Boulevard is being designed and constructed by the City of Fort Myers with funding from a State of Florida TOPS Grant. This project has also been identified as a needed project.

Comment: The development process should be required to inform any potential homeowner of possible extension

Comment: How will our comments count? Or when will our comments count?

Comment: We would like a town hall meeting with the commissioner and the planning council

Comment: Other neighborhoods (Oakbrook and Highland Pines) were given the "option" before we were – very unfair.

Response: The "other neighborhoods" used the MPO's public involvement process to voice their concerns about having an alignment bifurcate their subdivisions. The MPO public involvement process did not exclude property owners in the vicinity of Plantation from being involved in this process in 1995 when the other neighborhoods requested the Highlands route be abandoned. All comments are being transmitted to the MPO and will be taken into consideration by the MPO at the November 22, 2002 Public Hearing on this project. The MPO Public Hearing will allow property owners to voice their opinions to the County Commissioners and the other MPO representatives.

Comment: Rezone conservation area rather than disturb homes.

The conservation area cannot be used for a roadway alignment. Through the transportation planning and public involvement process this alignment was eliminated from further consideration in 1998 due to environmental and socioeconomic impacts.

Comment: Why does the County want to connect Plantation Road to Colonial Boulevard?

Response: The model used for predicting traffic conditions shows a need for additional north-south capacity based on traffic volumes predicted for the year 2010. The connection to Colonial will establish a corridor that runs continuously from SR 80 (Palm Beach Boulevard) to Six Mile Cypress Parkway.

Comment: When is the extension to Colonial expected to be constructed?

Response: If the MPO puts the project back on the 2020 plan then the construction of at least the 2 lane extension is funded for the fiscal year 2006.

Comment: If the extension goes through as planned will any of the existing neighborhood streets in Oak Brook be connected to the new facility?

Response: No connections are proposed to be established as a part of this project.

Comment: What is the status of the portion of the road from Abbott Street to Colonial?

Response: The County has budgeted for the design for this portion of the road in Fiscal year 2004/05 and two lane construction in Fiscal year 2005/06. Originally, it was expected that private development would build this portion of the road. At this time, it is uncertain how it will happen. However, the County likely cannot obtain a permit for the extension unless it includes the connection to Colonial.

Comment: Request a study be done to close off Garland at Deer Run Farms Road

Response: Deer Runs Farms Road is a private road and Garland is a public non-County maintained road. The Oak Brook residents could petition the County to vacate the Garland Road right-of-way and close the road.

Comment: Please make Idlewild/Ranchette/Highland a three way stop.

Response: This request has been forwarded to the Lee County Traffic Operations Division

The attached Appendices contain all documentation received and generated for and by the public involvement process as of October 29, 2002. However, additional public input is accepted at any time after the date of this technical memorandum.

"OPEN HOUSE" PUBLIC WORKSHOP PLANTATION/PALMETTO CORRIDOR

Dear Property Owner:

The Lee County Department of Transportation (DOT) would like to invite you to an "Open House" for the Plantation/Palmetto corridor. The "Open House" is being held to provide interested persons the opportunity to view historical and current data about the Plantation/Palmetto corridor. The "Open House" will be held on Thursday, September 26, 2002 from 6-8 p.m. at the Celebration Family Church. The church is located at 12400 Plantation Road, Fort Myers, Florida. **The workshop will be conducted in an "open house" format; no formal presentation will be given. You may attend the workshop anytime from 6 - 8 p.m.**

Informational displays about the Plantation/Palmetto corridor will be available for viewing along with a short slide show that will outline the history of the development of Plantation Road, the connection to Palmetto Avenue Extension and present traffic model alternatives that were requested by the public. Representatives from Lee County will be on hand for informal discussions and to answer questions. County Commissioners may also be in attendance.

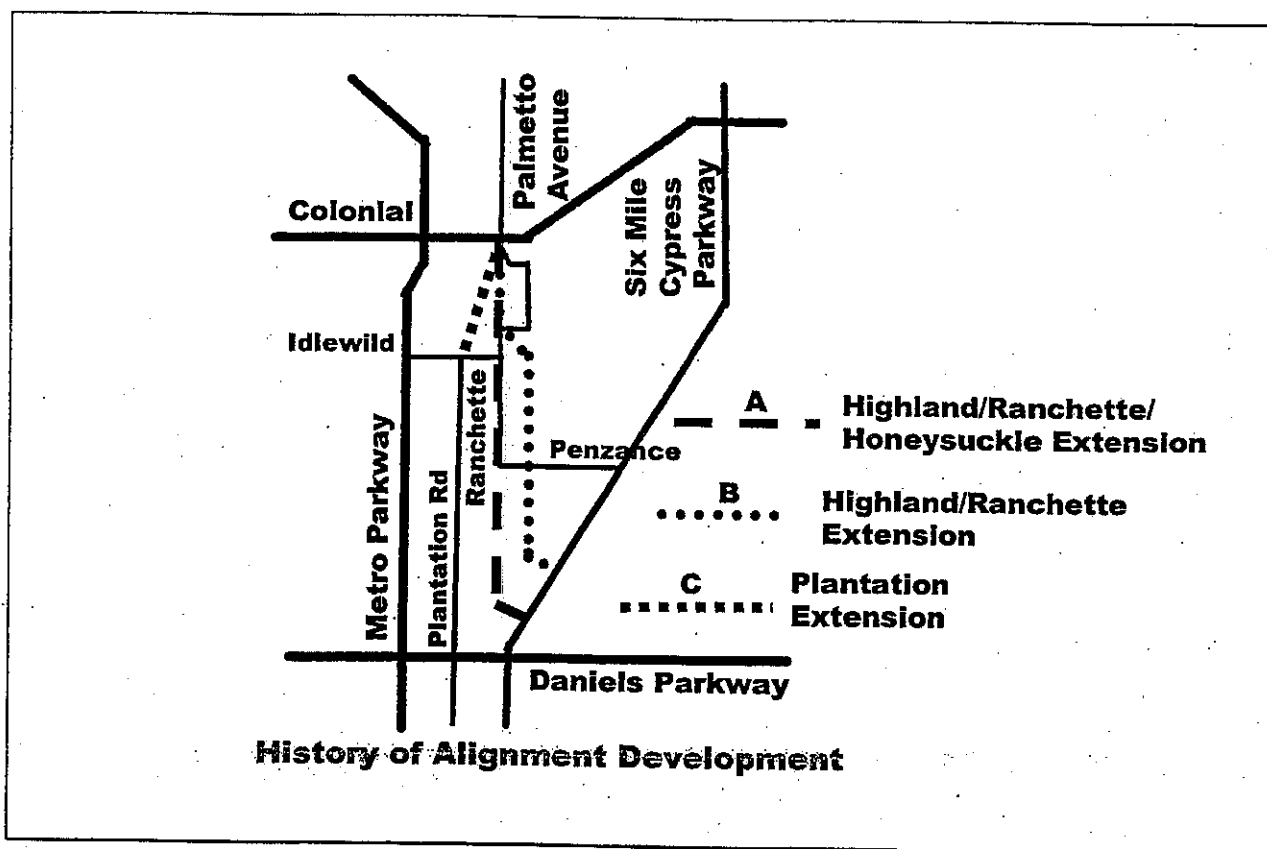

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Cella at Kcella@cella.cc or phone 239-337-1071 at least seven days prior to the workshop.

Please read the important information below!

On May 23, 2002, a public workshop was held to receive comments on the alternative alignments for the ½ mile section of Plantation Road between Idlewild Street and Abbott Street that would complete the connection to Palmetto Avenue Extension at Colonial Boulevard. Questions were received at the workshop regarding the history, timing and need for the connection to Palmetto Avenue at Colonial Boulevard. Some residents requested a second workshop to view traffic alternatives if Plantation Road is not connected to Palmetto Avenue.

Initially Plantation Road was a two-lane dirt road from Daniels Parkway to Idlewild Street and was paved in 1987 as a two-lane facility. In the late 80's, with approved zoning for The Rookery, Highland Pines Estates and The Willows, construction began on the residential neighborhoods that are accessed by Plantation Road. In 1925, Florimond Manor (now known as Oak Brook) was platted but home construction did not begin until the mid 50's. Home construction was developed along Highland Avenue and spread east and west from there. The plat for Florimond Manor dedicated a 30-foot road right-of-way along the western boundary for the future construction of Ford Street; this is now the general location for the proposed extension of Plantation Road to Palmetto Avenue.

Prior to 1995, the 2010 Financially Feasible plan showed a 4-lane extension of Palmetto south from Colonial along Highland/Ranchette/Honeysuckle Road connecting to Six Mile Cypress Parkway just north of Daniels Parkway (see alignment A below). However, in 1995 homeowners within the Highland Pines Estates petitioned the County to vacate the Honeysuckle Road right-of-way and pursue a north-south alignment that would not divide their subdivision. The County agreed to the vacation of right-of-way and the 2020 Financially Feasible Plan adopted in December 1995 included an alternative along Highland Avenue and along the backside of the properties on Ranchette Road (now Heritage Palms) that also connected to Six Mile Cypress Parkway (see alignment B below). In 1997 when US Homes rezoned the Heritage Palms property, the area shown for the Palmetto connection was rezoned to conservation area.

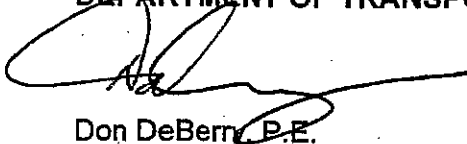

During the 1998 update of the 2020 Financially Feasible Plan due to the rezoning of the property to a conservation area and the wetland impacts by the proposed alignment it was determined a roadway parallel to Metro Parkway was needed to provide additional north-south capacity. The plan to include the connection from Palmetto Avenue to Plantation Road was amended and approved by the Lee County Metropolitan Planning Organization (please read the enclosed brochure) at their advertised Public Hearing on January 22, 1999 (see alignment C above). Prior to this plan amendment, Plantation Road was previously shown as a two-lane roadway. After the traffic model evaluations for the plan update were conducted, the need for four lanes on Plantation was established.

The Lee County Metropolitan Planning Organization has provided the traffic model alternatives for several scenarios that will be presented at the Open House. These traffic model alternatives demonstrate that six-laning Six Mile Cypress Parkway will not eliminate the need for the Plantation Road connection to Palmetto Avenue. Without the connection, a six-lane Metro Parkway will degrade to an unacceptable Level of Service F from Six Mile Cypress Parkway to Colonial Boulevard. The traffic evaluation also shows that Plantation Road will need to be four laned by 2010 to maintain an acceptable Level of Service on Metro Parkway.

You are encouraged to attend the meeting and speak with County representatives about the Plantation/Palmetto Extension Project.

Sincerely,

DEPARTMENT OF TRANSPORTATION

A handwritten signature in black ink, appearing to read "Don DeBerry", is written over the typed name and title.

Don DeBerry, P.E.
Project Manager

WHAT IS THE MPO?

The Lee County Metropolitan Planning Organization (MPO) is an intergovernmental transportation planning agency created by an agreement among Lee County, Bonita Springs, Fort Myers, Cape Coral, Sanibel, Fort Myers Beach, and the Florida Department of Transportation. State and federal laws require the formation of MPOs in urbanized areas with populations of more than 50,000 in order for surface transportation projects to be eligible for federal Highway Trust Fund dollars.

The MPO is responsible for the comprehensive transportation planning process for all of Lee County and must plan for the movement of both people and goods within the county by all modes of travel--including highways, public transportation, bicycles, and foot.

The MPO develops a long-range transportation plan, identifying those highway and transit improvements that can be afforded through the year 2020, and endorses a Transportation Improvement Program (TIP) that identifies projects to be done over the next few years.

WHO MAKES UP THE MPO?

Voting members

LEE COUNTY - All five county commissioners

CITY OF BONITA SPRINGS - One elected official

CITY OF CAPE CORAL - Four elected officials

CITY OF FORT MYERS - Three elected officials

TOWN OF FORT MYERS BEACH - One elected official

CITY OF SANIBEL - One elected official

Non-Voting Member

HOW DOES THE MPO WORK?

The MPO is staffed by the Southwest Florida Regional Planning Council. The MPO is advised by the Citizen Advisory Committee (CAC), Technical Advisory Committee (TAC), Transportation Disadvantaged Local Coordinating Board (LCB), Bicycle Pedestrian Coordinating Committee (BPCC), and the Traffic Signal Coordinating Committee (TSCC).

The CAC consists of 21 appointed citizens who make recommendations to the MPO from the public's perspective on proposed long-range transportation plans, project plans, priorities for state and federal funding and other transportation issues.

The TAC consists of local and state agency planners, engineers, and transit operators who make recommendations to the MPO on transportation plans, programs, amendments, and priorities on behalf of the agencies they represent. By doing so, it provides a continuing liaison with local, state, and federal agencies involved in the transportation planning process.

The LCB consists of government, social service agency, citizen, and consumer representatives who oversee the provision of safe, efficient, cost-effective and quality transportation services to Lee County's elderly, handicapped and low-income residents.

The BPCC consists of the local and state agency personnel who are responsible for bicycle and pedestrian planning for their agencies. It coordinates these agencies' bicycle/pedestrian planning activities, reviews provisions for pedestrians and cyclists in state and federal-aid surface transportation projects, and advises the MPO on the development of the bicycle and pedestrian element of its transportation plan and the programming of bicycle and pedestrian facilities.

The TSCC consists of local and state agency traffic engineers who review all proposals for new traffic signals. It serves as a technical subcommittee of the Lee County Community Traffic Safety Team, oversees the MPO's congestion management system, and

MPO OUTREACH EFFORTS

The MPO provides complete information, timely public notice, and full public access to decisions and documents. It supports early and continuing public involvement in the development and review of its plans and programs. It especially seeks out and considers the interests of people whose needs may not be well served by the existing transportation system, such as low income and minority households and persons with limited personal mobility.

