FULL SERVICE CART MAINTENANCE

City of Tucson/National IPA

August 1, 2014 - October 31, 2014

This service is intended to ensure that all newly purchased, City-owned Toter Carts remain in complete working order and that the City can accurately budget its annual cart program cost.

1. Toter must provide field repair or replacement of all City-owned Toter Carts requiring maintenance service and deliver new carts to new residences within five (5) business days of receiving an electronic written work order from the City.
2. Toter is responsible for all repair or replacement cost, regardless of the cause of the maintenance problem (except fire, loss, theft or vandalism), including the cost of parts and City approved replacement carts.
3. Should the City choose to allow a resident to request "swap" of the cart size at his residence, Toter will retrieve the old cart and deliver a new or approved used cart provided by the City. The cost for each cart swap will be billed to the City at the end of each month.
4. Carts that are reported stolen or lost or are damaged due to fire or vandalism will be replaced by Toter with City provided carts.
5. The City and Toter will coordinate the submittal of periodic reports as required by the City to monitor the performance of the service program. The City will, at no cost to Toter, make space available on its yard and one small office space for Toter to operate this service from.
6. The contract shall extend for a period of from 1 to 10 years, at the City's discretion, with the City paying the contractor, in arrears on the first day of each month, a fee for each cart in service. Maintenance service on an additional cart delivered after the first day of a new month will be billed to the City, beginning on the first day of the month following the delivery to a resident. The contract shall be renewable in one year increments by mutual agreement of the City and the contractor.
