

# Planning Process Questions

- 1. What do we need to do?**
  - a. Identify only one issue/item here.
  
- 2. What do we need to do it?**
  - a. List all the resources, tools, etc. that you will need to complete the task identified.
  
- 3. What do we already have?**
  - a. List all the resources, tools, etc. that you currently have to accomplish the task.
  
- 4. Is what we have enough? Are our goals feasible?**
  - a. Identify where you have abundance and where you have deficits. Based on that analysis, identify if you need to adjust your goals or your resources.
  
- 5. How do we gain access to the available resources, and how do we get more?**
  - a. Identify where other resources can be found and accessed.
  
- 6. What does this mean for the rest of the response and recovery activities?**
  - a. Identify the benefits, costs, etc. for accomplishing this task.
  
- 7. Calculate, adjust, recalculate and cross check.**