Transportation Advisory Network (TAN) The TAN is a mailing list of individuals and organizations who have an interest in local transportation issues. The TAN provides a broad community resource for the formation and review of transportation plans, policies and strategies. This network provides key contact person for outreach efforts, dissemination of information, an informal review and comment to ensure sensitivity to varied community needs, concerns, and interests.

MPO MEETINGS

Unless otherwise noticed, the Lee County MPO meets on the Friday following the third Thursday of each month in the Council Chamber of Fort Myers City Hall 2200 Second Street, Fort Myers. Notices containing the time, location and agenda of each MPO meeting are published in the Fort Myers News-Press and the MPC Web Site.

FOR MORE INFORMATION . . .

about the MPO and its plans and programs, visit our web site at <http://www.swftrpc.org/mpo.htm>. Copies of the MPO's current 2020 Transportation Plan and five-year Transportation Improvement Program are available at all public libraries in Lee County. Copies of all

**"OPEN HOUSE"
 PUBLIC WORKSHOP
 PLANTATION/PALMETTO CORRIDOR**

The Lee County Department of Transportation (DOT) would like to invite you to an "Open House" for the Plantation/Palmetto corridor. The "Open House" is being held to provide interested persons the opportunity to view

historical and current data about the Plantation/Palmetto corridor. The "Open House" will be held on Thursday, September 26, 2002 from 6-8 p.m. at the Celebration Family Church. The church is located at 12400 Plantation Road, Fort Myers, Florida. **The workshop will be conducted in an "open house" format; no formal presentation will be given. You may attend the workshop anytime from 6-8 p.m.**

Informational displays about the Plantation/Palmetto corridor will be available for viewing along with a short slide show that will outline the history of the development of Plantation Road, the connection to Palmetto Avenue Extension and present traffic model alternatives that were requested by the public. Representatives from Lee County will be on hand for informal discussions and to answer questions. County Commissioners may also be in attendance.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Celia at Kcella@celia.cc or phone 239-337-1071 at least seven days prior to the workshop.

**"Open House"
 Public Workshop**

Date: Thursday, September 26, 2002
Time: 6 - 8 p.m.
Place: Celebration Family Church
 12400 Plantation Rd.
 Fort Myers, FL

Lee planning new north-south route

Road extension could cut close to homes

By **DON RUANE**
druane@news-press.com

Mark Davis can see the end of Plantation Road from his front door, and he hopes that is as close as it gets.

Lee County may have other plans, so he intends to go to Thursday's public workshop on the county's proposed \$4 million, two-

lane extension of Plantation Road.

"I'm on the front lines," said Davis, whose home at 6501 Idlewild Street sits on one corner of the future road. "I'd prefer it didn't happen."

The workshop, which will feature maps of three possible alignments between

Idlewild and Abbott streets, runs from 5 to 6:30 p.m. at the Life Church, 11735 Plantation Road.

Lee County officials, including project manager Betsy Rowan of the transportation department, will attend to answer questions. No formal presentations are planned.

Lee County hopes to start construction in 2004 or 2005, Rowan said. The proposed

routes have problems with wetlands and powerlines, she said.

Lee County wants to connect Plantation Road with Palmetto Avenue at Colonial Boulevard to provide another north-south route through the county. The link between Abbott Street and Colonial will be built by developers, Rowan said. About a dozen property owners are involved.

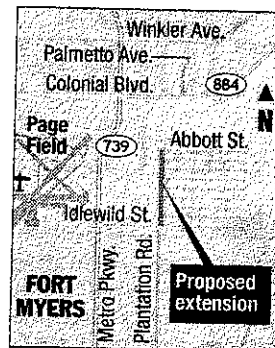

Construction on the county's leg can't begin until the route is planned all the way to Colonial, Rowan said. The U.S. Army Corps of Engineers won't issue a permit until the route is known.

A drainage easement runs down the west side of Davis' home and the Oakbrook subdivision. The road could go west of that and preserve the rural feeling that the easement's trees give the neigh-

borhood, Davis said.

Preserving the trees also would give residents a buffer between the road and an industrial area, he said.

The demands of growth for new roads eventually touch everyone who lives in Lee County, said Davis, who moved into his home in November. He just didn't think those demands would reach the foot of his driveway quite so soon, he added.

The News-Press

Citizens want more input on road work

By **DON RUANE**
 druane@news-press.com

Some residents along the path of road projects want Lee County's public input process overhauled so they can make a difference by speaking up.

They said they are frustrated by informal meetings, lack of information and sudden surprises. Some are convinced public comment opportunities are merely formalities.

How to involve the public constantly is discussed by transportation officials, but people just don't seem to pay

attention to change until road projects pop up in their backyard, said Kris Cella of Cella & Associates, which handles public input programs for county and state road projects.

"The public input portion of the transportation planning process does not work," Bob Soter, leader of the Plantation Road Neighborhoods Committee, told county commissioners this week. "It's a closed system."

The system collects public comment but doesn't ensure it will have any impact on a project, Soter said. His group,

with members in 10 neighborhoods, opposes plans to extend Plantation to Colonial Boulevard and to widen the road to four lanes.

The system is frustrating, according to Ralph D'Angelo, a retired transportation project manager from Connecticut who lives in Summerlin Village. Residents there are concerned about a proposed overpass at Gladiolus Drive that is part of the Summerlin Road widening project.

Plans weren't available during an August workshop on the Summerlin project, he said. The overpass was a sur-

prise even though he has discussed the project for years with Lee officials, he said.

"I'm glad somebody else is complaining about the county's methods for holding hearings," D'Angelo said.

Commission Chairman Bob Janes said the process can be reviewed but it is up to the Metropolitan Planning Organization to follow through. The MPO, which sets priorities for road projects the county and cities submit, has a public involvement plan that was last

See **COMMISSION / 2B**

■ In other action / 2B

COMMISSION: Officials say system in place adequate

From Page 1B

amended in April 2001.

"It works with every other project. I don't know any other way to do it," said Commissioner Doug St. Cerny. His district includes Plantation Road.

That plan calls for a citizens advisory committee, public hearings before projects are added to short- and long-range plans and public input during MPO meetings. A public hearing on Plantation Road is set for Nov. 22.

"People in this county are not aware of the transportation planning process this county has in place," Cella said. Residents also can call their transportation officials for plan updates or the MPO office at the Southwest Florida Regional Planning Council's office.

Formal public hearings happen when alignments are up for adoption. Workshops are informational and encourage people to ask questions, Cella said. Written and verbal comments from workshops become part of the project record.

"We call that a divide-and-conquer plan," Soter said.

"They don't want to have forums and talk about it," said Ed Geist, a Whiskey Creek advocate for a sound barrier to block noise from a proposed overpass over College Parkway at Summerlin. "The way it is now they have complete control."

Soter also complained residents weren't told about a workshop on Plantation's extension. They learned about it from The News-Press, he said.

There is no requirement to notify residents by mail, but the county and the state do notify people who live within 300 feet of the right of way involved, Cella said. Roadside electronic signs, public notices in newspapers and press releases also provide notice, she said.

Public input can make a difference, Commissioner John Albion said. Outspoken residents changed the alignment for extending Three Oaks Parkway away from Fiddlesticks Boulevard, he said.

Other residents saved trees around a retention pond along Summerlin, Cella said.

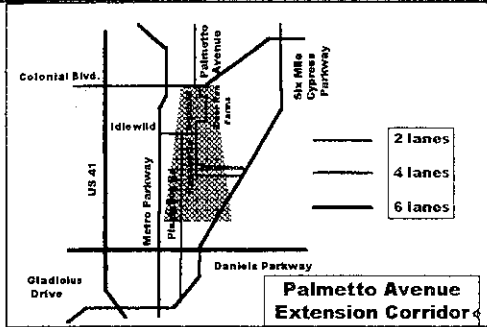

APPENDIX B

Plantation/Palmetto Corridor

Lee County Department of Transportation and Metropolitan Planning Organization

September 26, 2002

Welcome to the Lee County Department of Transportation and Metropolitan Planning Organization's Open House on the Plantation/Palmetto Corridor.

The "Open House" is being held to provide interested persons the opportunity to view historical data about the Palmetto extension and current data about the Plantation/Palmetto corridor.

WHAT IS THE MPO?

Metropolitan Planning Organization

Responsible for Transportation Planning Process

Approves the Transportation Improvement Program (TIP)

Prioritization of Surface Transportation Projects for State and/or Federal Dollars

The Lee County Metropolitan Planning Organization or MPO is responsible for conducting a continuing, cooperative, and comprehensive transportation planning process for all of Lee County. In order for projects to be eligible for federal funds, the law requires that the MPO endorse a transportation improvement program and set priorities identifying projects to be completed over the next five, ten and twenty years.

WHO IS THE MPO?

Represents all governmental bodies in Lee County

Technical Advisory Committee (TAC) - Staff from all governmental bodies

Citizens Advisory Committee (CAC) - Appointed by County Commission and City Council members

The MPO is an intergovernmental transportation planning agency created by an agreement among Lee County, Bonita Springs, Cape Coral, Fort Myers, Fort Myers Beach, Sanibel, and the Florida Department of Transportation. The Board of County Commissioners and representatives from each of the Cities participate in the MPO and are advised by the Technical Advisory Committee or TAC and the Citizens Advisory Committee or CAC.

HOW DOES IT WORK?

TAC and CAC presented with public survey of ranking of projects

Make recommendations and rankings based on traffic needs, technical issues and public comment

Other committees also comment, prioritize projects, i.e., bicycle/pedestrian, traffic signals

The TAC consists of local and state agency planners, engineers, and transit operators who make recommendations to the MPO on transportation plans, programs, and priorities on behalf of the agencies they represent. The CAC consists of 21 appointed citizens who make recommendations to the MPO from the public's perspective on proposed long-range transportation plans, project plans, priorities for state and federal funding and other transportation issues.

Public Involvement Opportunities

- Citizen Surveys
- Technical Advisory Committee
- Citizens Advisory Committee
- Public Workshops and Hearings

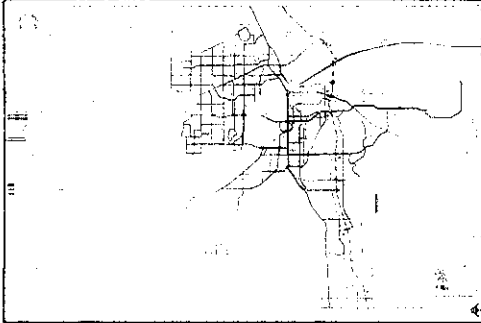

The MPO provides the public with complete information, timely public notice, and full public access to decisions and documents. It supports early and continuing public involvement in the development and review of its transportation plans and programs. The MPO provides a formal public hearing process for the adoption of transportation plans to allow the public to provide their input to the MPO Board members.

Travel Demand Model

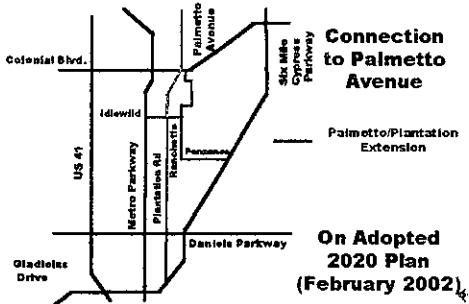

- Predicts volumes of future traffic
- Uses forecasts of future development

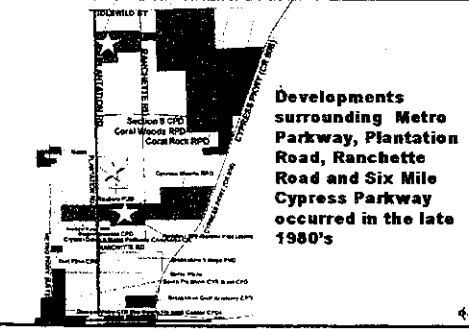

The MPO uses a travel demand model to predict volume of traffic that could be expected in the year 2020 on each roadway link of our county roadway network, using forecasts of future development and socioeconomic characteristics approved in August 2000 by the MPO's Technical Advisory committee.

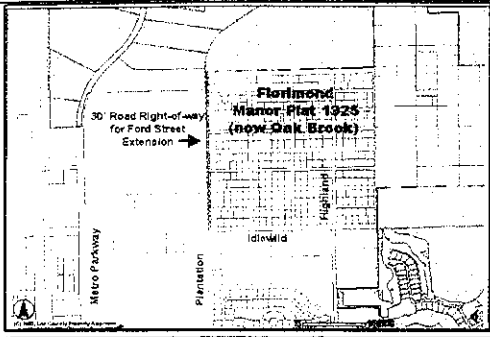

The results are several transportation planning tools including the 2020 Long Range Transportation plan that was last updated in February 2002.

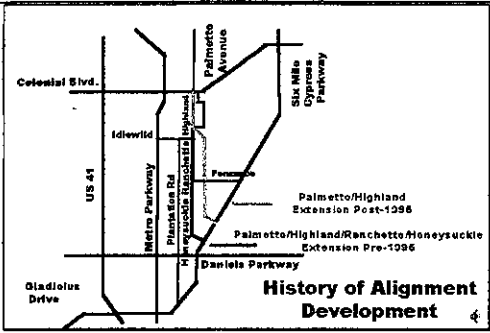

On May 23, 2002, a public workshop was held to receive comments on the alternative alignments for the 1/2 mile section of Plantation Road between Idlewild Street and Abbott Street that would complete the connection to Palmetto Avenue Extension at Colonial Boulevard.

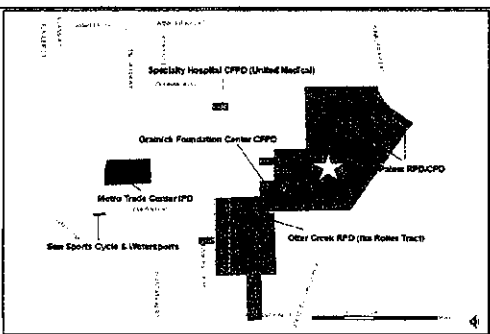

Initially Plantation Road was a two-lane dirt road from Daniels Parkway to Idlewild Street and was paved in 1987 as a two-lane facility. In the late 80's, with approved zoning for The Rookery, Highland Pines Estates and The Willows, construction began on the residential neighborhoods that are accessed by Plantation Road.

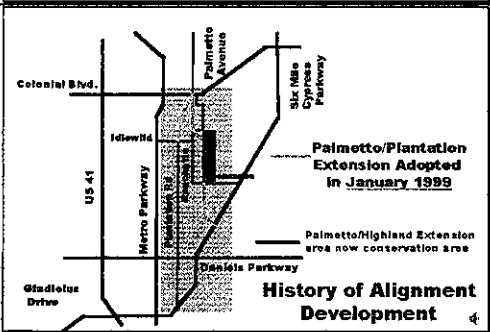

In 1925, Florimond Manor (now known as Oak Brook) was platted but home construction did not begin until the mid 50's. Home construction was developed along Highland Avenue and spread east and west from there. The plat for Florimond Manor dedicated a 30-foot road right-of-way along the western boundary for the future construction of Ford Street; this is now the general location for the proposed extension of Plantation Road to Palmetto Avenue.

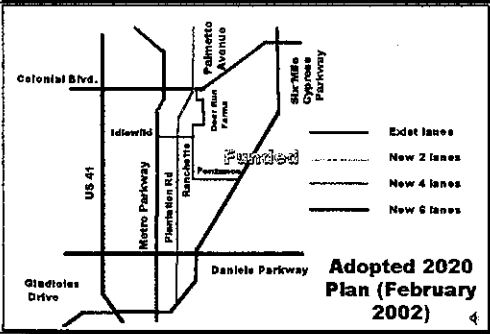

Prior to 1995, the 2010 Financially Feasible plan showed a 4-lane extension of Palmetto south from Colonial along Highland/Ranchette/Honeysuckle Road connecting to Six Mile Cypress Parkway just north of Daniels Parkway. However, in 1995 homeowners within the Highland Pines Estates petitioned the County to vacate the Honeysuckle Road right-of-way and pursue a north-south alignment that would not divide their subdivision. The County agreed to the vacation of right-of-way and the 2020 Financially Feasible Plan adopted in December 1995 included an alternative along Highland Avenue and along the backside of the properties on Ranchette Road that also connected to Six Mile Cypress Parkway.

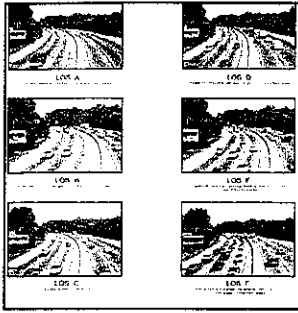

In 1997, US Homes rezoned the property known as Heritage Palms and the area along the backside of Ranchette road proposed for the connection was rezoned to conservation area.

During the 1998 update of the 2020 Financially Feasible Plan an alternative to Palmetto/Highland alignment was necessary due to the rezoning of the property to a conservation area and the wetland impacts by the proposed alignment. It was determined through the modeling effort that a roadway parallel to Metro Parkway was needed to provide additional north-south capacity. The plan to include the connection from Palmetto Avenue to Plantation Road was amended and approved by the Lee County Metropolitan Planning Organization at their advertised Public Hearing on January 22, 1999.

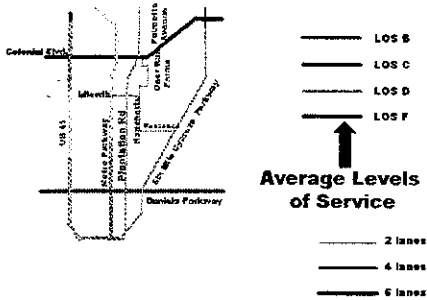

Prior to this plan amendment, Plantation Road was previously shown as a two-lane roadway. After the traffic model evaluations for the plan update were conducted, the need for four lanes on Plantation was established. In response to the need for the connector identified in the long range plan and level of service conditions on Metro Parkway, the County budgeted funds for the construction of the initial two lane connection to Palmetto in it's Capital Improvement Program.

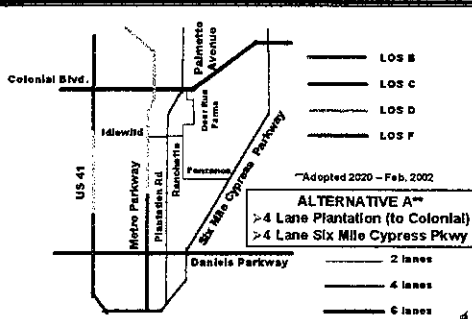

Volumes of traffic are categorized by Levels of Service or LOS

LOS F is very congested with long delays

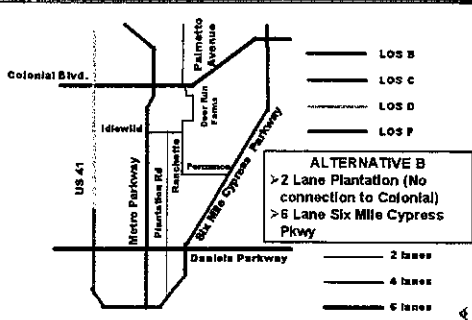

The Lee County Metropolitan Planning Organization has provided the traffic model alternatives for several scenarios that are presented tonight. When the MPO analyzes the traffic network for Lee County and determines a roadway will degrade to LOS F, plans are made to provide additional capacity by widening the existing roadways and/or adding new roadways.

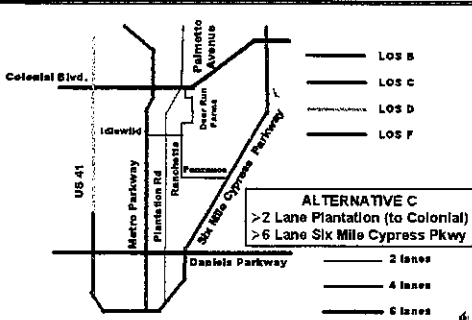

Your handout provides three traffic model alternatives that show levels of service for selected roadway segments. The levels of service shown on your handout are averaged levels of service. The large display graphics at the meeting tonight provide more detail of levels of service by roadway segment.

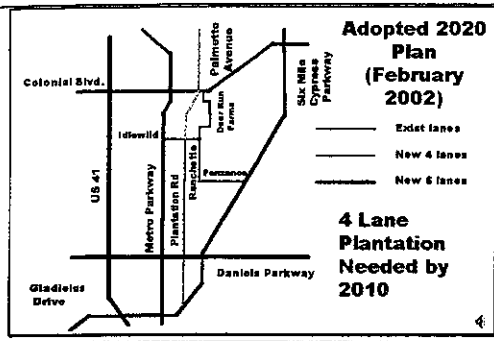

Alternative A shown here is the February 2002 adopted 2020 transportation plan that provides six lanes on Metro Parkway and four lanes on Plantation with a connection to Palmetto at Colonial Boulevard and four lanes on Six Mile Cypress Parkway. The north-south roadway system is operating at an acceptable level of service between Daniels Parkway and Colonial Boulevard.

Alternative B was requested by citizens at the previous public workshop. The connection of Plantation to Palmetto is removed, Plantation remains two lanes and Six Mile Cypress Parkway is now six lanes. Although Metro Parkway is also six lanes, without the Plantation Road to Palmetto Avenue connection, Metro Parkway degrades to a Level of Service F.

Alternative C shows that even with Six Mile Cypress and Metro Parkways six laned, a two lane Plantation with a connection to Palmetto at Colonial does not improve the level of service on Metro Parkway.

The detailed traffic model alternatives being presented tonight demonstrate the need for the connection from Plantation to Palmetto and the need to four lane Plantation Road. The MPO staff has also determined these improvements are needed by the year 2010.

MPO Public Hearing Scheduled

Plantation/Palmetto Extension and Four Laning
 Friday, November 22, 2002 at 9 AM
 Fort Myers City Hall Council Chambers
 2200 Second Street at Broadway

The Public Hearing for the Plantation/Palmetto Extension is scheduled for Friday, November 22nd at 9 AM at the Fort Myers City Hall Council Chambers at 2200 Second Street.

Thank you for your interest in this project.

There are County Representatives here tonight to answer your questions and take your comments.

Your comments are important!

There are four identical stations of informational displays available for viewing tonight. Please visit any station and speak with Lee County representatives about the Plantation/Palmetto Extension Project. Thank you for your interest in this project.

PLANTATION/PALMETTO CORRIDOR PUBLIC WORKSHOP

September 26, 2002

Welcome to the Lee County Department of Transportation and Metropolitan Planning Organization Open House. This workshop is being conducted in an "open house" format; no formal presentation will be given. Informational displays about the Plantation/Palmetto corridor are available for viewing along with a short slide show that will outline the history of the development of Plantation Road, the connection to Palmetto Avenue Extension and present traffic model alternatives that were requested by the public. Representatives from Lee County will be on hand for informal discussions and to answer questions. County Commissioners may also be in attendance.

The Lee County Metropolitan Planning Organization or MPO is responsible for conducting a continuing, cooperative, and comprehensive transportation planning process for all of Lee County. It must plan for the movement of both people and goods within the county by all modes of travel—including highways, public transportation, bicycles, and pedestrian. In order for them to be eligible for federal funds, federal law requires that the MPO endorse a transportation improvement program and set priorities identifying the projects to be done over the next five, ten and twenty years.

The MPO is an intergovernmental transportation planning agency created by an agreement among Lee County, Bonita Springs, Cape Coral, Fort Myers, Fort Myers Beach, Sanibel, and the Florida Department of Transportation. The Board of County Commissioners and representatives from each of the Cities participate in the MPO and are advised by the Technical Advisory Committee or TAC and the Citizens Advisory Committee or CAC.

The TAC consists of local and state agency planners, engineers, and transit operators who make recommendations to the MPO on transportation plans, programs, and priorities on behalf of the agencies they represent. The CAC consists of 21 appointed citizens who make recommendations to the MPO from the public's perspective on proposed long-range transportation plans, project plans, priorities for state and federal funding and other transportation issues.

The MPO provides the public with complete information, timely public notice, and full public access to decisions and documents. It supports early and continuing public involvement in the development and review of its transportation plans and programs. The MPO provides a formal public hearing process for the adoption of transportation plans to allow the public to provide their input to the MPO Board members.

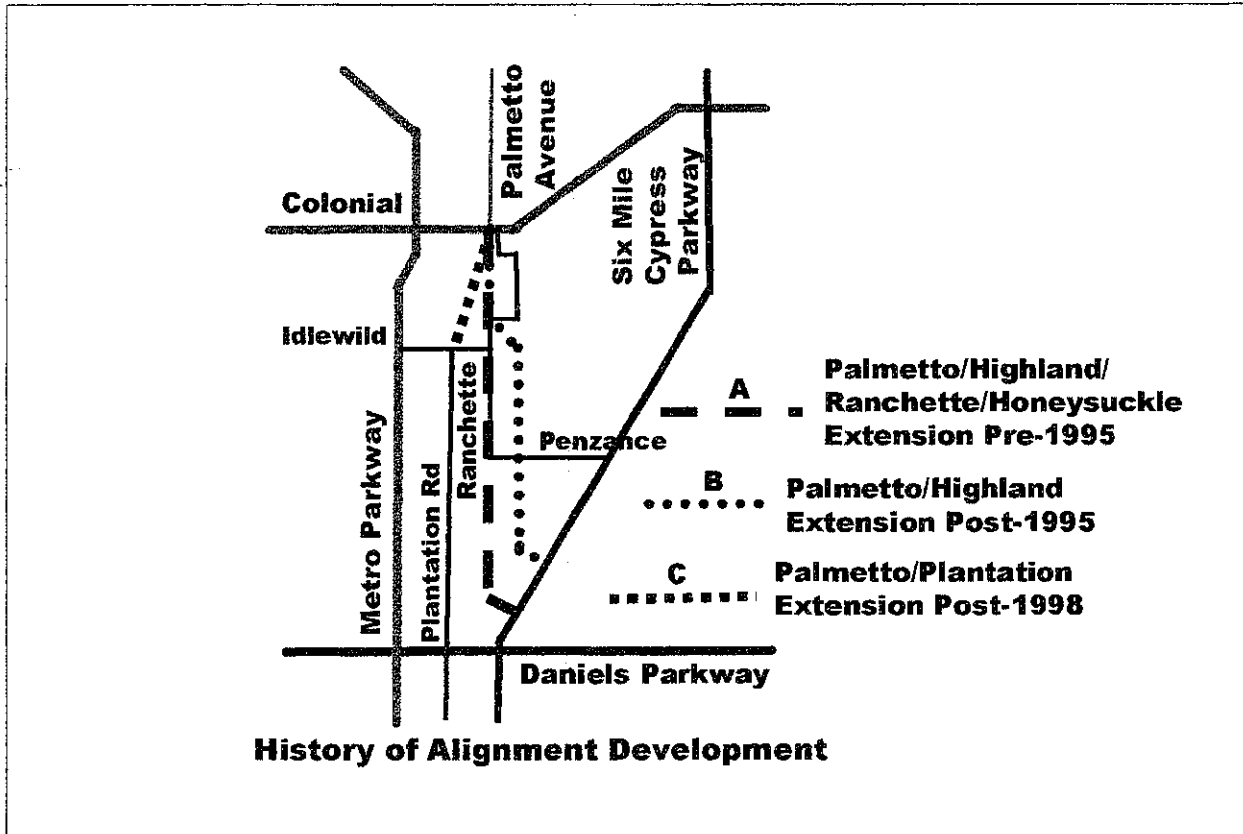

The MPO uses a travel demand model to predict volume of traffic that could be expected in the year 2020 on each roadway link of the county roadway network, using forecasts of future development and socioeconomic characteristics approved in August 2000 by the MPO's Technical Advisory committee. The 2020 Long Range Transportation plan was updated in February 2002.

Project History

In response to the need for the connector identified in the long range plan and level of service conditions on Metro Parkway, the County budgeted funds for the construction of the initial two lanes in its Capital Improvement Program. On May 23, 2002, a public workshop was held to receive comments on the alternative alignments for the ½ mile section of Plantation Road between Idlewild Street and Abbott Street that would complete the connection to Palmetto Avenue Extension at Colonial Boulevard. Questions were received at the workshop regarding the history, timing and need for the connection to Palmetto Avenue at Colonial Boulevard. Some residents requested a second workshop to view traffic alternatives if Plantation Road is not connected to Palmetto Avenue.

Initially Plantation Road was a two-lane dirt road from Daniels Parkway to Idlewild Street and was paved in 1987 as a two-lane facility. In the late 80's, with approved zoning for The Rookery, Highland Pines Estates and The Willows, construction began on the residential neighborhoods that are accessed by Plantation Road. In 1925, Florimond Manor (now known as Oak Brook) was platted but home construction did not begin until the mid 50's. Home construction was developed along Highland Avenue and spread east and west from there. The plat for Florimond Manor dedicated a 30-foot road right-of-way along the western boundary for the future construction of Ford Street; this is now the general location for the proposed extension of Plantation Road to Palmetto Avenue.

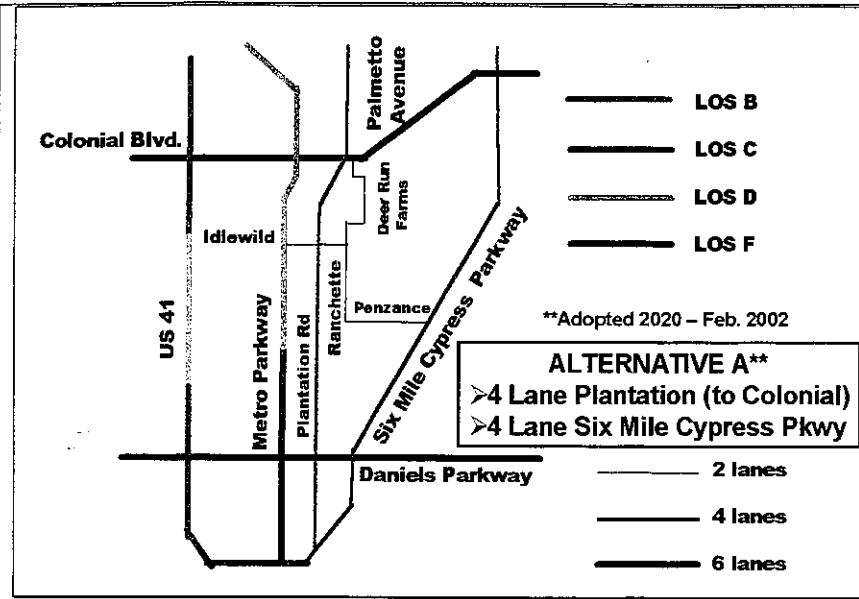

Prior to 1995, the 2010 Financially Feasible plan showed a 4-lane extension of Palmetto south from Colonial along Highland/Ranchette/Honeysuckle Road connecting to Six Mile Cypress Parkway just north of Daniels Parkway (see alignment A below). However, in 1995 homeowners within the Highland Pines Estates petitioned the County to vacate the Honeysuckle Road right-of-way and pursue a north-south alignment that would not divide their subdivision. The County agreed to the vacation of right-of-way and the 2020 Financially Feasible Plan adopted in December 1995 included an alternative along Highland Avenue and along the backside of the properties on Ranchette Road (now Heritage Palms) that also connected to Six Mile Cypress Parkway (see alignment B below). In 1997 when US Homes rezoned the Heritage Palms property, the area shown for the Palmetto connection was rezoned to conservation area.

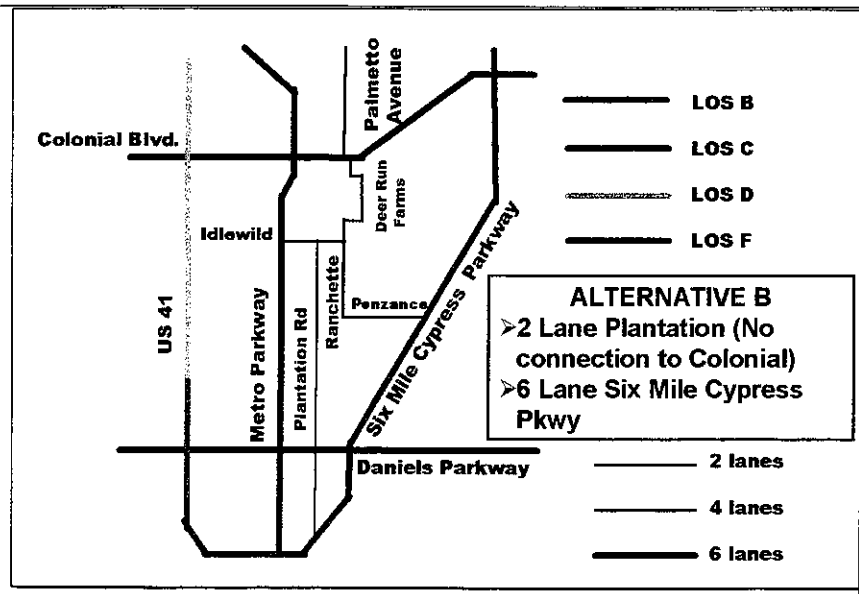

During the 1998 update of the 2020 Financially Feasible Plan due to the rezoning of the property to a conservation area and the wetland impacts by the proposed alignment it was determined a roadway parallel to Metro Parkway was needed to provide additional north-south capacity. The plan to include the connection from Palmetto Avenue to Plantation Road was amended and approved by the Lee County Metropolitan Planning Organization at their advertised Public Hearing on January 22, 1999 (see alignment C above). Prior to this plan amendment, Plantation Road was previously shown as a two-lane roadway. After the traffic model evaluations for the plan update were conducted, the need for four lanes on Plantation was established.

The Lee County Metropolitan Planning Organization has provided the traffic model alternatives for several scenarios that are presented at the Open House tonight. The traffic model alternatives presented demonstrate the need for the Plantation Road to Palmetto Avenue connection and the need to four lane Plantation Road by the year 2010 has been determined by the MPO staff. The attached traffic model alternatives also show that without the connection, a six-lane Metro Parkway will degrade to an unacceptable Level of Service F.

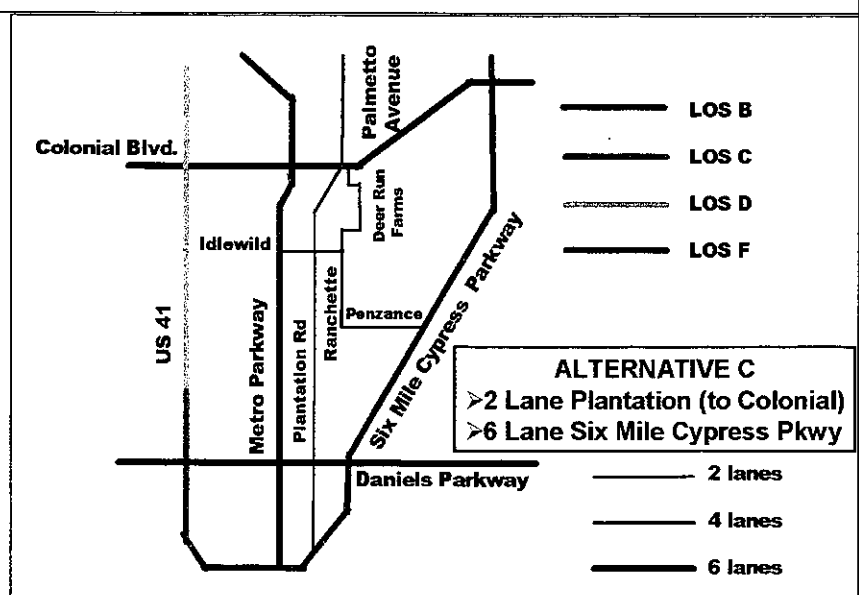

On the adopted 2020 Financially Feasible Plan, Six Mile Cypress Parkway is shown as a four-lane roadway from Metro Parkway to Colonial Boulevard. The attached traffic model alternatives show that six laning Six Mile Cypress Parkway will not eliminate the need for the Plantation connection to Palmetto Avenue. The traffic evaluation also showed that Plantation Road will need to be four laned by 2010 to maintain an acceptable Level of Service on Metro Parkway. You are encouraged to speak with County representatives tonight about the Plantation/Palmetto Extension Project.

ALTERNATIVE A
 Alternative A is the February 2002 adopted MPO 2020 Transportation Plan that provides six lanes on Metro Parkway and four lanes on Plantation Road with a connection to Palmetto Avenue at Colonial Boulevard and four lanes on Six Mile Cypress Parkway. The north-south roadway system is operating at an acceptable level of service between Daniels Parkway and Colonial Boulevard.

ALTERNATIVE B
 Alternative B was requested by citizens at the previous public workshop. The connection of Plantation Road to Palmetto Avenue is removed, Plantation Road remains two lanes and Six Mile Cypress Parkway is now six lanes. Although Metro Parkway is also six lanes, without the Plantation Road to Palmetto Avenue connection, Metro Parkway degrades to a Level of Service F.

ALTERNATIVE C
 Alternative C shows that even when Six Mile Cypress Parkway and Metro Parkway are six lanes, a two-lane Plantation Road with a connection to Palmetto Avenue at Colonial Boulevard does not improve the level of service on Metro Parkway. The MPO model shows that Plantation Road to Palmetto Avenue at Colonial Boulevard needs to be four lanes by the year 2010.

APPENDIX D

CHOOSE ALTERNATIVE "B"

- Ask:**
- What year will Metro Parkway and Six Mile Cypress be widened?
 - Is there money available for these roads and when?
 - How will our comments count?

(Handwritten signature)

Meeting with Commissioner John Albion
Monday, June 17, 2002

The neighborhood representatives, speaking on behalf of hundreds of families who live on both sides of Plantation Road, presented three agenda items:

- Request a delay on the vote at the Metropolitan Planning Organization (MPO) meeting, June 21, 2002, to extend Plantation Road as a divided four lane highway from Martin Luther King Boulevard to Six Mile Cypress;
- Submit petitions signed by over ⁵⁶¹~~400~~ homeowners which state:
"We the citizens and homeowners from the neighborhoods contiguous to Plantation Road, due hereby petition commissioners of Lee County, Florida not to extend Plantation Road. The Construction of this proposed extension will forever damage the character, tranquility and safety of our collective neighborhoods."
- As directly affected homeowners, we demand to have our opinions heard on this matter. Stan Wells summarized the group's goal: "We are simply asking our representative, Mr. Albion, to accurately and forcefully represent the true concerns and desires of his constituents, the homeowners from the eight affected neighborhoods."

Note: The ⁹~~8~~ neighborhoods along Plantation Road include:

1. Plantation South
2. Highland Pines
3. Emerald Pines
4. Rookery
5. Plantation Pines
6. Oakbrook
7. Willows
8. Villa South
9. Brookshire

WE THE CITIZENS AND HOMEOWNERS FROM THE NEIGHBORHOODS CONTIGUOUS TO PLANTATION ROAD, DUE HEREBY PETITION: COMMISSIONERS OF LEE COUNTY, FLORIDA NOT TO EXTEND PLANTATION ROAD. THE CONSTRUCTION OF THIS PROPOSED EXTENSION WILL FOREVER DAMAGE THE CHARACTER, TRANQUILITY AND SAFETY OF OUR COLLECTIVE NEIGHBORHOODS.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: We are in disagreement with the proposed extension of Plantation Road as well as the widening to 4 lanes. Plantation Road is already established with residential homes therefore should remain a residential area. I believe the new proposals will invite more traffic into our area, increasing the noise and decreasing the safety. I understand that Lee County is growing and that we need to provide safe, adequate roads for residents to travel on. However I think we can achieve this goal without sending loads of traffic through an already established neighborhood. We are concerned as to how we will cross traffic to get in and out of our driveway, as we live directly on Plantation Road.

Are you planning on adding turning lanes and/or stop lights for each home on Plantation Road? My guess is that this would not be feasible. However we are truly concerned with the issue of safely leaving and then returning to our home as we would need to cross much more traffic.

Already it is now difficult to turn into our driveway since you added a curb this summer. As traffic comes up quickly behind us we have no room to slowly turn off; the new curb has made it a quick sharp turn. Could we have it removed? I'm not sure why it was put there.

(Attach additional sheets if necessary) I am enclosing photos of the curb and my tire. This is what happened last week as I tried to safely go home and a car was right behind

Thank you for taking time to participate in this Public Information Meeting

me, leaving me with little time to turn. A turning lane or grass area with no curb would be much safer!

Thank you for listening to our concerns. We look forward to hearing your comments, soon.

Mr. and Mrs. Dennis Konczak

October 10, 2002

Lee County Department of Transportation,

In response to your proposal to widening Plantation road to four lanes I would like to voice my concerns. I have filled out the forms and attended every meeting I was able to, in attempt to learn about your plans and to understand the reasoning behind these plans. First let me say that I do understand that Lee County is growing and in light of this you need to develop our roadways to accommodate more people. However I believe there are better ways to achieve this than to rip up roads and property in established neighbors. My husband spoke with one of your representatives at the last meeting who informed him of the "benefits" of having a four-lane road in our front yard. I agree with her in that traffic will flow freer, however I also strongly believe four lanes will invite more traffic past our home. Personally wouldn't we all prefer to drive on a four-lane road rather than a two lane? I would if it wasn't in front of my house. That means four lanes will promote heavier use of Plantation Road and therefore more traffic and more probability of accidents. I am also concerned with how I will cross the traffic to get into my driveway. Being that our home is not in a development but is a private driveway I am uncertain how you plan to accommodate our safe entering and leaving of our home. As it is now the curb you installed this summer has already caused our turn to be more dangerous and difficult. I have enclosed photos of my tire and the curb at the end of our driveway to show you what happened. As I was attempting to get home I had to make a sharp turn as there was a car right behind me and it was coming fast, so I turned and hit the curb. Before you installed the curb we were able to pull into the grass and then into our driveway, which was much safer. Is there any way we can get the curb removed? I am unsure of its purpose other than to look nice, although I am hoping safety is of higher value to you than cosmetics. I am sure that if you were to be completely honest, none of you would want a four-lane road installed in your front yard. Can you blame us for feeling the same way? I believe there must be another area that is not already an established residential neighborhood that you could create an additional north- south alignment. One final concern I would like to share; the new pavement on Plantation (right in front of the new development being built and just north of the Life Church) it is not angled so that when we get heavy rain the water sits on the road there rather than draining

to the sides. This is dangerous as it gets slippery and drivers are unaware of the surface change in the road here.

I could go on and on about my concerns for loss of property value due to the expansion and road widening and my disappointment in hearing of the expansion itself. However I think the real focus needs to stay on safety: Safety for our drivers in Lee County and for the residents. Thus I do not believe the proposal to extend and widen Plantation Road is the answer to the problem. Making way for heavier traffic in an established residential area does not seem like a wise choice if safety is to remain the main issue.

Thank you for listening to our concerns, I am anxious to hear your comments.

Sincerely,

Mrs. Terri Konczak

Comments: I do not want any new expanded road through the private roads of Oak Brook. (Highland for example)

I want the Plantation Rd. extension following the Ford St. plan. I do not want openings in the new road to connect into Oak Brook. That would just create more traffic through our community.

I question the trust which owns the property holding back on their construction of the road through their property, expecting the county will pay for it instead of what was discussed at the last meeting. They will be gaining access and need to pay accordingly. They will add to the traffic with their development when the road is there.

Comments: I AM FOR THE EXTENSION OF PLANTATION RD TO PALMETTO AVE AND TO WIDEN PLANTATION RD. SIMPLE BECAUSE WITH MORE SUBDIVISION GOING IN ON PLANTATION AND WITH THE CONTINUED GROWTH OF SOUTH FLORIDA. MORE + MORE PEOPLE WILL CONTINUE TO USE PLANTATION TO IDLEWILD TO HIGHLAND TO GARLAND ST TO DEER RUN FARMS ROAD TO AVOID METRO PARKWAY AND ALL THE TRAFFIC CONGESTION, TO GET TO COLONIAL BLVD. ALSO WITH THE GROWTH OF THE CHURCH AND THE ADDED ADDITION ONTO THE CHURCH'S SCHOOL, TRAFFIC IS GOING TO CONTINUE TO INCREASE ON DEER RUN FARM'S ROAD AND GARLAND ST. I DO NOT THINK THAT THOSE TWO ROADWAY'S WERE BUILT TO HANDLE THAT KIND OF INCREASED TRAFFIC FLOW. WHILE YOU ARE DOING A STUDY ON THE EXTENSION OF PLANTATION, PERHAPS YOU COULD ALSO DO A STUDY OR WORKSHOP ON THE DEAD-ENDING OF DEER FARM'S ROAD OR GARLAND ST. OR THE CLOSING OF BOTH OF THESE STREETS, FOR SAFETY REASONS.

Comments: At this public hearing I found out that of the 500+ signatures collected on the petitions to prevent Plantation Ext Many were acquired with misrepresentation or "scare tactics" if you will. I actually had some tell me they don't know where these figures came from... like they would be made up. I also noticed that many people were given little slips with what to write, or think this is ridiculous! Bottom line - if something has to be done - it only makes sense to divide Res and Business/Industrial than to divide a Res Community (Highland) with children, families, houses etc. or worse not do anything to prepare for growth. The opposers of the Ext address how many schools and churches are on plantation but there are many schools and churches on major roads off they off plantation - it has been a conundrum if they live directly on it - they know they were moving on a busy road - this information about

(Attach additional sheets if necessary)

the Ext has always been provided. Not to mention we pave, maintain and prove signage

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Alternative "A" seems to be the best plan
since it splits congestion by putting 4 lanes on Plantation
& 4 lanes on Six Mile Cypress Pkwy. The property on
the north end of Plantation is mostly empty and
if it is dedicated as a 30ft road right of way along
the western boundary for the future construction of
Ford Street. Why must it be changed now, especially
by people who didn't have a problem when their subdivision
was built, namely Emerald Pines. I see every day
hundreds of cars racing through Highland, and Deer Run
Farms Rd. The cars come from Colonial & the front
Road in front of RT Waters. I've also noticed
most people who come through our subdivision (Oakbrook)
are doing so to get to Plantation Rd. So I renounce
my objection and permanently agree to
Alternative "A".

Thank you

Comments: WHEN CONSTRUCTING OR WIDENING ROAD CORRIDORS, I FEEL IT IS VERY IMPORTANT TO HAVE A GOOD ROAD CROSS SECTION. WHEN IMPROVING IN AREAS OF EXISTING SUBDIVISIONS I WOULD RECOMMEND THE FOLLOWING:

URBAN TYPE DESIGN
CLOSED DRAINAGE SYSTEM
SIDE WALK / BIKE PATHS
STREET LIGHTING
BUFFERS → LANDSCAPE / WALL ETC..

NORTH/SOUTH CORRIDORS ARE USED & SUPPORTED AND SHOULD MEET THE ABOVE MENTION DESIGN STANDARDS.

ALSO - MAY LOOK INTO SOME TYPE OF COMMUNITY LANDSCAPE / BENTIFICATION PROJECT.

Comments: I HAVE SEEN MUCH POPULATION GROWTH
AND ROADS NEED TO CARRY AND CONTROL
TRAFFIC. I SEE NO ALTERNATIVE BUT TO
EXPAND THE PROPOSED ROADWAY. WHAT CONCERNS
ME VERY MUCH IS THE CORNER OF IDLEWILD -
RANCHETTE/HIGHLAND. THIS INTERSECTION IS VERY
DANGEROUS WHEN YOU SEE THE SPEED OF CARS
GOING NORTH ON RANCHETTE ENTERING THE
OAKBROOK SUBDIVISION. VEHICLES RUN THE STOP SIGNS
AT OVER 30+ MPH. THE CORNER OF HARTLAND AND
HIGHLAND IS A SCHOOL BUS STOP FOR ABOUT
8 BUSES. YEARS AGO, THE INTERSECTION OF IDLEWILD
AND RANCHETTE WAS A 3WAY STOP. IT CONTROLLED
THE SPEEDS THROUGH THE SUBDIVISION. PLEASE RECONSIDER
ADDING STOP SIGNS ~~BACK~~ TO THE INTERSECTION AS
IT WAS YEARS AGO. ALSO IDLEWILD ST AND METRO
INTERSECTION IS A NIGHTMARE AND DEATH TRAP.

Comments: We built our home 11 yrs ago we petitioned it be taken off the books to widen & extend ranchette / Highland to Colonial + further. It is ridiculous to consider putting thoroughways thru subdivisions. I think Plantation expansion makes sense. the traffic need to go some where.
I also wish you would look at the corner of Ranchette/Highland & Idlewild. by giving ranchette the right of way - cars are flying thru this intersection. Some turning many continuing to fly the stop sign (they are a submission please consider making this a 3-way stop again. Every little bit helps.

Comments: I am in favor of the road extension I live on Garland St. which is a private road, the traffic that comes down our road is bad esp on Wednesday night and Sunday for Church services there are times on these days we have to wait up to 15 minutes to get out of our driveway.

I believe the ~~extension~~ extension would help with this problem.

We also have a lot of kids who live in the neighborhood and the speed limit is 20 through people cutting thru there never obey this we have added speed bumps they help a little they slow for the bump then speed up again. I am sure if the people dropped to this had there traffic they would change their minds.

Comments: I would be in favor of this extension of Plantation
if the D.O.T Made sure that at Colonial there would be
signals installed and that all oakbrook subdivision roads will
not connect to the proposed extension. We have now a lot of unwelcomed
traffic that use our private road as a cut thru to colonial. This
neighborhood has an abundance of elementary and Junior High kids
and I feel the extension would relieve the unwelcomed traffic.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: We are in disagreement with the proposed extension of Plantation Road as well as the widening to 4 lanes. Plantation Road is already established with residential homes therefore should remain a residential area. I believe the new proposals will invite more traffic into our area, increasing the noise and decreasing the safety. I understand that Lee County is growing and that we need to provide safe, adequate roads for residents to travel on. However I think we can achieve this goal without sending loads of traffic through an already established neighborhood. We are concerned as to how we will cross traffic to get in and out of our driveway, as we live directly on Plantation Road. Are you planning on adding turning lanes and/or stop lights for each home on Plantation Road? My guess is that this would not be feasible. However we are truly concerned with the issue of safely leaving and then returning to our home as we would need to cross much more traffic. Already it is more difficult to turn into our driveway since you added a curb this summer. As traffic comes up quickly behind us we have no room to slowly turn off; the new curb has made it a quick sharp turn. Could we have it removed? I'm not sure why it was put there,

(Attach additional sheets if necessary) I am enclosing photos of the curb and my tire. This is what happened last week as I tried to safely go home and a car was right behind

Thank you for taking time to participate in this Public Information Meeting

me, leaving me with little time to turn. A turning lane or grass area with no curb would be much safer! Thank you for listening to our concerns. We look forward to hearing your comments, soon.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am completely in favor of the Plantation - Palmetto extension. This is the most economically and environmentally solution to the traffic problem on Metro Parkway. Plantation Rd. needs to be 4-laned. In the last 5 years the population on this road has boomed due to the addition of Majorca Apts, three churches, additional businesses and will only continue to grow when they finish building Plantation Preserve. Widening Six Mile Cypress to alleviate the traffic is not an option. Six Mile is too far away in proximity to be a viable alternative route to Metro Pkwy. There are a multitude of issues involved that support the widening and extension of Plantation Rd. The traffic conditions on Metro Pkwy will only deteriorate further with the opening of the New Wal-Mart at Colonial + Six Mile Cypress. Residents on Plantation Rd. sit behind their closed gates but drive through Oakbrook Subdivision showing blatant disregard for stop signs or speed limits. There is a posted speed limit of 20 mph. Most people come flying through doing 40 mph +.

Comments: After hearing the discussions at the public meeting and with review of the information provided at the Open House, we would have to agree with the Lee County Department of Transportation and the Metropolitan Planning Organization's Alternative "A" (Sept. 26, 2002 Public Workshop Handout), February 2002 Adopted MPO 2020 Transportation Plan that provides six lanes on Metro Parkway, four lanes on Plantation Road with a connection to Palmetto Avenue at Colonial Blvd., and four lanes on Six Mile Cypress Parkway.

As property owners and residents of Oakbrook Subdivision (Floirmond Manor), our only concern and request is that no connection be made in the future to the Plantation/Palmetto Connection from any East-West roadways within Oakbrook Subdivision. Oakbrook is a private community with privately maintained roadways and many young families with young children living in its bounds. Connection to Plantation from East-West roadways within Oakbrook would only increase the traffic flow through our neighborhood by non-residents.

Comments:

ALTERNATIVE "B", DESPITE THE "LEVEL OF SERVICES" CLAIMED ON METRO, IS THE ONLY PRACTICAL CHOICE. METRO IS ALREADY COMMERCIAL AND SHOULD BEAR THE BRUNT OF EXPANSION TO 6 LANES. SIX MILE CYPRESS IS CURRENTLY UNDERUTILIZED AND REQUIRES 6 LANES AND INCREASED SPEEDS TO ENCOURAGE ADDITIONAL TRAFFIC FLOW. THE HIGHLY RESIDENT-BASED NATURE OF PLANTATION WARRANTS A CONTINUED RESIDENT-FRIENDLY ROADWAY.

ON A SIDE NOTE, AS A GRADUATE OF A MASTERS LEVEL LOGISTICS PLANNING PROGRAM, I AM HIGHLY SUSPECT OF THE DATA, MEANS, METHODS, AND ASSUMPTIONS USED IN THE LOGISTICS MODEL THAT HAS BEEN USED TO ARRIVE AT THE ANTICIPATED LOS LEVELS.

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Meeting

THE ENTIRE PREMISE SUGGESTS THAT ALT "A" IS THE ONLY ONE THAT SATISFIES THE LOS REQUIREMENTS. IF THE STATISTICS ARE BIASED, SO IS THE IDEA THAT ALT "A" IS THE "ONLY" CORRECT SOLUTION.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am strongly opposed to the widening of Plantation Road as an answer to traffic flow concerns. These issues of lessening traffic flow to other areas should be addressed in industrial routes versus residential routes. It appears to me that utilizing "Alternative Plan B" is the most logical method for redirection as Metro Parkway and Six Mile Cypress are already utilized as industrial routes and could benefit from a widening project. Especially, in areas on both Six Mile and Metro where traffic narrows down to only one or two lanes, this is what causes a slow down of "bottle necking" of traffic flow. Widening both of these industrial routes would provide for greater traffic flow and would leave Plantation as the residential route it was intended to be. When we purchased our home in Emerald Pines three years ago, we were told that this road and this area would provide a safe and quiet residence to raise a family. In fact, industrial trucks were not even allowed to pass through. This is an area loaded with families, elderly people and children (Attach additional sheets if necessary) whom relocated here for the safety, quiet and great property values that would increase because of these features.

Thank you for taking time to participate in this Public Information Meeting

Widening Plantation only puts our families at risk, as children try to load and unload off of buses and walk home from stops. It's already dangerous enough with the increase in current traffic levels, let alone widening it to four. It is an outrage to home owners who sought a quiet and safe

Comments: With the increased residential population on Plantation Rd I feel alternative "B" is the most appropriate alternative to Plantation Rd & its residents. Metro pky is an industrial & commercial corridor. The traffic that is received by Metro pky has business on Metro pky. Widening Plantation in no way will assist with reducing traffic with business on Metro pky. To achieve smoother traffic flow from Colonial to Daniels Six Mile Cypress widening is the most effective solution. Has any research been done to see if Crystal could be connected to Six Mile? Also with the increased population of Plantation I would like to see sidewalks to be uninterrupted from Daniels to Idlewild. With Plantation staying two lanes & children needing to meet their bus at irregular hours this would increase the safety of all.

Thank you for consideration
P.S. Do not consider the extension of Plantation to Colonial
again this connection will not assist with reducing the traffic on
(Attach additional sheets if necessary) Metro.

Thank you for taking time to participate in this Public Information Meeting

**6512 KESTREL CIRCLE

October 7, 2002

Lee County Transportation Dept.
c/o Cella & Associates
2125 1st Street, Ste. 201
Fort Myers, FL 33901

Gentlepersons:

I appreciated the opportunity of attending the Public Workshop held on September 26th to discuss various alternatives to a Plantation Road connection with Palmetto Avenue. The video/slide presentation was well done, the myriad sets of diagrams and ROW alignments were instructive and the presence of two Commissioners who will have to vote on this matter of vital importance to affected residents was comforting.

Not having been at the first workshop, I am grateful for the effort involved in putting this one together, for in my view, the information obtained at it indicate that Alternative B is the only reasonable, rational and fair choice. This judgment is based on a number of factors:

First, I reject out-of-hand project manager DeBern's apparent primary reason for wanting to build the connector: people aren't presently, or won't in the future, use Six Mile Cypress to get from a northerly point in the county to a more southerly point. Tough! Drivers' bad habits or preferences shouldn't be the justification for building roadways or ruining viable neighborhoods!

Second, it doesn't seem logical or reasonable to build a third north/south roadway in such close proximity to two others (Metro and Six Mile Cypress) when that is not the norm elsewhere; E.g. the distance between Summerlin and Cleveland and Cleveland and Metro, or east/west arteries, such as Colonial and College Parkway or College and Cypress Lake, or Colonial and Daniels, etc., etc. Why try to squeeze a Palmetto-Plantation roadway in between two other major roads?

Third, it only makes sense to take advantage of the least disruptive ROW available to help alleviate perceived or projected traffic flows, VIZ: Six Mile Cypress. Like in the movie "Field of Dreams," I say: built it and they will come! Make it eight lanes to help lower Metro's LOS if that is such a grave concern. There is virtually nothing in the way to preclude a magnificent roadway from Daniels north to Colonial or even to MLK, and much of the land appears to be either in county ownership already or easily obtained, with few, if any, buildings to demolish, or, ruin in the process.

Comments: After attending this information session, I doubt more than ever the need for the extension of Plantation Road at this time. The obvious immediate course of action should be the widening of the existing roads, Metro Parkway & Six Mile Cypress Parkway. Metro Parkway could also be extended north if that is seen as a need. I was told that Metro Parkway is a state road, and Lee County has no control over when it will be widened. I feel that the state and county governments need to begin working together to meet the traffic/road needs of Floridians. It would seem to be common sense to widen & extend the existing roads before building a road through the woods. Unless of course, this plan is for the taxpayers of Lee County to once again build a road to benefit the land owners & developers. In this case, it is obvious to all that the landowners & developers of the property at Metro & Colonial will see property values skyrocket after we
(Attach additional sheets if necessary) build a road to open up the property to development.

Comments:

Preference #1 : The state and county work together on first widening Metro Pkwy. and Six Mile Pkwy. which are already established North/South corridors that do not have direct impact on a residential neighborhood. Although this has been evaluated to not meet traffic needs sufficiently, I think plans to extend Plantation should be put on hold until the traffic congestion becomes an immediate and current concern.

Preference #2 : Extend Plantation Road and widen Six Mile. However, Plantation should be kept at two lanes and at a 35/40 mile per hour speed limit. Sufficient buffering must be provided between road and Oakbrook. Plantation Road at its current state is not that heavily traveled. I feel strongly against four laning ~~and~~ the extension due to the fact that it does not seem necessary unless increased traffic flow is desired. We definitely

(Attach additional sheets if necessary)

don't desire this alongside our residential significant community.

Comments: The residents of our subdivision are concerned with several items associated with the proposed connection of the Plantation corridor to Colonial and the proposed 4-lane improvements.

Safety and noise are big concerns due to the density of SF residences along this Plantation corridor - especially from Crystal south to Daniels. Traffic speeds through here now due to minimal presence of law enforcement. Cars frequently pass turning vehicles by using the central turn lanes. I know of 2 head-on collisions due to this and have personally had a near miss that was way too close! Currently truck traffic is limited to delivery vehicles only. If 4-laned I'm sure these restrictions would be lifted greatly increasing the noise and potential for major accidents.

Increased through traffic would be the other main concern. This being primarily a residential corridor between Idlevild and Daniels increased traffic is going to affect this area in a negative way. With the long straight road & no traffic signals (now) we are concerned this will become a race track. If law enforcement would become more visible & proactive we could slow down the existing traffic. A traffic signal at Crystal-now-would be a help.

We understand the need for smooth traffic movement, with minimal congestion, but we are concerned that we will lose the peace & quiet safety we & our children have now.

(Attach additional sheets if necessary) There are a lot of bikes & pedestrian users of the roadside bike lanes now. Will we lose those? Will the county plant vegetative buffers or install noise barriers in

Thank you for taking time to participate in this Public Information Meeting areas adjacent to the residential subdivisions? We only have so residents & couldn't afford the works necessary to buffer the expected noise.

Comments: When we purchased our home in Emerald Pines 3 years ago we had 2 young children. We felt that this was an area that we could let our family grow even more. Now we have another baby on the way and are just sick about the idea of ~~the~~ Plantation being widened. That means - to us and so many other families that our backyards will be even closer to the road!! 😞 We, as I am sure so many others are - concerned about the safety and well being of our children and those children that live in the neighborhoods along Plantation!! There is always the concerns - for children that ride the bus to and from school. You are now going to put those children at a greater SAFETY Risk by adding more traffic to our residential area. Please don't let this happen to Plantation. It is such a nice street to Drive and will be such a mess to change!!!

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Adding another traffic light on Colonial will cause reduced traffic flow. In lieu of
adding a new intersection to Colonial, I would propose spending our resources on
eliminating idle traffic by the construction of Colonial over passes for Fowler St., Metro
Parkway and Six Mile Cypress Parkway. Likewise for Daniels Parkway. By creating these
interchanges traffic lights could be eliminated and traffic would be continuous. I would
complete the four lanes of Six Mile Cypress and Ortiz to Palm Beach. And press the state to
move forward on its plans to up grade Metro and its extension to the Caloosahatchee
I am opposed to connecting Plantation to Palmetto. I am opposed to connecting
Plantation to Colonial and I am opposed to its 4-lane expansion as well. The responsibility
for the lack of good planning by our elected officials, past and present, should not be borne
by the residences along this road. Nor should we continue to throw good money after bad.
Eventually the homes in this area will out live their usefulness; then may be the time to
consider this plan.

Thank you for taking the time and considering my recommendations.

Address 6491 SCOTT LANE
City FT MYERS State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: My property runs along Plantation Rd. You
want to speed up traffic and add more traffic
to this already dangerous road. I commented at
one of these meetings about stop lights or stop
signs on Plantation Rd to slow down speeders and
make driving safer. Try getting out of a side street
at 8 AM or 5 PM to get onto Plantation Rd! I'm all
for progress, but put it where it belongs in a
less populated, non residential area. Look at all
of the property to the east of I-75, put some roads
there running North and South.

(Attach additional sheets if necessary)

PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name DIANE ALLENBAUGH + CRAIG ALLENBAUGH
Address 10649 FAIRVIEW STREET
City FT. MYERS State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: FOR MORE THAN 10 YRS I'VE HEARD OF THE METRO
EXTENSION TO ALICO. THE EXPANSION OF ATEC METRO FROM
N. FT. MYERS TO ALICO AND A WITH AN ADDED ACCESS TO I-75
IS THE #1 PRIORITY. SECONDARILY IS THE EXPANSION OF 6 mile
CYPRESS. THERE APPEARS TO BE NO BENEFIT TO SPEND COUNTY
+ FEDERAL FUNDS TO EXPAND + WIDEN PLANTATION. METRO HAS ALWAYS
BEEN A COMMERCIALLY DRIVEN RD. WITH ONLY FEW MULTIFAMILY
FACILITIES. PLANTATION DOES NOT HAVE ENOUGH EASEMENT TO WIDEN
THE ROAD WITHOUT ADVERSELY AFFECTING RESIDENTIAL PROPERTIES
ESPECIALLY THOSE PROPERTIES IN SUBDIVISIONS AT EASEMENT LINES
SIX MILE HAS LARGE AMOUNTS OF UNDEVELOPED LAND EASEMENT
FOR EXPANSION AS DOES METRO.

PLAN B IS THE ONLY RESOLUTION.

THE COUNTY'S FAILURE TO PUT + UPHOLD MODIFICATIONS AFFECTING
6 mile + HERITAGE PALMS THIS MAY NOT BE THE ISSUE TODAY.

Address 6341 - Dragon Way #103
City Ft Myers State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I choose Alternative "B". I feel there is no need whatsoever to infringe upon the homeowners of Plantation the ugliness of a 6 lane highway. Plantation Rd is a beautiful road with very nice homes & to put in a heavy traffic road right in the front yards of those ~~home~~ homeowners is completely unnecessary. ~~I~~ I use metro Pkwy every day & it is not at all heavily used. There is absolutely no congestion on metro. What is the need to place yet another 6 lane highway so close to one so little used? What is the need? Obviously, the people of the Plantation area do not want ~~to~~ Alternative "A" to become a reality. It is those homeowners who will suffer the consequences so let our ~~wishes~~ ~~be~~ wishes be the wishes granted

City Fort Myers State FL Zip Code 33916

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am actually opposed to alternative A, we are in the
process of building a new home in Colaba. This is a very quiet
neighborhood as it is possible is. If traffic flow is the main concern
it recommend alternative B. The flow of traffic on Metcalf Hwy,
can be a little extreme as we are close to Colaba, which
could be reduced by adding more 2+4 lane lanes off Metcalf
to Colaba. If that would not a possibility then alternative
B is the best answer. as there is much work for development
on the Metcalf Express way

Address 6881 Eagle St.
City Ft Myers FL State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The traffic on Plantation is already moving to East -
My Family thinks that 4 lanes will increase traffic speeds even
faster.

We live in Oakbrook and have our neighborhood and we do not
believe in what you want to do to our community.

What you are trying to do will not slow down the traffic that
goes to McGowan Baptist Church - Reading room sign - Speaking shop
the neighbor had to save a few minutes all at these driving times.

Totally Agree this

Comments: DO NOT WANT PLANTATION 4-LANED. THERE ARE OTHER
ALTERNATIVES WHICH WOULD HELP ALL OF LEE COUNTY - NOT
JUST COMMERCIAL PROPERTY OWNERS.

AT THIS TIME NO-TRUCK TRUCKS ARE ALLOWED AND FOR
GOOD REASON. SO WHAT WILL CHANGE THIS REASON?

OTHER PROBLEMS - SPEEDING, MORE TRAFFIC, ACCIDENTS,
TRUCK TRAFFIC IN A RESIDENTIAL AREA.

SIX MILE SHOULD BE SIX-LANED AS SOON AS POSSIBLE

MAYBE THERE IS A WAY PALMETTO - COULD TURN EAST
OFF COLONIAL MEETING UP IN SOME FASHION WITH
SIX MILE.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: ALT. B!

WIDENING OF PLANTATION TO 4 LANES WILL:

1) DE-VALUE OUR RESIDENTIAL COMMUNITIES

2) ENDANGER CHILDREN @ BUS STOPS - (MORE TRAFFIC & HIGHER SPEEDS, TRAFFIC CHANGING LANES etc will BE MORE DANGEROUS DESPITE THE SIDEWALKS AS BUS STOP CONGREGATION AREAS)

ALT. B WILL WIDEN EXISTING ROADWAYS THAT CURRENTLY ARE NOT RESIDENTIAL AREAS. ∴ TAXPAYERS PROPERTIES WILL NOT BE DE-VALUED.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I request Alt. B. No plantation Rd extension or 4-lane.
6-lane Six Mile Express & Metro. Plantation Rd. is a residential area
not an area for super highways. Children get dropped off to go
to car from schools. Houses are right on the road already, valves will drop.

Alt. A+C should be modified. Metro is an Industrial/Commercial
zoned area. If enough traffic is on it, then 8 lane it.
The county needs to have residential & commercial areas separated.
No one wants to live next to a 4 lane Rd. 8 lane Six Mile
there are no cross streets, and it was right off the Interstate
by Collier P. No houses would be significantly impacted by widening
Metro or Six Mile.

Please do not add the Plantation ext. & 4 lane project.
There are other alternatives.

Comments: I would like to request Alternative
B.
Plantation not a wide variety of
residential areas along its side. Many
children play near the road, especially
in the Oakbrook area. This road was
not designed to be 4 lanes, nor 6.
I am worried that the traffic on
Idemulca will soon become stranded as
well.
Will there be a light @ Idemulca
and Plantation?
The interstate can't be 6 lanes. Why
would we do that through a neighborhood?

Comments: Other Alternatives like Option A & C would cost
Our Community A great Deal of Harm, pollution, and
of course Money

I will hold you liable for any damage costs to
Our Community

Option B is the Only Choice

Comments:

HOME LOCATION ON PLANTATION RD. VERY NOISY NOW! BECAUSE OF
VOLUMN AND SPEED OF TRAFFIC.

TO SLOW TRAFFIC DOWN FOR NOISE AND SAFETY OF RESIDENTIAL RESIDENTS
RECOMMEND TRAFFIC LIGHTS AT CRYSTAL AND IDLEWILD INTERSECTIONS.

SOUND BARRIERS OF SOME KIND - - -

BLOCK OFF ACCESS to light industrial businesses to plantation road to
stop heavy truck (Large) traffic. Truck now use plantation to avoid
lights on METRO

My Opinion - when plantation rd becomes 4 lanes, the road will be
reclassified LOS F status and 6 mile cypress will be
widened to 6 lanes anyway.

(Attach additional sheets if necessary)

Comments: Living on Plantation Rd I always feel there's
too much traffic to keep safe for Rodolmans
Dot's children, school buses. We should be trying
to keep a volume of traffic out of residential areas
to ~~bring~~ ~~the~~ lane Metro and Six Mile bypass
makes the most sense. This area ~~is~~ has
enough land and expansion to widen. There's
areas that don't have enough room and
land to widen Plantation. Plantation is a growing
residential area. expanding or widening it
will bring not only traffic but accidents to
a prime in this area. Keep the traffic out!
of residential areas and the crime out too!

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: ~~None~~ ^{ONLY} the Alternative B plans appeal to me. The extension of Plantation Road would increase the traffic flow tremendously in a residential neighborhood. There are two main thoroughways that could be widened to accommodate the increase in traffic - Six Mile Cypress and Metro Parkway. Both are in industrial areas where the noise of traffic would not be a problem. And Six Mile definitely has the room to eight or ten lane use. I currently live where ~~my~~ Plantation backs up to my back yard and every night I am awakened by motorcycles. Just to add cars driving by to width and increase traffic flow would be a nightmare for many people.

Comments: I FEEL THAT ALTERNATIVE "B" MAKES THE MOST SENSE.
AND METRO PARKWAY AND SIX MILE CYPRESS SHOULD BOTH GO TO 6 LANES
BOTH OF THESE ROADS GIVE YOU GOOD NORTH TO SOUTH FLOW WHICH
BASED ON YOUR MODELS IS YOUR GOAL. ~~BOTH~~ BOTH STREETS ARE
CURRENTLY LOADED WITH COMMERCIAL BUSINESSES ESPECIALLY METRO
PARKWAY. THERE IS ONLY 1 RESIDENTIAL AREA CURRENTLY ON 6 MILE
CYPRESS WHICH IS THE C.C. (HOSPITALITY FARMS) OF WHICH NO HOUSE
IS WITHIN 100 YARDS OF 6 MILE CYPRESS PARKWAY. I DON'T UNDERSTAND
WHY YOU WOULD WANT ~~TO PUT~~ TO PUT 4 LANES ~~IN THE~~ (PROBABLY
5 WITH TURNS) IN THE MIDDLE OF RESIDENTIAL AREA OF WHICH
SEVERAL OF THE DEVELOPMENTS CURRENTLY ARE ALMOST ON PLANTATION
AS IT IS. AS IT IS THE NOISE IS HORRIFIC FROM CARS AND I
CAN'T LET MY KIDS PLAY IN MY FRONT YARD FROM FEAR OF GETTING HIT
BY A CAR. WHAT HAPPENED TO THE OLD ALTERNATIVE PLANS? WHO'S PAYING FOR
WHEN? I HOPE YOUR NOT PAYING THE IDIOT(S) WHO WOULD SUGGEST
THIS (PLANTATION WIDENING)? KEEP IN MIND PLANTATION HAS APPROX. 7
RESIDENTIAL DEVELOPMENTS WITH THOUSANDS OF FAMILIES AND HUNDREDS OF KIDS
YOU CAN'T SAY THAT ABOUT 6 MILE CYPRESS OR METRO.

(Attach additional sheets if necessary)

PLEASE KEEP PLANTATION A RESIDENTIAL

Thank you for taking time to participate in this Public Information Meeting

AREA. THIS IS WHY THE PEOPLE WHO
HAVE BUILT THERE DID. IF YOU WANT TO 4 LANE
PLANTATION, CONDEMN ALL THE HOUSING AND REZONE IT
TO COMMERCIAL BECAUSE THAT IS WHAT YOU'RE ENCOURAGING
AND PROMOTING.

Sincerely,
J. W. [Signature]

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The proposed widening of Plantation Rd is a disaster! The residential homes which promote child proof trees will make it a problem to children. Accidents the increase in traffic and noise. Drivers should be able to handle all traffic at the planned speed. Already the volume of traffic to Plantation has increased. Residents near the plantation are a residential area where concern for all is a must. To provide the environment we expected and are entitled to have not residential of these communities.

What do the many churches on Plantation say? What will they do to these congregations?

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I AM OPPOSED TO THE 4 LANING OF PLANTATION RD
FROM DANIELS PRY NORTHWARD. THE VOLUME OF TRAFFIC
AND ITS RELATED NOISE AND POLLUTION ADJACENT TO THE
EXISTING COMMUNITIES WOULD NEGATIVELY IMPACT THE
ENVIRONMENT AND QUALITY OF LIFE. IN ADDITION, THE INCREASED
VOLUME OF TRAFFIC ON THE ENLARGED ROAD WOULD MAKE
ACCESS TO THE AFFECTED COMMUNITIES MORE DIFFICULT AND
HAZARDOUS.

THE INCREASED N-S ROAD CAPACITY SHOULD BE OBTAINED
BY ENLARGING EXISTING ROAD WHICH DO NOT HAVE ADJACENT
EXISTING COMMUNITIES. METRO PRY AND SIX MILE EXPRESS
ARE ROADS THAT MEET THIS REQUIREMENT.

Comments: I find the proposition of Plantation rd. an outrage. As a relatively new resident to the Wellborns I really enjoy its somewhat seclusion. I am really not seeing the need for widening this rd. It seems to that Metro or Six Mile express would make much more sense. Plantation is for the most part a residential area which I like. I have watched the slide presentation and think that Alternative plan B is the way to go.

Comments: ALTERNATIVE B is the best solution. Six mile Cypress should be six lanes as well as Metro. Please leave the congestion on these roads. Our neighborhood will be ruined and only add to the confusion. Six mile has been built & not used to its full potential by not four laning Plantation you will force traffic to use Six mile and leave our neighborhoods in tact. Don't make our community into another Miami.

Comments: I AM ABSOLUTELY AGAINST THE PALMETTO
EXTENSION TO PLANTATION AND THE SUBSEQUENT
WIDENING OF PLANTATION.

THIS IS PRIMARILY A RESIDENTIAL DISTRICT
AND ALLOWING THE INCREASED TRAFFIC IS
NOT IN OUR BEST INTEREST YOU HAVE NOT
MADE THE CASE THAT WITH 6 LANES AT
SIX MILE AND AHEAD A 11 LANE PLANTATION
IS REQUIRED !!!

IT ALSO SEEMS THAT US HIGH WAS ASKED TO
CONVINCE THE COUNTY TO REPEAL PART OF
THEIR LAW WHICH AUTOMATICALLY REMOVED AN
ALTERNATIVE TO THE NORTH / SOUTH TRAFFIC
ISSUE. IT'S TIME THE COUNTY PLACED ITS
CITIZEN'S AHEAD OF BIG DEVELOPERS.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Alternative B is the only acceptable
solution because it maintains the
integrity of the area without
compromising the area with additional
traffic pumps at Daniels Plantation
light and with the increased traffic
flow a huge ~~drop~~ rise in crime
will most likely occur.
Is the county prepared to
handle financially the repercussions
of additional police, accidents,
and ~~depreciation~~ depreciation of property
value? Children at high risk?
Metro is already an industrial/
commercial area acceptable for widening
the road.
~~Do not~~ Do not ruin this area!
Use Metro!

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I propose that you choose alternative B which rejects any access of Plantation Road to Palmetto. We have been fighting the extensions affecting Oakbrook for quite some time. We sold our ~~former~~ house and rebuilt in oakbrook because it is a great location and because of all the neighborhood around us. People walk their dogs, ride bikes and roller blade down Plantation Rd. There are many bus stops on Plantation. All this would be affected with the increase of traffic through our residential neighborhoods. There have been newer developments on Six Mile Cypress which could have had an access road to N/S but nobody is pushing it now because they have a big corporation behind it and we need to consentate on I 75. Why start you going through with the proposal to 10 Lanena I 75? This would make it the hurricane evacuation route. You have enough land already to do it.

Comments:

Please remember to keep in mind the residents and others who live along this project. Another high speed, high volume highway is not good for the community, esp. pedestrians, cyclists, and ~~also~~ those living nearby.

Also, although not part of this hearing/open house, the crossing of North Colman Canal & Linear Park is part of the overall project. Please do not cross the linear park at-grade because it will destroy its integrity, even if a ped overpass is added later. The park existed prior to the road extension & should be first priority.

Comments: PLEASE, 6 LANE 6 MILE EXPRESS WITH OVERPASS AT COLONIAL, DANIELS, 41, ETC. SEND THE TRAFFIC AROUND ON THE "BELTWAY" TO ALL POINTS, EVEN INTO SOUTHWEST CAPE CORAL. LEAVE A SMALLER VOLUME OF TRAFFIC ON ROADS LIKE PLANTATION, HIGHLANDS, PENZANCE, FOR RESIDENTS ONLY. DESIGN TRAFFIC FLOW FOR RESIDENTS OF THAT AREA TO GET TO AND FROM THEIR NEIGHBORHOODS, AND NOT A STEADY FLOW OF HEAVY TRAFFIC THROUGH RESIDENTIAL AREAS.

PEOPLE WANT AND DESERVE SOME PEACE AND QUIET AFTER WORKING ALL DAY. THE ROAR OF TRAFFIC AS YOU TRY TO RELAX IS NOT VERY PLEASANT. KEEP HEAVY TRAFFIC ON COMMERCIAL ARTERIES, 6 LANE THEM OR WHATEVER, LEAVE PLANTATION ROAD AS IS, PLEASE

Comments: I am strongly opposed ~~to~~ to the 4 laning of
Plantation. If it is 4 laned it will be extremely dangerous
to our neighborhood. My neighbor was almost killed while
waiting to turn into Plantation Pines. I dread to think how
much traffic there will be to enter and leave my subdivision
safely.

I originally bought my house because it was in a
quiet neighborhood. In the past five I have noticed a
definate increase in the traffic noise. My neighborhood is
no longer peaceful!! 4 lanes on Plantation would be
a further deterioration with increased noise pollution.

We must have Alternative "B"

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I really question your studies - let's see on Six Mile Cypress and metro would more than handle traffic flow and future growth. Why should the area suffer just for the county if increase their tax base. There is plenty of other land available. Is US Home going to pay for all the damage they will have caused because the county allowed them to overturn the previous plan? Let's think about the traffic issues this will cause to children in this area. Is the county prepared to handle the potential hazards this will cause. I don't believe so. You must go back to the plan before US Home rezoned a conservation area. What is more important ~~set~~ safety or conservation. You have allowed too many developments in this area to now change the roads. Why do you have all need for all these north south routes but don't need any east west. Get off it all you want is the tax dollars!!

(Attach additional sheets if necessary)

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: With the large # of homes off of Plantation Rd I do not want to see the volume of traffic to increase, at all - The SAFETY of our children is 1st and foremost -

If we must choose an Alternative "ALTERNATIVE B" is the only thing that I will support, as there are few neighborhood completed at this point on Six Mile - I feel that if your going to increase, that lead then those neighborhood in the development process should be REQUIRED to inform any potential Home owner of that possibility not something that happens after.

DO NOT Widen OR connect Plantation TO COLONIAL

(Attach additional sheets if necessary) SAFTY is more important than \$\$\$

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Makes more sense to widen Six Mile Cypress &
Metro & keep traffic flowing on existing streets
Keep the traffic on the business streets as they utilize the area
Do not put more streets thru residential areas.

Deer Run residents can block off their street & stop the
traffic they don't like.

We maintain the streets not the County

Alternation B is workable. That will open the land up between
Metro & the Oakbrook Subdivision that someone wants open.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: THERE IS ABSOLUTELY NO REASON FOR THE PLANTATION EXTENSION. IT MAKES MORE SENSE TO MAKE 6 MILE CYPRESS 6 LANES TO CONNECT TO SR 82 AND THE INTERSTATE. METRO SHOULD BE MADE 6 LANES INTO DOWNTOWN FT MYERS. METRO COULD THEN BE CONNECTED TO BUS 41 OVER THE RIVER.

THE LAND ON PLANTATION IS ALREADY FILLED WITH HOUSES OR BUSINESSES. THE ONLY REASON TO DO THIS PROJECT IS TO BENEFIT DEVELOPERS WHO HAVE LAND BETWEEN EDWING ROAD AND COLONIAL. THE DEVELOPERS CAN SHOW SOME INITIATIVE ON THEIR OWN AND USE THEIR MONEY TO BUILD A ROAD OFF METRO. I AM TIRED OF MY TAX DOLLARS BEING USED TO BENEFIT THE COMMISSIONERS FRIENDS

Comments: WE CHOOSE ALTERNATIVE "B"

I've been living on Mantative Road for more than 15 years now! First in Plantation Pines and now in the willows. We built our homes here, because although there was "light" industrial across the road, the neighborhood was still considered "rural" and promised to be a wonderful place to raise our family. Construction came thru the years & the vegetative barrier that was supposed to block the industrial became smaller & smaller. & NOW you want to build a 4 lane highway in front of our developments! This is outrageous! Children stand on this road waiting for school buses and walking their dogs.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am strongly opposed to 4-laning Plantation for the following reasons:

1. I live in Brookshire and already find it difficult to get on Plantation. It will be impossible if 4-laned.
2. Home on the West of Greywood Circle back up to Plantation - property line is only a narrow ditch from roadway. Will owner property be condemned to obtain land for the widened road? Expansion to the West will be under the High power line.
3. Plantation is only access for most of the developments along Plantation. Each will need a traffic light to get onto a four-laned Plantation.
4. The industrial traffic of Metro is being relieved by diversion into a basically residential roadway.

Comments: As a property owner within 300 feet of the Plantation Rd, I am definitely opposed to the Plantation / Palmetto connection as well as the widening of the Plantation Roadway.

I travel Plantation Road daily and sometimes several times a day. I also jog bike and walk Plantation Road as often as I can. Widening the road would cause an unsafe situation for all who use the road including the young children of the 10 surrounding neighborhoods who already audit School Buses in the early hours.

Alternative solutions would be to widen Six Mile Cypress and Metro Parkway. Wouldn't it be logical to widen roads that have industrial / Business Property instead of the destruction of neighborhoods and families

Comments: I oppose to the Plantation - Palmetto extension. Plantation Road is a residential area, why do you want a major roadway running through here? We have bus stops where children are being picked up do you want more traffic fatalities in Lee County. Find other alternatives to your road way system. Widening & extending six mile Cypress + Melrose Parkway makes more sense to me. I sure hope you take this into consideration, please leave Plantation Road the way it is, it's a beautiful residential neighborhood, don't make a major roadway out of it. Please choose Alternative B.
Thank you.

Comments: I Do Not Want any extension of
Plantation to Palmetto. I Do Not want Plantation
4-laned. Plantation Rd is Residential.
Residents of these areas walk, jog, ride bikes, and
kids rollerblade & skate board.
A better alternative would be to hook up
the Palmetto Extension East-West to Airport Rd.
This would relieve congestion on Colonia and the
developer of the vacant land this crosses would
still have created road frontage. This would
also protect the residential nature of Plantation.
All growth in the County is South & East.
Any more major North-South Rds should be
planned now for these areas.

Comments: Plantation is a residential area with numerous communities, churches, and schools. Expansion of plantation Road would present traffic hazards to the communities and children residing in this area.

The residential communities don't require an extension to Colonial Blvd. This extension would only facilitate out-of-area traffic through our community. There is sufficient north-south access via Metro (which is a commercially zoned area, 3.6-mile cypress).

Of the three alternatives I would greatly prefer
Alternative (B)

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am in favor of the 2020 Network Alternative B. This alternative would be the least detrimental to the residential neighborhood in the area. At this time Plantation is a no through track zone due to the residential area, ~~the~~ Plantation is extended the residents that use will be at great risk riding bikes, jogging, at bus stops, ect. Also noise levels would be increased in the area with no buffer walls or berms. By looking at the models it shows traffic being taken away from US41 and transfer to Metro, which cause the increase of traffic in the ~~the~~ Plantation/Metro area.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I'm very disturbed at the prospect of Plantation Rd. being widened to four lanes. My small backyard in Brookshire is shallow now & should the development take part of my yard the fumes from four lanes would be unbearable to sit on my lanai, not to speak of the noise from all the traffic, sirens, etc. My back yard backs up to Plantation, & I feel this would be a terrible mistake to infringe on the rights of residents whose property lines butt up to Plantation Rd. To widen on Metro Pkwy where it wouldn't take property away from homeowners & pollute their environment & also Six Mile Cypress where there is plenty of land on both sides is the much wiser choice. I have chronic bronchitis year round now & sitting on my lanai would be a health hazard if widened to four lanes. It's environmentally unsafe & would decrease the value of my home should part of my back yard be removed. Real estate agents already state my yard is less valuable than those not backing up to Plantation.

Comments: I object to the proposed 4 lanings of
Plantation Road to Palmetto Ave. There are
ten residential communities from Idelwild to
Daniels Parkway. I feel the increased traffic
will bring increased speed and be a safety
issue for families and their children. In
addition once Plantation is cut through to
Palmetto Ave. I fear that it will continue north
bringing even more traffic. Plantation is a
residential road and should remain so.

Comments: I choose alternative B as an acceptable solution to the handling of the traffic problem. Many subdivisions are built along Plantation Road with families and young children as well as retirees. We do not need to bring additional vehicles along Plantation Road when six lanes on Metro and six mile Cypress Parkways could handle the traffic and these roads surround business areas rather than invading housing development areas such as Plantation Road.

Comments: I select alternate B,

1- When will you start widening 5 1/2 mile Cypress? This could be done without impacting peoples existing homes as the set back appears to be there already.

2- I don't think enough thoughtful planning has been done on Plantation Rd. What about the school buses everyday (during the school year) that drop off children & they cross the road in front of the bus?

3- I think it is time for the Commissioners to start thinking about how to protect the homes in the plantation / 5 1/2 mile cypress rectangle. Looking at the maps - why in the world would you want to destroy this rectangle of homes, bordered by primarily commercial areas? It should be easy to see looking at your maps. Why would you want to destroy the peace of these neighborhoods. Then I guess you'll want to bring 400 tram buses down from the northern city to Plantation! What a waste.

LEE COUNTY DEPT OF TRANSPORTATION
C/O CELLA & ASSOCIATES
2125 FIRST ST, SUITE 201
FT MYERS, FLORIDA 33901

TO WHOM IT MAY CONCERN:

I attended the open house re-Plantation/palmetto corridor last evening. After careful review and study I have reached the conclusion that someone's thinking is very flawed.

You are recommending joining PALMETTO AND PLANTATION ROAD to form a north south corridor. We already have this in six mile cypress parkway which is not being utilized to its fullest. Six laining of six-mile cypress from palm bch Blvd to U. S 41 would give you a true corridor that goes somewhere. Where you are proposing to intersect Palmetto with Palm Bch Blvd makes absolutely no sense. You will have to go down a one way street and turn left or you will have to go down another one way St and turn right. There is nothing there. It does not line up with the new bridge or anything else.

I cannot support the joining of Plantation and Palmetto in any way, shape or form.

I support the six laining of both Metro pky and Six-Mile pky as this make common sense.

As a life long resident I recall many of these type proposals and the flawed thinking that went with them. The greatest one that comes to mind is state road 869. For you newcomers they now call that Summerlin Road. I was at a public hearing just like this one when we were promised that Summerlin road would be a limited access road with exits only at Colonial, College Pky, Cypress Lake Dr, and Gladiolas dr. The rest is history. I could name many others but you get the idea of my concerns.

Please, please use some common sense before its to late.

Thank for your understanding in this matter and I remain,

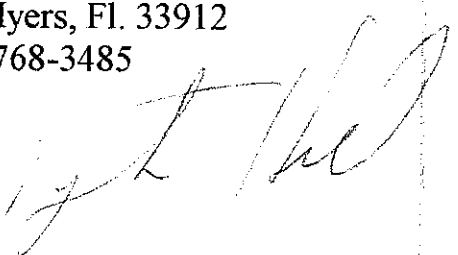

Yours truly

Tyler Hill

Comments: THE FOUR-LANING OF PLANTATION ROAD IS UNACCEPTABLE
TO THE RESIDENTS OF THE ADJACENT NEIGHBORHOODS. WE DO NOT
WANT THE EXTRA TRAFFIC ON OUR LOCAL ROADWAY.

THE ALTERNATIVES PRESENTED DO NOT ADDRESS POTENTIAL
IMPROVEMENTS THAT COULD BE MADE TO THE EXISTING MAJOR
INTERSECTIONS. BY IMPROVING TRAFFIC FLOW AT THE
METRO PARKWAY - DANIELS PARKWAY INTERSECTION AND AT THE
SIX MILE CYPRESS - DANIELS PARKWAY INTERSECTION, THE NORTH-SOUTH
TRAFFIC CAPACITY COULD BE INCREASED, AND THE NEED FOR THE
FOUR-LANING OF PLANTATION ROAD COULD BE POSTPONED OR
ELIMINATED. TRAFFIC FLOW AT THESE INTERSECTIONS COULD BE
IMPROVED BY CONSTRUCTING OVERPASSES WHICH WOULD ALLOW THE
NORTH-SOUTH TRAFFIC TO TRAVEL OVER DANIELS PARKWAY WITHOUT
STOPPING. THE EAST-WEST TRAFFIC FLOW ON DANIELS PARKWAY
WOULD ALSO BE IMPROVED. THIS ALTERNATIVE WAS NOT
PRESENTED, AND ACCORDING TO THE DOT ENGINEERS, WAS NOT
SERIOUSLY CONSIDERED. MORE ALTERNATIVES, PLEASE!!!

Comments: We live in Brookside, and our back yard fronts right onto Plantation with our bedrooms in the back side, per what street is the same. Faster laning Plantation, thereby allowing more traffic, would be a real hardship for all of us. Therefore we prefer Alternative B because Plantation has mostly residential properties.

" Alternative B "

Comments: REZONE CONSERVATION AREA RATHER THAN
DISTURB OUR QUIET LIVING AREAS

OUR HOMES ARE TOO CLOSE TO A HIGHWAY OF THIS TYPE.

THIS TYPE OF ROAD WILL DECREASE PROPERTY VALUES

Comments: I AM AGAINST WIDENING OR EXTENDING PLANTATION
ROAD IN ANY WAY. THIS IS A HEAVILY RESIDENTIAL
ROAD WITH SOME LIGHT INDUSTRIAL IN PLACES. THERE IS
ABSOLUTELY NO REASON TO CONNECT OUR SOUTH/RESIDENTIAL
NEIGHBORHOODS WITH THE NORTH + HEAVILY
RESIDENTIAL NEIGHBORHOODS.
WIDEN METRO + 6-MILE CYPRESS.
DO NOT EXTEND OR WIDEN
PLANTATION ROAD.

Comments: We are strongly opposed to this project. Plantation road is residential area where families live. As a resident, I often run along this road and have a child who waits for the school bus. I trust our commissioners can find a better route to ease traffic and our confident in their abilities. This project must not go through.

Comments:

We do not feel that any changes on Plantation Rd. should be made. We think there is too much traffic on Plantation Rd. now, let alone with more traffic.

We have a very hard time trying to get out of our development (Highland Pines Estates) ever since the extension of Plantation was made to 6 miles. The speed limit is now 45 MPH on Plantation Rd. and we wish it was brought down to 30 MPH.

Plantation Road is not a high speed road and it will be a danger to all residents that live off of Plantation Rd. if you go with your plan of extending Plantation Rd.

We pick Alternative "B"

Comments: Implement ALternative B !
We on PLANTATION Rd do not need more Traffic and those of us facing the Rd do not need speeding traffic in our backyards.
Speeding is already a problem with very little police surveillance.
Six mile Cypress is a much more logical choice for widening without interfering with homeowners and churches.
I'm confident that once Six mile Cypress is 6 lanes, Metro will get relief exo facto!

Comments: we do not feel that any changes on
Plantation Rd should take place at all,
There is too much traffic on this Rd, already,
The developments in the area, are ~~just~~ hard
to get out of as it is, there is enough traffic on
the street already, the apartments on Daniel Plantation
all use this Rd, and now we have a housing development
being built on Plantation that will bring more
traffic. There are a lot of speeders on this Rd. also.
To do a major project like that, will not be
acceptable to our Homeowners.

Thank You
M.W. Steen

we like Alternative B

Comments: As a resident of the Plantation Road area, I am very upset to learn of the plans to widen and extend Plantation Road. We purchased our property because of its convenience and its quiet residential characteristics. The current plans for Plantation would destroy the residential feeling of the area by bringing noise and heavy traffic consisting mainly of non-residents. Convenience would be ruined also due to the difficulty of accessing our neighborhoods because of increased traffic. As a taxpayer and a registered voter, I object to this attempt to devalue my home and property in this manner. Alternative B is clearly a better choice.

Comments: Plan "B" is the only Alternative for us.
Plantation runs through & attaches to all residential neighborhood.
It is impractical to extend it & widen it to a major
connector. 6 mile is ready to be expanded AND Metro
must also be expanded & open to MCK. These 2 are
the obvious commercial routes.
Plantation has school buses all morning &
with the new development on Plantation's east side just
north of Penzance there will be even more children
& school busses -
Trying to transform Plantation into a corridor
will create dangerous traffic through a residential
area - This will also allow through trucking!!
STAY AWAY FROM PLANTATION!!

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Objections to proposed changes to Plantation Road

1. Metro Parkway is presently a commercial road. Six Mile Cypress is a commercial

throughfare. Plantation Road is a residential throughfare and should remain as such.

2. Four lanes on Plantation would increase danger to children waiting for school

uses.

3. Speeding would certainly be a problem.

4. Noise and traffic would increase substantially.

5. Property values would be affected in the 10 residential communities.
